SANDY

The regular community song service will be held at the M. E. Church next Sunday evening, December 10th, when a program consisting of old time ballads and songs will be given. There will be a Christmas program there December 24th, announcements of which will appear later.

Public Invited To Eat Pie.
The Sandy Parent Teacher's Association will put on a short snappy program at the Community Church next Wednesday evening, December 13th, after which the pies the ladies are donating, will be auctioned off, and every one will indulge in a pie feast. Proceeds to be applied on the piano fund.

Popular Boy Celebrates.
About sixty friends gathered at the J. J. DeShozer home near Firewood last Saturday evening to celebrate the twenty first birthday of Grant DeShozer. A midnight lunch was served, and the guests passed the hours happily with cards and dancing. Geo. Beers and Mrs. Alma Maroney furnished the music.

Firewood School Celebrates.
The Firewood gave a most enjoyable Thanksgiving program. Those taking part were, Otto Spaller, Louise Lamper, Gladys, Harold and Lucile Wilkens, Marie Spaller, Nellie Lamper, Florence DeShozer, Laura and Velma Kesler and Cynitha Shuck. Florence DeShozer, Gladys Wilkins and Marie Spaller sang "Beautiful Oregon Rose". The patrons of the school served cookies and punch, after which Miss Hazel Shuck favored with several vocal and instrumental numbers. Miss Helen Stuben is the efficient teacher this year.

The British Government got out a new half-penny stamp for the West Indies, containing a picture of Christopher Columbus looking through a spy-glass as he discovered the islands in 1492. Columbus died more than a century before the first telescope was devised.

Five thousand dollars was paid for a single branch of red apples in Ferrell,

New Jersey, by a nursery firm. A record and agreement of purchase have been filed with the county clerk. The owner received \$1.00 outright for the purchase of the apple branch, and will receive \$4,000 additional in installments at the rate of two cents each for every tree budded from this branch, which is to remain on the tree in the orchard, according to reports.

Effective Rat Clean-Up

The bad results of carelessness in leaving breaks in the basement walls of a building originally intended to be rat proof are shown in a case recently reported to the Biological Survey of the United States Department of Agriculture. In the course of a rat campaign in Portland, Ore., in which the rodent-control men from the department were backed by the city bureau of health and the chamber of commerce, a building with unrepaired breaks of this sort was visited. The owner was advised to clean up all the rubbish in his basement, repair the breaks in the cement wall, use barium carbonate on hamburger steak to poison the rats, and also to set some traps. A few days later it was learned that in removing the trash three rat nests were uncovered, one of which contained 15 young. Thirty-six adult rats were found dead the morning after the poison was spread.

The Columbia River is now famous because of its wonderful scenic highway. Once it was famous because of its salmon, but year by year shrinkage of both the quality and quantity of its famed Chinook, together with the extermination of the blueback, has relegated it into a second-class salmon stream.
