A party that was "different" was the one enjoyed by a group of young people last Friday evening. Following the instructions given in the invitations, the guests, wearing bikini clothes, assembled at the platform where appeared first the sign of the skull and cross-bones. Following the signs through twistines and turnines, over hills and through the woods, the party at last arrived opposite "Treasure Island." Here, according to instructions, they hunted for the map which would direct them to the treasure. Crossing a fallen tree trunk to the island, they found printed on a bone the word "dig." Doing so the key to the treasure chest was disclosed and then followed the hunt for the chest itself. Just before reaching the spot the party was held up by "Captain Kidd" and tattooed in true pirate style. The search ended when coming to a grove of trees the pirate band discovered the Treasure Chest, over which flew the "Jolly Roger." The party then took to the water and a half hour of swimming and stunts were enjoyed. The treasure chest was then opened and the pirates served with fried chicken and sandwiches. The occasion was Captain Flint's birthday, but instead of the usual candles the cake was decorated with a skull and cross-bones. This, in addition to melons cut in the form of boats and flying pirate sails, was served as dessert. Pirate games were played until dusk and then around a bonfire marshmallows were toasted and pirate stories told until time to leave.
