FOR A READING ROOM.—At the last Francis Murphy meeting, Wednesday night of last week, a movement was begun looking to the establishing of a public reading room in this city. A mass meeting was called at the Congregational church last Saturday night to further consider the matter and take such action as might seem best in the premises. Attorney G. C. Brownell, who had been chosen president, occupied the chair and Prof. Strange was made secretary of the meeting. The subject was discussed by Messrs. Brownell, Chase, Cross, Dye, Lucas, Parker, Roake and Strange. All seemed in favor of incorporating so that there would be a responsible head to the concern, was thought certain that at least \$100 a month would be required to support the reading room as it should be. It was deemed out of the question to have a charity reading room—one in cramped quarters furnished with what other people did not want. This one must be attractive and comfortable with first-class accommodations or it would not serve its purpose. Finally a committee of nine, of which the president was named as the chairman, was authorized to be appointed to take charge of the matter. This committee consists of Chairman Brownell, H. L. Kelly, H. E. Cross, M. A. Stratton, D. C. Latourrette, H. S. Strange, C. H. Dye, E. E. Williams and E. G. Caulfield and a meeting is called for Thursday night of this week at Mr. Brownell's office.

A PAINTER IS WANTED.—Last week an itinerant painter got a job of painting at A. Schilling's Portland saloon in this city. Sunday morning Mr. Schilling found he had been robbed of two watches the night before, the thief having obtained entrance to his bar room by boring holes through a section of the wall and removing a piece large enough to permit the entrance of a man's body. One of the watches was an open-face, silver case, stem-winder of Seth Thomas make. It bore the name of Leebman & Son, Manitowish, Wis. The ring in the head of the watch was of an odd shape. The other watch was a hunting case, silver, key wind watch with Springfield works. The thief was about thirty years of age and of light complexion. After Trembath closed his saloon Saturday night he returned and turned on the electric light when the painter, who appeared considerably disconcerted at something, came from the vicinity of the side entrance and purchased a drink in order to appear to have some errand about the place. Sunday it was found that an attempt had been made to bore a hole through the side floor of that establishment and there is no doubt that this fellow was disturbed in the act and deemed it unsafe to go back there again. The police were not notified of the theft till after the thief got away from town Monday morning. The brace and bit with which he operated were stolen.

HE KEPT HIS MONEY.—Last Sunday night J. W. Jones, a carpenter who resides in the western portion of the city, was returning home from down town when he was accosted by two men who asked him if he had any money. He responded that he did have money, and promptly whipping out a revolver, he expressed his determination to keep his funds. When the would-be robbers found they had a Tarter they gladly availed themselves of his advice and disappeared in the darkness. Mr. Jones says there were two men after him, one of whom was four inches taller than the other, but on account of the darkness he cannot give a clear description of them. The reason he gives for letting them off so easily is that he wanted to avoid trouble.

AN UP-RIVER PASSENGER SERVICE.—The matter of putting the Manzanillo on the river for passenger service between Dayton, Newberg and Oregon City is being seriously considered by Captain Ward and she is likely soon to be put on that route. The design is that she will make two round trips a day from the basin in this city,—one trip to Mission landing and the other to Newberg—connecting with the Oregon City Transportation company's boats here for Portland. The Manzanillo can not handle heavy freight on this run. The demand for passenger transportation from the points along the river that have no railroad is great and it seems probable that the proposed enterprise will be well supported. Inasmuch as the light freight handled will be passed through the warehouse at the basin direct to the steamer below the difficulty at the locks during low water will be avoided and there is always water enough for the Manzanillo on the upper river. With the new arrangement the people of Dayton, Newberg, Clatsop, Butteville, Ray's landing, etc., can go to Oregon City or Portland and transact business and return the same day, while it now requires two days for the trip.

