Mails close going South, 9:00 A. M., 7:25 P. M.

### SIDE ROUTES.

Oregon City to Ely, Carney, Mullins, Melbetta and Willhoit. Leaves at 10:00 a. m. Mondays, Wednesdays and Fridays and returns at 10:00 a. m. on following days.  
Oregon City to Ely, Mink, Clark, Mowbray, Brook, Union Mills and Mullins. Leaves at 10:00 a. m. Tuesdays, Thursdays and Saturdays, and returns on following days at 11:30 a. m.

FRIDAY, APRIL 8, 1902.

**FARMERS, ATTENTION.**  
Wilson & Cooke have the only complete line of Agricultural Implements in Oregon City. Portland prices duplicated. Buy of them and save your traveling expenses and freight.

**THOMAS ROCK PULVERIZER.**—Last Saturday Dr. A. D. Walker, vice-president of the Ashland Mining company, H. B. Coffin, secretary and treasurer of the corporation and G. A. Clark, all of them of Portland, came up to Oregon City to examine the machinery and see in operation James Thorn's method of pulverizing rock by impact. The machinery is set up in the cement mill on Main street. The rock pulverizer is an iron and steel contrivance weighing four tons and its appearance suggests a huge coffee mill. On opposite sides at the bottom are two swiftly rotating wheels with arms bearing steel plates upon which is fed the rock to be pulverized. These wheels hurl the rock toward each other and the two volumes of rock meeting pulverize each other. A draft of air carries away the rock dust to the floor above where the lighter part is taken out and the remainder returns to pass through a rotating cylinder through which a current of air passes. If there be any mineral in the rock it remains and is deposited from the cylinder while the gangue is carried away. For this exhibition, however, a tough lime rock was used and only the pulverizer was put in operation. Five hundred pounds of the rock was put into the machine and in seven minutes it was reduced to an exceedingly fine dust. The gentleman who witnessed the operation was much pleased with it. They are about to put a plant in their mine in southern Oregon for reducing the ore.

**HE WOULDN'T BUY HE DID.**—Last Saturday night near midnight Officer Kelly's attention was called to some men who were near Trembath's saloon on Main street talking loudly and not conducting themselves with proper decorum. He told two of them to move on but the third, a big, burly fellow, advised them to pay no attention to the officer and he himself took occasion to express his contempt for policeman and law. Monday the fellow who had been so contemptuous and defiant, Peter Gaffney, was arrested and fined \$10 by Recorder Porter. He swore he would neither pay the fine nor go to the calaboose and when the two policemen undertook to conduct him to the cooler he made a fierce attack upon them. They had a scuffle on the sidewalk during which the officers were compelled to use their clubs rather freely. Gaffney's hands and feet were finally securely tied and he was carted off to the lockup and deposited therein. He was not long left to his own reflections. He belonged to Geo. Broughton's mill force and his employe soon paid the fine and released the prisoner. The other fellows, Thomas Munson and David Turner paid their fines and \$10 apiece.

**HIS COMMISSION RECEIVED.**—On the fourth of last February the president sent to the senate the name of Hon. Peter Paquet to be receiver of public moneys at the United States land office in this city. The following Monday the appointment was confirmed. The time since then has been occupied in the necessary red tape of arranging bonds, etc. Last Monday Mr. Paquet received his commission from Washington, which qualified him to enter upon the discharge of his duties as receiver. However, he had other business to attend to which prevented his taking charge of the office at once. But the transfer was begun Thursday and is now in progress. It will take two or three days to complete the change. Hon. B. F. Burch, whose term in the office has expired, will soon return to his home in Polk county near Independence.

**THEY ROBBED THE DEPOT.**—Thomas McHale, George Martin and M. Thompson were arrested in Oswego last week for robbing the Southern Pacific depot of that place of sundry small sums of money and tickets. McHale, a lad of fifteen, was caught in the act and upon examination was bound over to the grand jury in the sum of \$250 which was furnished. He peached on Martin, a train newsboy, who was also arrested. He confessed his guilt and waived examination. He is now in the county jail here waiting for the grand jury, being unable to furnish a bond for \$1000. Thompson is sick abed in Oswego but is under guard and will be dealt with when his health will permit. It appears that for some months petty pilfering has been going on at the Oswego depot. One agent could not detect the culprit and rather than stand the losses himself or be suspected of embezzling on a small scale he resigned. His successor set about capturing the thieves, got a detective and unearthed the whole thing. McHale was a visitor from Albina and was caught in his first attempt. Martin had the keys and confessed that he had pilfered the station on several occasions. Thompson is said to have supplied the keys and instructed Martin in the method of making the robbery though he did not actually commit the offense himself. The boys are all in a bad fix.

