NEWS OF THE WORLD

Boiled Down For the Edification of The Enterprise Readers.

THE DEMOCRACY.

Cleveland to be Shelved and Whitney Made the Standard-Bearer.

SARATOGA, Aug. 8.—The result of the recent conference of the representatives of the various democratic interests here is that David P. Hill has been finally persuaded to forego his ambition and stake his political future on another attempt to succeed himself as senator; that a union of the forces has been made upon Roswell P. Flower as the democratic nominee for governor; that Grover Cleveland is to be shelved and that the candidate for the national democratic nomination in 1892 is to be ex-Secretary of the Navy Whitney.

Starvation in India.

LONDON, Aug. 8.—The news of starvation in India, coming on top of Sir John Gorst's presentation of the Indian estate has caused a painful impression among the general public. It is felt that something is radically wrong, and that the Indian government has failed in its duty to provide against famine. This coupled with the prosecution of a native journal for reflecting on the Indian government, has made both the Marquis of Lansdowne and the viscount the subject of severe comment. The sentence of death in the case of the Manipur princess has not yet been carried out.

From the King of Tramps.

WASHINGTON, Aug. 7.—The secretary of the treasury has been advised of a bold attempt to be made this month to rob the treasury by a strong and determined band of men organized for that purpose. The plan is to start fire in various parts of the city for the purpose of diverting the attention of the police and then overpower the treasury watchmen and loot the money vaults. The information is given in a letter signed by the "King of the Tramps," who is said to be the leader of the band. The letter was referred to the captain of the watch, with instructions to give visitors proper reception.

Drink Was Her Ruin.

CINCINNATI, Aug. 9.—Mrs. Nellie Webb, an aged and wealthy widow, of Louisville, Ky., committed suicide at the College Hill sanitarium. Her family are prominent people of Louisville. She was a victim of drink and was placed in the sanitarium. Deprived of her stimulants she developed a melancholy tendency. Last night she went into the bathroom, locked the door, threw herself in a tub and turned on the water. The overflowing water attracted the attention of the attendants. An entrance was forced into the room, and she was found dead from drowning.

A Strangers Self Murder.

SAN FRANCISCO, Aug. 9.—William Eastland, an employ of the Pacific Pine Lumber company, while passing through the yard at the corner of Folsom and Stuart streets yesterday morning, discovered between two piles of lumber, the dead body of a man lying face downward over a stringer, with his throat cut from ear to ear. A blood-stained razor, tightly clutched in the right hand, indicated that the deceased had committed suicide. The body is now lying at the morgue awaiting identification.

Tried to Light a Fire With Coal Oil.

REDDING, Aug. 9.—A 16-year-old daughter of Dick Collett, a miner living at stump ranch, between Redding and Shast, while trying to light a fire with coal oil last evening, was dangerously burned by the can exploding. The chances of her recovery are doubtful. The children burned here last evening are both dead.

Florida's Senatorial Election.

TALLAHASSEE, Fla., Aug. 8.—The governor this morning announced that, inasmuch as a quorum of the Florida senate did not participate with the house in the joint assembly May 26, it is his opinion that Call was not elected United States senator, and therefore he cannot certify he is elected.

A Wife's Horrible Death.

RIPON, Wis., Aug. 9.—Mrs. William Drager, of this place, took three ounces of Paris green early this morning. Then she went to an out house and cut herself in the stomach with a razor. She lived four hours. She had quarreled with her husband a few days before.

Still Another Crossing Accident.

OSKALOOSA, Ia., Aug. 9.—A central Iowa train, at a crossing this afternoon, crashed into a buggy, in which were John Langstaff and four children. All the occupants were injured. Two children will die.

Compensation Demanded.

LONDON, Aug. 8.—Owners of the ships Strathairn, Birdston and other British vessels, demanded compensation from the Chilean government for harboring refugees during the attack of the congressional forces of Pisagua.

Crushed to Death by a Horse.

BROOKLIN, N. Y., Aug. 9.—John Unlack, age forty, a teamster employed by the People's Gaslight Company, and his four-year-old son, Thomas, were trampled to death by a horse in the company's stables this morning. Unlack had gone with his little boy to feed the horse, which attacked them both, and before assistance could arrive both had been thrown and their heads crushed to a jelly.

REQUESTED TO STUMP OHIO.

Senator Mitchell Asked to Help Major McKinley in His Race for the Governorship.