"FANCION THE CRICKET."—Wednesday and Thursday evenings of last week the comedy "Fancion, the Cricket," was given at Shively's theater by the Falls City Dramatic company. Great pains had been taken to mount piece properly and considerable extra scenery was provided for the occasion. The company was unfortunate, though, in its selection of dates and it had to compete with a political convention, temperance meetings and other social functions. Under the circumstances the patronage was all that could have been expected. The principal parts were "Fancion," taken by Mrs. I. Cushing, "Landry and Didier," the two brothers, by J. B. George and J. L. Elgholz, and "Madelon" by Miss Birdie Walker, and they were well sustained. Mr. Elgholz showed a happy facility in smoothing over some rough places and making distinct hits with the audience. The music furnished by Fox's orchestra was excellent. The comedy is soon to be repeated here and it should be well patronized.

HIS EIGHTY-THIRD BIRTHDAY.—On Thursday the seventeenth of March Mr. S. W. Moss celebrated his eighty-third birthday. He was born in Paris, Bourbon county, Kentucky, March 17, 1810. The old gentleman has led an active life, most of it having been spent in pioneer work. He has been in Oregon City more than half a century. He built the first hotel, the first livery stable, dug the first well, removed first stump built the first board fence in town, and built and ran the first ferry boat on the Willamette river, doing all this work with his own hands and unaided by anybody. He harvested wheat on the land where the city of Salem now stands. The old gentleman is remarkably vigorous for one of his years. He writes a list as regular as copper plate. He has a retentive memory and is quite a repository of interesting historical facts pertaining to this country. He promises to enjoy life a number of years yet.

A SUIT SETTLED.—Some time ago J. J. Cooke purchased of the heirs of Robert Moore their four-fifteenths interest in the large tract of land on the west side of the river held by the Willamette Falls Electric company as the successor of the Willamette Locks & Transportation company. The matter was to have come up at the spring term of circuit court for legal settlement but last week the interested parties agreed upon the terms of settlement and division and Mr. Cooke was given for his share twenty-five acres lying just back of Henry Smith's house on the west side. The land is considered worth \$1000 an acre. The stipulations have all been agreed to and signed and soon as the deeds are executed the tract will be platted and put on the market.

MORE BOATS TO PORTLAND.—Every Saturday night hereafter the 6:00 o'clock trip up from Portland will be omitted and instead of it the boat will leave up at 11:35 o'clock, thus giving Oregon City people an opportunity to leave home at 6:30, attend theater in Portland and return home the same night. It is expected that this will prove a popular trip. A change in the Sunday timetable is also announced so that boats will leave Oregon City at 9:30 a. m. and 2:30 and 6:00 p. m. and leave Portland at 8:00 and 11 a. m. and 4:30 p. m., making one round trip more than has been run on the winter schedule.

SOME EVIL DOERS.—John Sand, an Indian, was found by the police last Saturday in a state of beastly intoxication and he was lodged in the cooler. When his senses returned to him he said the liquor that had caused his degradation was given him by Sol. Clark, a half breed. Then the United States got after Sol. Clark and last Monday Officer Kelly arrested him and took him before Commissioner Paul R. Deady in Portland who fined the offender \$10 for making his fellow mortal drunken contrary to law.

LOST.—A small purse, containing two rings, one bearing the initials "W to F 1878." A liberal reward is offered by leaving the same at the Chief of Police.

HALF AND HALF ON DRAUGHT.

QUARTER OF A CENTURY AGO
There settled in Baker county, Oregon, near what is now Baker City, a man who has since become identified with the resources and development of that country. This man is no other than Mr. John Stewart, one of the wealthiest and most influential citizens in the county. In a recent letter he says: "I had been suffering from palis in my back and general kidney complaint for some time, and had used many remedies without any but temporary relief. The pains in my back had become so severe that I was prevented from attending to my work and could not move about without the use of a cane. Hearing, through a friend, of the wonderful cures effected by Oregon Kidney Tea, I was induced to try a box, and from that very first dose I found instant relief, and before using half the contents of the box the pains in my back entirely disappeared. I have every faith in the virtues of the Oregon Kidney Tea, and can conscientiously recommend it to my friends. I would not be without it for anything."

Oregon Kidney Tea cures backache, nervousness of urine, blood, dust, sediment, burning or painful sensation while urinating, and all affections of the kidney or urinary organs of either sex.
