Interest paid on time deposits. Sub Agents of THE LONDON CHEQUE BANK.

DOMESTIC AFFAIRS.

The Annual Report of General Miles Filed.

REVIEW OF THE SIOUX WAR.

California Traffic Association Organized—Oregon Finances—Stage Robbers Arrested.

WASHINGTON, Oct. 17.—General Miles in his annual report recommends that the National Guard of the country be mobilized at the World's Columbian Exposition in 1893, and that congress be requested to make an appropriation to pay the cost of the transportation.

General Miles reviews at length the Indian outbreak of last winter, attributing it largely, as he did at the time, to the failure of the crops and failure of the government to properly perform its obligations in regard to rations, etc. Of the Messiah craze he says the fanaticism and superstition of the people were taken advantage of by the traders to encourage them to hostilities. He commends the administration of Captain Penny, an acting agent of Pine Ridge, and says through additional appropriations the Indians now receive nearly half as much more as they did a year ago. However, the fires of discord still remain. The commanders have discovered communications going on between the different camps, inciting the Indians to hostilities, and even now (September 7) a delegation from the Indian territory is absent, ostensibly to visit friends in Wyoming. They have, in fact, gone across the mountains and are now in the abodes of the supporters of the Messiah delusion, near Pyramid lake, in Nevada. Even while the hostages were held at Fort Sheridan last spring, they received a communication from friends in the Sioux camp, saying they had not given up the idea of a grand Indian uprising, and that the Utes were ready to join the Sioux whenever the latter desired to resume hostilities.

CALIFORNIA BUSINESS MEN

The Government Urged to Aid the Nicaragua Canal.

SAN FRANCISCO, Oct. 18.—A meeting which was attended by 200 representative merchants from San Francisco, Fresno, Los Angeles and other parts of the state, was held at the rooms of the chamber of commerce here today. Chairman John C. Stetson, in his address, stated the object of the meeting was the formation of a state traffic association, looking to an increase of the competitive modes of rail and steamship transportation from the eastern states to the Pacific coast, in order to enlarge the outlet for the products of the coast.

Thomas S. Haynes was elected secretary. Resolutions were adopted favoring the organization of the different business interests of San Francisco, with the cooperation of the producers and business men of the state, under the title of "Traffic Association of the State of California," with the object of encouraging the building of competitive rail, canal and steamship lines and the regulation of traffic. Several speeches were made on the subject of transportation facilities and resolutions were adopted looking to the appointment of a permanent committee of fifteen to represent the interest of California in the construction of the Nicaragua canal, and urging the United States government to grant such conservative assistance as will secure the control of the canal and its construction at a minimum cost.

Oregon's Financial Condition.

SALIM, Or., Oct. 17.—The fact that the state treasurer is now endorsing all warrants drawn on the general fund, "Not paid for want of funds," has elicited considerable inquiry as to the financial condition of the state. State Treasurer Metcham said that the state board which made the levy of taxes for this year, met just prior to the legislature and levied a sufficient sum to meet the current expenses of the state for 1891, estimating on the same basis as 1890, but the legislative assembly made greatly increased appropriations and large sums were soon asked for, for which no provision had been made in the estimate. As a natural consequence the funds have been exhausted. The total amount received into the general fund this year, including the balance turned over, is about \$530,000, which has been paid out on warrants since January 1. State warrants are eagerly sought at their face value, showing the soundness of the state's financial condition. There is no state indebtedness, the bonded debt being but \$1,500, and outstanding warrants other than those of this year, only \$700.

COLUMBUS, O., Oct. 17.—Mrs. Allen G. Thurman died late this afternoon. She was a victim of la grippe during the winter and never recovered from the attack. Judge Thurman is much enfeebled and it is feared by his friends he will not long survive his wife.

SMUGGLERS CAPTURED.

A Gang in the San Juan Islands Broken Up.

PORT TOWNSEND, Wash., Oct. 18.—Thirteen smugglers are reported to have been captured on the San Juan islands by the revenue cutter Wolcott yesterday by a neat piece of strategy. Extensive smuggling of opium and Chinese has been going on for some time. The San Juan islands was the smugglers' rendezvous. Captain Tozier sent a steam launch to guard the islands a week ago. Several men were sent from the launch disguised as shipwrecked sailors. They went to a cabin occupied by the smugglers and asked for shelter. After being there two days the men, having secured sufficient evidence against the smugglers, sent for the cutter. Friday night the Wolcott went to the islands and captured thirteen of the gang and cut off the escape of the rest. Marines are guarding the islands, and it is expected the entire gang will be caught. This is said to be the most extensive gang of smugglers on the coast, well organized and protected by steamers and many settlers of the islands.

END OF THE STRIKE.

Miners at Franklin and Newcastle go to Work.

SEATTLE, Oct. 18.—The strike in the Gilman coal mines, which was inaugurated March 12, has been broken by the strikers themselves. At a meeting of the strikers held today it was decided to call the strike off. The company really broke the strike about two months ago by taking the non-union men in and protecting them with armed force. Starvation has done the rest, and about forty of the strikers have returned to work already, and five or six desperate men have been the only ones to keep the others from going back. The company has announced that it will take back all the men who gave satisfaction before the strike, but that all agitators will be barred. The strike is also practically off at Newcastle, one of the camps of the Oregon Improvement Company, and, as nearly all of the men who led the strike have gone to other camps, all of the 12 men have signed the contract and returned to work.

THREE RUSSIAN JEWS.

Held for Trial in Philadelphia for Seditious Language.