United States Senator John H. Mitchell is just in receipt of a very kind invitation to stump Ohio for Major McKinley this fall. It is from the republican state committee and is signed by Chairman William M. Hahn and Secretary W. S. Matthews. It follows:

COLUMBUS, Aug. 5.
The republicans of Ohio would be very glad to have you speak in the campaign in this state, which shall open about September 1. The importance of the campaign and the necessity for a republican victory you will appreciate. We are to have a hard fight and the enemy is alerdy at work. I assure you that your acceptance of this invitation will be appreciated, not only by the committee, but by major McKinley, our candidate for governor. We would like all the time you can give; and will you please indicate such dates as we can assign you.

Senator Mitchell may not be able to go to Ohio, but if he can spare the time he will.

THE WORLD'S FAIR.

Advices Received From the Special Commissioner Sent to Brazil.

WASHINGTON, Aug. 9.—The bureau of American republics is in receipt of information from Lieutenant Sawyer, U. S. N., special commissioner of the world's fair to Brazil, which would indicate that great interest is manifested by the northern provinces in behalf of the world's Columbian exhibition. The governor of Para, Senor Laird Saidro, received Lieutenant Sawyer and the Brazilian commissioners, who were appointed to accompany him, with great cordiality, and placed at the disposal of the commissioners a room in the palace where they are to do their work and receive collections, which may be sent from the upper Amazon parts. The governor was of the opinion that additional commissioners should be appointed by Brazil because of the enormous territory to be prospected, and the convenience of making shipments to Para. Later on the governor appointed ten prominent business men so that now the commission consists of twenty members, nearly all in close business relations with the up country merchants and planters. The provinces of Para and Amazon promises a superb collection of all their products, and it would appear that the boards of trade in Para and Nanos are determined to throw their influence in the direction of trade with North America.

POLITICS AND POLITICIANS.

A Scheme to Make Carter Secretary of the Interior and Russel Harrison a Senator.

ST. PAUL, Aug. 10.—A political intrigue of national interest came to the surface in Washington today. "Prince" Russel Harrison, General Clarkson, president of the national republican league, and Commissioner Carter, of the general land office are credited with being the parties to the political conspiracy that will create something of a furore when the details become public. This intrigue has for its main object the retirement of Secretary Noble from the interior department and the elevation of Commissioner Carter to his position. Later on, if the first move succeeds, Russel Harrison is to be made senator from Montana in place of Thomas B. Power. There are politicians who believe that Clarkson will succeed in his design of forcing Harrison to accept Nobel's resignation, and also that he will be successful in securing Carter's appointment in view of the influence that "Prince" Russel Harrison wields with his father. In return for "Prince" Russel's work in behalf of Carter the latter is credited with a willingness to use all his influence in Montana in securing a Harrison delegation in 1892, and the elevation of "Prince" Russel to Power's place in the United States senate. It has all along been supposed Carter would try for Power's place himself. It is believed now that he will work for the "Prince," hoping to retain a cabinet position during Harrison's second term, provided he gets it.

A Divorced Husband is Shot and Instantly Killed by His Son.

CINCINNATI, Aug. 9.—About 8 o'clock this morning, Charles Nieman, aged 20, shot and killed George Nieman, his father. Nieman had been divorced from his wife, but still lived in the same house with her and their children. He had frequent quarrels with his divorced wife and her family, and the tragedy was the culmination of one of these disputes. He came down after the boys had risen, and while they were dressing demanded that the door be opened, which was done. The old man entered the room and began to abuse his son, and finally assaulted him. The boy's mother interfered, but was roughly pushed aside by the divorced husband, and fell to the floor in a swoon. The old man pushed the son out of the room, and backed him down stairs. At the foot of the stairs is a yard. So soon as he reached the bottom step Charles stepped back, and drawing a revolver fired, killing his father instantly. The boy was arrested, but he takes the arrest very quietly.

INTERNATIONAL POSTAL UNION.

The Superintendent of Foreign Mails, Brooks, Tells What Was Done.

WASHINGTON, Aug. 9.—Capt. Brooks, superintendent of the foreign mails, has just returned from Vienna, where he was in attendance as a delegate to the international postal convention. There were, he says, delegates present from every civilized country in the world except the Transvaal and Natal. Captain Brooks believes that by the time the next convention, which meets here in 1897, is held that every civilized country on the globe will be in the union. The principal event of the Vienna convention was the admission of Australian countries. They agreed to come in October of this year, provided the international postal rates are not reduced. They claimed they could not stand a reduction. The present rate between this country and Australia is 12 cents, and from that country to this 6 pence a half ounce. Under the union the rate may be any where from 5 to 10 cents a half ounce. This country will at once reduce the rates to 5 cents. Australia may keep its rate at 10 cents, but it is likely it will reduce it at once to 5 cents. Another matter of interest included in the treaty is the change in the size of sample packages of merchandise which may be sent through the mails to and from countries in the union. The present treaty limits such packages to 8x4x2 inches. The new treaty increases the limit to 12x8x4, almost double the old limit.