**THE TAX COLLECTION.**—Sheriff Samson has received nearly \$40,000 of the taxes thus far this season. The total levy is \$86,947.43 so he is not half done with his job yet. Mr. Samson says he is receiving more gold this year and particularly \$20 pieces, than ever before during the twelve years he has had occasion to note the tax collections. People pay their taxes, too, more readily than they have for some years and the prospect is that the delinquent list will be smaller than usual. Judged by the tax collections the people of Clackamas county have never been in so prosperous a condition as now.

**OREGON CITY LIBRARY.**—The committee on the organization of a public reading room enterprise, appointed at the mass meeting last week at the Congregational church, held a meeting March 31 and agreed to incorporate with a capital stock of \$10,000 in 1000 shares of \$10 each. No more than ten per cent of the face of the stock is to be due in any one year. A sub-committee consisting of C. H. Dye, D. C. Latourette and H. S. Strange was appointed to draft the articles of incorporation and perfect the organization. The full committee adjourned subject to the call of the chair.

**THE FIRST FISH WHEEL.**—Tom Brown and H. Trembath are building a fish wheel at the foot of the transfer wharf at the falls. It will be ready for service by the time the close season for salmon ends. The wheel will be employed on the Willamette and Clackamas rivers, at Clackamas rapids most of the time probably. It is said that this will be the first fish wheel on the Willamette river. Such contrivances for catching salmon are common on the Columbia but they seem to have been limited to that stream heretofore.

**LOST.**—A small purse, containing two rings, one bearing the initials "W to F 1878." A liberal reward is offered by leaving the same at the Cliff house.

**OREGON WEATHER AND CROPS.**  
Summary for the Winter and Statement for the Past Week.

#### THE PAST WINTER.

During October rains were well distributed and about the average amount. During November and December the rains were heavy and general throughout the state, there being an absence of the usual amount of sunshine. January, February and up to March 20th the rains were light, sufficient, however, to keep the soil in good condition. There was an absence of any heavy snowfall east of the Cascade mountains, while to the west there were few days that the temperature was below the freezing point. In eastern Oregon there was an entire absence of any severe cold weather, a temperature of zero occurring but a few times in the elevated regions.

There was not the usual acreage of fall sown wheat put in, owing to the heavy November and December rainfall, but that which was sown did remarkably well. Plowing and seeding were pushed to their utmost during January, February and fore part of March, so that now the acreage of cereals is fully up to the average, and it is all reported to be in first class condition. A more favorable winter for the stock has seldom been experienced. There is no loss reported, the grass and feed were plentiful and the stock all came through the winter in excellent condition. The growing season of 1892 opens most favorable for a bountiful harvest, even surpassing the wonderful yields and products of 1891. It should however, be borne in mind, that the success of the cereal crop in eastern and southern Oregon especially, depends more on the distribution and amount of rainfall in the months of May and June and the temperature conditions in those months, than the conditions of the soil and prospects at the present time.

#### WESTERN OREGON.

The week has been generally cloudy and rainy, the temperature has been

from three to six degrees a day below the average. The rainfall amounted to from 1.5 inches to 2.3 inches for the week being considerable more than the average amount. Light frosts occurred in the more exposed places on the 27, 28, 29, 30 and 31 of March and on the 29 snow fell on the foothills and mountains. The winds have been generally southerly and chilly in effect.

Cereals are all in good condition, though more growth would obtain if there should be more sunshine, which has been very deficient. The rainy weather stopped almost entirely plowing and seeding. The reports indicate excellent prospects for a large acreage and the present conditions to be first class for all the cereals.

The peach, apricot, some varieties of prunes, pears and cherries are generally in full bloom, and so far are in good condition, though the weather for the past week has been unfavorable; the present weather conditions, if continued, will seriously injure the prospective crop; less rain, more sunshine and warmer weather are needed to protect and develop the fruit buds.

The smaller fruit and berries are developing nicely. The hop men are busily engaged in working their yards preparing for the coming crop; the acreage is being increased in most of the counties.

The weather has not been favorable to the lambing season, though the losses are much less than usual. Warmth and sunshine during the coming week will materially benefit all crops and products.

#### EASTERN OREGON.

General rains have prevailed through the week, preceded on Sunday, March 27th, by a general snow storm throughout the entire section, being the heaviest along the Blue mountains; at Cove, Union county, snow fell to the depth of one foot. In Grant county, from 10 to 16 inches fell. General frosts have prevailed, except in the more sheltered places. The amount of sunshine has been below the average.

The weather has been unfavorable to the growth of all vegetation, though no damage has been done save in a very few exposed places; the frosts of March 27, 28 and 29 nipped the more advanced and tender vegetation.

