RIOTS IN CHINA.

The Native Soldiers Said to Lead the Outbreaks.

ACTING UNDER SECRET ORDERS.

Refugees from Ichang—Foreigners in a Desperate Situation Where Gunboats Cannot Go.

SHANGHAI, China, Sept. 12.—The North China News say editorially: There are points about the Ichang riot of serious importance. It was in no sense the work of a mob. There were indeed pretexts in the shape of a child said to have been kidnapped on the day of the riot, but this is evidently merely a subterfuge in order to give a shadow for an excuse for an outbreak. Evidences that it was directed and carried out by soldiers are only too numerous. The Chinese brigadier general at Ichang is a great friend of foreigners, but he was helpless in the presence of an order that evidently came to his Hunan soldiers to destroy all foreign property they could on that day.

Where no gunboats can go, the position of foreigners, unless in numbers, is very insecure. When soldiers get orders from their secret leaders, as at Ichang, they care nothing for their officers. The central government is powerless, for it has Hunan officials everywhere, and the troops everywhere are Hunan men, except Hi Hung Chang's disciplined force. To order him to suppress Hunan with those men is to start a civil war. The situation is very critical, and the only solution is for a foreign force to overawe Hunan, with the tacit connivance of the Chinese government. There will be no security for foreign life or property in China, unless the rebellious Hunanese are suppressed by force.

HONGKOW, China, Sept. 6.—The steamer Paobua arrived here today with the Ichang refugees, twenty in all, all of whom lost everything except the clothes they wore at the beginning of the outbreak. Several bore marks of serious violence. The riot took place at broad noonday, without warning or provocation. The destruction was carried out with the utmost speed that no lives were lost. The Scotch missionaries owed their escape to the fact that they had gone boating on the river at the time of the outbreak. They hurried back, and were just in time to rescue the senior missionaries, infant children, and escape when the mob arrived. Roman Catholic sisters were hurled over a steep bank into the river, where they were stored and several were severely hurt.

In Hankow things are stirring again. Yesterday there was a gathering of the anti-foreign element here, including a large number of magistrates and officials. They resolved that foreigners must be driven immediately from the central provinces. The missions at Waching have received threatening placards, ordering them to leave at once or they will be exterminated. The Taotai inspected the gunnery today making search for bones, eyes etc., of children said to have been murdered by the sisters.

AFFAIRS IN CHILE.

A More Conciliatory Attitude Toward the United States.

NEW YORK, Oct. 13.—The Herald cable from Valparaiso, Chile says the junta and political circles are greatly exercised over the comments which are appearing in the newspapers of Argentine Republic in regard to the treatment of the officers of Balmaceda's government, who have fallen into the power of the present authorities. The editorials condemn the action of the junta in prosecuting, as they term it, Balmaceda's supporters by imprisonment. Such action, the newspapers declare, is unworthy of a civilized nation, and they add that the proper course for the victors to pursue is one of forbearance and that is the only thing that will benefit the republic in the future. The attitude of the junta toward the American legation is now so conciliatory that the presence of the San Francisco in Chilean waters is no longer deemed necessary. Captain Schly, of the Baltimore, has so informed Admiral Brown. I learn on reliable authority that the name of Augustin Edwards has been presented as a candidate for the presidency with the assurance that he will be elected. He is a strong man politically, although not credited with brilliant qualities of statesmanship. His candidature will probably tend to settle all political difference.

Blaine vs. Harrison.

WASHINGTON, Oct. 11.—Senator Mitchell was interviewed today on the matter of Oregon's choice for president. He said Harrison had given the country a good administration and the people felt very kindly toward him, yet Blaine had a great hold upon the people of the west. The senator also said that it was too soon to talk about the presidency.

SHOT HIS BROTHER.

Result of a Linn County Quarrel Over Land.

ALBANY, Oct. 9.—Information was received in this city late last night of the killing of Henry Ingram, at the latter's farm, five miles from this city. The killing was the result of a quarrel between the brothers over the division of an estate, and a contest over the terms of the will left by their mother. Henry, on several occasions, had been found lying in wait, armed, near the house of his brother Frank, it is supposed for the purpose of killing him, and both have recently been going around armed. The hired man on one occasion shot at a midnight prowler, supposing it to be Henry Ingram. Tonight he was again seen approaching the house armed with a gun. He was met by his brother Frank, with a revolver in each hand, who ordered him to throw up his hands. On his refusing and raising his gun to shoot, Frank opened fire upon him, killing him instantly.