THE OREGON WEATHER REPORT.

B. S. Pagne's Crop-Weather Bulletin for the Week Ending Saturday, August 8.

WEATHER.
The temperature has been from 2 to 5 degrees a day below the average for the week. On Tuesday and Wednesday thunder storms were quite general and rain fell, especially in the Willamette valley and along the coast; rain also fell on Thursday and Friday, while today is clearing weather and warmer. The rain fell was heaviest in Multnomah and Columbia counties and gradually decreased to the south, especially south of Marion county; south of the Calapoosia mountains less than 15th of an inch of rain fell. In the northern part of the Willamette valley about 75th of an inch of rain fell; in a few sections hail fell on the 5th.

CROPS.
The rain did no material damage to the wheat crop; much of the fall wheat was cut and in shock, ready for the thrasher, and all the damage done was the delay which will crowd fall wheat threshing and spring wheat cutting close together. There are a few reports of wheat having fallen, but this is practically nothing. A continuation of the rain would have caused the wheat to sprout; the clearing weather was most timely. Threshed wheat in Polk and Yamhill counties has been averaging from 25 to 40 bushels per acre; oats also yielded well. In some sections plowing for summer-fallowing is in progress. The rains were of great benefit to root crops, gardens, pasturage and young orchards, and had a tendency to destroy and cause a cessation of the ravages made by the hop louse and codlin moth. The four days rain was most unusual for this season of the year, but fortunately no damage was done and good results from it are expected.

EASTERN OREGON WEATHER.
The temperature has been considerably below the average for this season of the year. The weather has been cloudy and general showers prevailed on Thursday and Friday, ranging from 4th of an inch at The Dalles, 7th of an inch at Heppner, and 33d of an inch at Baker City. In the Blue mountains in Union, Wallowa and Baker counties snow fell on the night of the 6th. The temperature was so cool that fires were necessary in the house for comfort.

CROPS.
The rains delayed harvesting and threshing for two days; no damage was done to the wheat by the rain, though it did some damage to the hay crop east and south of the Blue mountains. In Wasco county from Dufur to The Dalles, the wheat is shrunken and the yield is poor; some smut is to be found; in other sections the wheat yield is good. In Gilliam county there is some rust. In Morrow county the wheat is yielding even better than was expected. In Umatilla county the yield is better than for many years. Wallowa, Union, Baker, Crook, Grant and other interior counties have excellent prospects.

The Oregon State Fair.

The prospects for a good State Fair were never so flattering as they are this year. The Premium List has been revised, and in many important points the prizes have been increased. The entries in the Speed Department are the largest and the best in the history of the fair. The State Fair is under the management of the State Board of Agriculture, and over \$15,000 in cash is offered in premiums for exhibits of stock, poultry, agricultural products, fruit, etc., works of art and fancy work, and for trials of seed. The board is making every preparation for a great meeting. Many valuable improvements have been made, and the grounds have been cleared up and greatly beautified. Electric and horse-car lines now run from Salem to the grounds. All persons wishing a premium list for the fair of 1891, can obtain it by addressing J. T. Gregg, secretary, at Portland, Oregon, or Geo. W. Wait, assistant secretary, at Salem. The fair begins on the 14th of September, and will last one week. Send for a premium list and prepare something for exhibition this year.

JUDGE HOFFMAN DEAD.

For Over Forty Years He Has Been on the Federal Bench.

SAN FRANCISCO, Aug. 9.—Judge Ogden Hoffman died early this morning at St. Luke's hospital, of paralysis of the heart. He has been ill with heart trouble since April 2, but at times so far recovered as to be pronounced cured. Friday another attack set in and this time proved fatal. He was unmarried and had always lived at a club. He has been federal judge since March, 1851, a term of over forty years. No other living United States judge has been on the bench for so long.

Shells From the Sea.

Ablone, limpets, sea urchins, and sea moss abounds, petrified wood spar and specimens of wood. Also paper manufactured from Oregon cotton wood.

Address with stamp, for particulars to PACIFIC COAST SOUVENIR CO. Clatskanie Oregon.
