Your gauge will PROVE Red Crown's economy

Stop at the Red Crown sign the next time your tank needs filling, and then keep track of your mileage.

You'll find that "Red Crown" takes you farther on a gallon, and gives you a more powerful, sweeter-running engine.

"Red Crown" vaporizes rapidly and uniformly in the carburetor and is consumed completely in the cylinders. Every gallon is the same, wherever and whenever you buy it.

Fill at the Red Crown sign—at Service Stations, at garages, and at other dealers.

CYLINDER OIL HELPS SWINE Ames Specialists Declare It is Safe for Hogs, Except Those With Delicate Skin.

Old oil from automobile crank cases can be used for oiling hogs, say the animal husbandrymen at Iowa State college. Although some people are skeptical about using this sort of oil, the Ames men declare that it is safe, except possibly in the case of white hogs, which have a delicate skin that sometimes blisters through the use of the oil.

The oil should be allowed to stand for a while in order to allow the fine particles of metal to settle out. The surface oil may then be poured off and used in the hog oilers. The sediment should be discarded.