ALBANY, Oct. 10.—In his preliminary examination today F. S. Ingram was held without bail to await the action of the grand jury for the murder of his brother, Henry Ingram, near this city last Thursday.

THE SANDWICH ISLANDS.

Report that Queen Liliuokalani May Die at any Moment.

SAN FRANCISCO, Oct. 9.—The Examiner has advices from Honolulu to the effect that Queen Liliuokalani has been taken ill with serious fainting spells, and her physician, Dr. Trosseau, has pronounced her trouble organic disease of the heart, for which he can suggest no remedy. Death, it is stated, may occur at any moment. The queen has been advised of the worst and has made her will. The Honolulu press is silent on the subject, but it is known that all the political factions are busily at work. It is stated no one can be found whom all the factions will agree upon for regent to hold power during the minority of the heiress to the throne, Princess Kaiulani who is now finishing her education in England. The father of the princess is an Englishman, with pronounced English sympathies, and the opinion is expressed that in the event of Kaiulani's accession to the throne of the islands an effort will be made to bring the island under English control. The native sentiment is preponderating in favor of an American protectorate in some form.

BOLD BANK ROBBERY.

They Get Away With \$3500 at Enterprise in Daylight.

LA GRANDE, Or., Oct. 9.—News has just reached here of a daring robbery which was perpetrated upon the National Bank of Enterprise, in Wallowa county Wednesday afternoon. Cashier Holmes was in the bank alone, when a man entered and asked how much money John Smith of Portland had on deposit. Upon [the cashier saying that no such man had any deposit there the visitor drew a pistol and, covering the cashier, said: "You're a liar."

At this juncture two confederates came up on horseback. One of them, sitting on his horse, with a pistol in each hand, warned the people back; the other entered the bank and poured into a sack all the money on the counter, about \$3500 in all. The three men escaped to the mountains in the direction of Cornucopia. A posse is in hot pursuit, but as the county is sparsely settled the capture of the robbers is doubtful. Four thousand dollars in a till under the counter was not found by the robbers.

American Engines Going South.

WASHINGTON, Oct. 10.—The bureau of American republics is informed that one of the results of the reciprocity treaty with Brazil is the sale of 128 American locomotives in the republic. In addition to this, twenty-four locomotives are now being loaded at Philadelphia for Brazil on the barkentinees Maggie Thompson and Eleanor Williams. Under the reciprocity with Brazil locomotives and railroad supplies from the United States are admitted free of customs duty, and the railroad equipment of that republic, which was formerly of English manufacture, is now, the bureau states, being rapidly replaced by articles of American manufacture.

The Destitute Russians.

ST. PETERSBURG, Oct. 10.—Senator Barnoff estimates that no fewer than 32,000,000 peasants in Russia are now destitute, and must be provided for the next ten months. It will require 320,000,000 pounds of grain to feed them. Owing to the difficulty of obtaining fodder for cattle, the export of linseed cake from Russia is prohibited. The famine in the Volga valley has caused widespread sickness among the hunger-suffering inhabitants there. Thousands of unfortunate peasants are already prostrated by typhus fever.

A Negro Lynched.

OMAHA, Neb., Oct. 11.—Joe Coe, a disreputable negro, was hanged by a mob here Friday for criminal assault upon a five-year-old girl who subsequently died. The mob beat the jail doors down with railway rails and hung Coe to a trolley wire in the street. A number of indictments have been found against the leaders of the mob but it is certain no jury can be found in the county that will convict.

Morrow on the Bench.

SAN FRANCISCO, Oct. 5.—Ex-Congressman William W. Morrow, who was recently appointed by President Harrison to succeed Ogden Hoffman, deceased, as judge of the United States district court for this district, took his seat on the bench this morning. Judge Morrow reviewed the services of the deceased judge at length, and paid a tribute to the latter's ability. Addresses were made by other members of the bar.