Plowing and seeding are nearly done and the acreage is somewhat larger than last year. The soil is in first class condition, the wheat has a good stand and the prospects are excellent.

Peaches, apricots, almonds and apples are in full bloom except in the interior; the fruit prospects are, so far, very good.

Sheep shearing is being pushed, in some sections it has been finished; an extra good clip and staple have been secured. The weather is too cold for the newly sheared sheep; lambing is now in progress.

The general prospects for cereals, fruit and stock are very good, much better than usual at this period of the year.

#### BUSINESS LOCALS.

Go to Wilson & Cooke's for the Oliver Plow.

Clocks at Barmeister & Andresen's. Everyone warranted.

Butter and eggs wanted at the Park Place Store. Produce of all kinds bought and sold and the highest market price paid.

Persons desirous of buying a home should call on Hamilton & Washburn of Park Place, who have some choice lots, well located at bargains.

Longes, chairs, etc., unholstered at Holman & Warner's. All work guaranteed. Repair all your old longes for little money and they will be good as new.

At the Park Place store you will find a fine assortment of gents' and boys' felt wool and straw hats. Latest styles. Just in from the East.

Whiskers that are prematurely gray or gray should be colored to prevent the look of age, and Buckingham's Dye excels all others in coloring brown or black.

Don't forget that Hamilton & Washburn of Park Place can furnish you with doors, windows, paints, oils, nails and hinges of every description and all kinds of hardware essential to house building at way down figures. Send in your list and let us quote you before building.

Wilson & Cooke wish to inform their many friends that they carry in stock a complete line of Oliver Chilled and Steel Plows of all different sizes (also Extras) Harrows, Cultivators and Shovel Plows of all kinds which they will sell at Portland prices. Examine our stock and get our prices.

There are novelties each season in wearing apparel and there are likewise novelties each season in the furniture line. The very latest designs in various lines of furniture are being received daily by the well-known house of Bellony & Busch. This firm carries the largest stock of furniture of any house in the city. They handle home made and eastern goods. It should be the duty of every one desiring to purchase any thing in the furniture line to pay this house a visit before making selections. They can show the largest and most complete stock to select from and sell a superior quality of goods at very low prices.

#### Taken Up.

Came into my enclosure at the United States Fish hatchery, on or about Nov. 30, 1891, a mare colt supposed to be about three years old, no marks except bay with star in forehead. Owner will please call, prove property, pay expenses and take the animal away.

JOHN A. BYER,  
Clackamas, Or.

## ISAAC MILLER

—Manufacturer of and dealer in—

### BRICK AND TILE

OF THE BEST QUALITY.

—Also—

Rough and Dressed Lumber and Boxes.

Prices the Lowest, Goods the Best.

Four Miles East of Hubbard.

## Hamilton & Washburn

PARK PLACE, OREGON.

Have the Agency for

JUDSON POWDER, GIANT POWDER, CAPS, FUSE, ETC.

For Oregon City and Vicinity.

We will sell all of the above at Portland prices, plus 1c. per lb. for freight.

It will pay contractors and all parties who have blasting to do to figure with us, as we can save you money.

We will deliver the above in reasonable amounts and reasonable distances free.

## Beautiful Fruit Farm!

Barlow, - Oregon.

LEADING HOTEL OF THE PLACE.

Tables supplied with the best of the market afford. Meals 25 cents.

## RAMSBY'S STABLES,

BARLOW, OR.

Livery, Sale and Feed Stable.

Horses fed and cared for by the day or month at reasonable rates.

## QUARTER OF A CENTURY

AGO

There settled in Baker county, Oregon, near what is now Baker City, a man who has since become identified with the resources and development of that country. This man is no other than Mr. John Stewart, one of the wealthiest and most influential citizens in the county. In a recent letter he says: "I had been suffering from pains in my back and general kidney complaint for some time, and had used many remedies without any but temporary relief. The pains in my back had become so severe that I was prevented from attending to my work and could not move about without the use of a cane. Hearing, through a friend, of the wonderful cures effected by Oregon Kidney Tea, I was induced to try a box, and from that very first dose I found instant relief, and before using half the contents of the box the pains in my back entirely disappeared. I have every faith in the virtues of the Oregon Kidney Tea, and can conscientiously recommend it to my friends. I would not be without it for anything."

Oregon Kidney Tea cures backache, incontinence of urine, brick dust sediment, burning or painful sensation while urinating, and all affections of the kidney or urinary organs of either sex.

FOR SALE BY  
CHARMAN & CO., DRUGGISTS.

# Meadow Park Dairy,

RANDALL & HEMMELGARN, Props.
