

AND HOME.

of interest to the Farmer, Gardener, Horticulturist, Stock Raiser and Household.

WILLAMETTE POULTRY YARD

Lafe Laughory, living on the... Poultry to be successful on a scale must be kept in colonies...

the annual growth are much reduced in thickness on the sun-exposed side. The powerful rays of the sun cause the mischief; they check the flow of sap and the growth of wood on the south side...

WRITING ON THE CASE.

There are two ways of writing on the train says the Ladies' Home Journal. The first requires that the paper be laid upon a light board...

FARM NOTES.

An excellent article of soap is manufactured from corn. Experiments show that a bushel of corn, with the requisite amount of alkali, will make 200 pounds of soap.

DETECTING THE FRUIT TREES.

It is but a dolt of a farmer that does not know that all the heat of an animal comes from the food it consumes, but that exposure to cold wastes the internal heat, and thus wastes the food.

Real Estate Transfers.

Thos F Ryan to Henry Sauerman, lots 8, blk 18, \$60. O T Williams and M J Broderick to O & C R Co, right of way, \$500.

USES OF HOT WATER.

Hot water is one of the best simple remedies, says the Home Journal. For instance, a douche almost always yields to simultaneous application of hot water to the feet and back of the neck.

SCRATCHES IN HORSES.

Years ago I had a horse affected with scratches. I tried many recommended remedies without success. Having from experience that pine would cure chapped hands, I tried it to the cracked and sore feet, and only three applications were necessary to effect a complete cure.

HOW TO PLANT TREES.

Trees should be planted with the root part to the south, so as to afford protection to the stem from the injurious effects of the hot sun.

OREGON WEATHER BUREAU.

In co-operation with U. S. Weather Bureau, Central office, Portland, Oregon.

Crop weather Bulletin No. 10. For week ending Saturday, May 23, 1891.

WESTERN OREGON—WEATHER.

The temperature has steadily risen, ranging from 40 to 85 degrees. There has been absolutely no rainfall and the weather has been generally cloudless.

CROPS.

All vegetation has had excellent growth during the week. The weather conditions were favorable to all crops. Winter wheat never promised better. In Yamhill county it began heading on the 22d.

EASTERN OREGON—WEATHER.

Warmer, cloudless and dry weather prevailed. The showers on the 15th and 16th were of great benefit but did not cover the entire sections.

CROPS.

Fall and early sown wheat continues to thrive and do well. In sections it is filling. Late sown spring grain is generally poor, much of it failing to germinate on account of lack of moisture.
