The final vote at Marks Prairie broke the district tie, which held the movement in suspense since Saturday night of August 21st, when the voting began, and the union high school wins. Fifty prizes were awarded for the best of as many things, and the moving pictures, showing the operation of the Ford plant in Detroit, in the building of a Ford car from start to finish, were both new and interesting to many of our rural population who witnessed it. At night the crowd was favored by a wireless radio concert.

Quite an ear puller.

Successful Men

Really successful men—men who have never worked all their lives for the sake of getting rich, and yet are "well fixed," are invariably thrifty.

A fixed financial program is a great help to any man trying to save money. A plan of saving must be based on a knowledge of what constitutes true economy.

One of the first steps on the road to true success is the starting of a savings account, and adding to it regularly.
