BRIGHT PROSPECTS

OREGON CITY BUSINESS ON A SUB-STANTIAL BASIS.

More Factories and Buildings Will be Erected.

There is a general complaint all over the Northwest Pacific coast the past A grasper of creation, a vanquisher of kings season that business was flat and that A warblersweet of anthems, and a singer of the bottom had dropped out of the boom.

But Oregon City is not in the overboomed condition of many towns in the Northwest No boom has ever struck sum of any two cards is more the cipher is dropped. Thus, and a nine, making sixteen, and a nine, making sixteen, and as a six, two sevens as four, as a sight, and so on. If the the first two cards dealt is less the player-must call for another ich is dealt to him face up. The to make nine points. Which is nearest that number, either banker, wins. The banker from or lose to both sides at may win from one and lose to the Theorem Commercial to the commercial bank, and the agricultural sections have developed. It is true there was an apparent that number, either building shave been erected in the city since the opening of spring. Wilson & Cook have erected a large two-story building; Mr. Jagger is putting the finishing touches to his large two-story building adjoining the Commercial bank, finishing touches to his large two-story building adjoining the Commercial bank, and G. A. Harding has completed another handsome double store brilding on Main street. Messrs. Winesett & Scripture have their two story shop on Fifth street under way, and the probable construction of a large brick block next to the Commercial Bank, all goes to show that the town is not dead by any means. No city*in the state outside of Portland has A LARGER PAY BOLL

than Oregon City for help employed in manufacturing. This with the great agricultural resources of the country tributary to the city makes it unquestionably the solid business center of the state. The prospects for the future are very favorable. Grain and hops will bring a good price, and every indication bids fair for an abundant yield. The prospects of the country means more business for the town. In the city plans are being perfected for more inandsome residences, new sidewalks and street improvements are being

Among the contemposts addition to the manufacturing enterprises of Oregon City this sesson are an agricultural tarpiement factory, to employ 100 men; another paper will; an additional pulp mill; a factory for the manufacture of lamps and electric appliances, the first on the coast. Among the improvements to be made around the Falls is increased facilities for handling the increased facilities for handling the water power, the W. T. & L. Co. have already had engineers at work, making the surveys, and locating mill sites. The Willamette Falls Electric Co. are constantly making new improvements and are now putting in new wheels to increase their power. The Crown paper mill will erect a paper mill of their own while the Willamette Pulp & Paper Co. will add to their facilities by adding more machines, and will possibly build another paper mill to occupy the space between their paper mill and the Crown They intend soon to build a finishing room, warehouse and dock fronting on the giver back of the mill to facilitate shipping. The woolen mills will add to their capacity and make some

improvements.

The outlook is promising; our business men do a safe and solid business; we are not suffering from the collapse of a boom like the Sound towns, and challenge any city in the state to show an equal degree of prosperity.

The Hills of Song

Lo! I have tared and fared again Far up and down the ways of men, And found no path I strayed along As happy as the hills of song-

As in the days when time began, Are played the merry pipes of Pan. And never rises note of wrong

Upon the happy hills of song. There is no frost of doubt to blight; The sun of faith sheds lustrous light; To peace and joy the hours belong

Upon the happy hills of song. Then ho! who will, and follow me! Through flowery meads the path shall be; Fear not the way is steep or long

Unto the happy hills of song. Lot I have fared and fared again Far up and down the ways of men. And found no path I strayed along As happy as the hills of song. -Clinton Scotlard, in Harper's Bazar.