PHILADELPHIA, Oct. 16.—Before Judge Biddle today a hearing was had on the habeas corpus cases in the interest of Julius Moskowitz, Isidore Brenner and Morris Gillis, Russian Jews, charged with a breach of the peace, distributing anarchistic circulars, making incendiary speeches and inciting a riot. Officers testified as to their utterances at a meeting when they advised their hearers not to believe in God, not to fear the police, condemned the president of the United States and said he ought to be killed. Judge Biddle declares he had no doubt but that the preaching of their doctrines was seditious. These foreigners came to this country voluntarily, and the first thing they did was to attack our institutions. They were enemies to the human race. He held all for trial.

Train Wreckers Arrested.

SACRAMENTO, Oct. 18.—Detectives Ben True and Ed Burke brought Albert and Jeff Roberts from Colfax on a special car tonight. The men were arrested in connection with the wrecking of the fast mail train from the East several days ago. They were taken immediately to the private offices of the company, where the company's criminal lawyer, Charles T. Jones, examined them. They were cloistered for over an hour, and Superintendent Wright stated to the correspondent that it is positive that the brothers know something about the crime. Sheriff Conroy and deputies, of Placer county, and Detective Will Smith, of the railroad, are now in Forest Hill county looking for two more men, who are partners of the Roberts brothers.

Portland Street Car Accident.

PORTLAND, Oct. 16.—This afternoon an electric car on the Metropolitan Railway company's line jumped a trestle and was precipitated to a distance of thirty feet below. The car contained thirteen passengers, eleven of whom were injured. Mrs. W. Olds was the most seriously injured, but a fatal result is not feared. The trestle was located at a curve in the track.

Arrest of Road Agents.

LINKVILLE, Or., Oct. 16.—News received from Lakeview, Oregon, states that thirteen men have been arrested who are suspected of participation in the late robbery of the stage running between Lakeview and Linkville. Among those arrested are the Howard brothers. The officers found in possession of the men arrested several postal notes and money orders.

FOREIGN BUDGET.

Chilians Assault American Tars in Valparaiso.

THE MEXICAN INSURRECTION.

The Chilean Presidential Electors Chosen—Balfour Succeeds William Henry Smith.

NEW YORK, Oct. 17.—A special to the Herald from Valparaiso, gives further particulars of the shooting affray between the sailors from the Baltimore and the Chilean man-of-war-men in the streets of that city yesterday. Liberty was given the Americans yesterday for the first time since the change in the government. The intendent assured Captain Schley, of the Baltimore, that full protection would be given the men. The feeling between the American and Chilean man-of-war-men, however, has been running high. The row between the Baltimore's sailors and Chileans first broke out on a wharf, but was stopped before it assumed serious proportions by some of the more prudent of the Americans. The quarreling sailors, however, later on in the day, again met, this time in one of the numerous saloons, and as both sides had been drinking freely the fight was soon renewed. The Americans had to fight on the defensive all the way back to their ship. At the different street corners infuriated mobs of Chilean soldiers and rabble fell upon them. It seems evident now that the row was the result of concerted action, the culmination of the intense ill feeling that all along has been evidenced against the Americans. The Chileans used their knives all through the fight, and in a most cowardly fashion too, for in every instance where an American sailor was wounded, the stab was in his back. Boatwain's Mate Regan fell and was immediately set upon by the Chileans and stabbed and kicked to death. Six American sailors and ten Chileans are laid up with serious injuries. One Chilean was killed.

The Mexican Trouble.

SAN ANTONIO, Tex., Oct. 17.—The capture of Catarino E. Garcia, the leader of the uprising in the northern states of Mexico, has not yet been effected, although President Diaz has ordered a reward of \$20,000 to anyone who will take him dead or alive. The report reached here last night that Garcia was in the immediate vicinity of Piedras Negras, Mexico, with an army of several hundred men all well armed. The Mexican government is hurrying troops to that section by thousands and will make every effort to bring the uprising to an end. There is great alarm felt among the citizens on both sides of the Rio Grande border. Garcia has issued another manifesto.

The Chilean Election.

SANTIAGO, Oct. 18.—The general election occurred throughout Chile today (Sunday). So far as known there were no disorders. Electors were chosen today who will select the president next month. There is no indication as yet as to who will be elected, as no candidates have yet been announced. The clerical party say they have secured a majority in the house of deputies, and the senate will probably be controlled by the liberals. The exact result will not be known for several days. There was a street parade of troops today.

Balfour Succeeds Smith.

LONDON, Oct. 8.—It is officially announced today that Balfour has been appointed first lord of the treasury in place of the late William Henry Smith. The Right Hon. C. T. Ritchie is spoken of as Mr. Balfour's successor as secretary for Ireland. Mr. Ritchie is president of the local government board, an office with a salary of £2,000 a year, whereas the chief secretary for Ireland receives £4,225 a year.

Rome, Oct. 18.—Earthquake shocks at the Island of Pantellaria and vicinity continue. A volcano has arisen in the bed of the sea off the coast of Pantellaria which ejects masses of stone of great weight.

BUTTE, Mont., Oct. 18.—Mrs. Ann A. Dodge, an inmate of the poor house of this city, and 80 years of age, received notice yesterday that she is heir to an estate worth \$8,000,000 in England. The story dates back two centuries, at which time her great-grandfather, on her mother's side, owned a vast estate near London. His oldest son removed to America, settling and marrying in Virginia. Two children, William and Annie were born of the marriage. The latter is the mother of Mrs. Dodge.

NEW YORK, Oct. 16.—The application of Henry Sanford, president of the Adams Express company, for an attachment against the property of John Hoey, deposed president of the company, in a suit to recover \$712,850, was granted today.
