Industrial Development.

While Clackamas county is advancing with considerable rapidity it is still in need of agencies for accelerating its industrial development.

These projects are in no wise parallel. They may all be secured and they would mean development in as many different directions.

What do the people of Clackamas county think about the county fair project?

Payable in Gold.

The fact that Senator Stewart holds a number of mortgages on Oakland property, the principal and interest of which are payable in gold, has no other significance than to call public attention to the consequences of a drop in the silver standard.

The democrats never weary of talking about the "court house ring" and the enormous county debt.

We believe in the freedom of the press but we think Hon. T. A. McBride has cause of action against the Portland World for the alleged portrait of him published last week.

The republicans changed the rules of the house to prevent a minority filibustering so as to obstruct business, but the democrats have fixed them so that an anti-silver minority has throttled a free coinage majority inside their own party and that, too, without the trouble of filibustering.

Taking a broad view of the working of protection since 1816, it appears that the principal products the farmers sell have advanced in price an average of 144 per cent., while on the other hand, the principal articles they have to buy have fallen an average of 79 per cent.

The Marion County Democrat objects to Judge Moore because it alleges him to be a Northern Pacific railroad attorney.

EVER since the renomination of Congressman Hermann the Salem Journal has been discouragingly sagely on the weather, crops, the tariff with an occasional scintillating editorial on the virtues of S-gill's Itch Cure.

IF ANY one doubts that we are in the midst of an agricultural renaissance let him note the list of farmers from Oregon City and Oswego in the jury list this spring.

FARMERS will make a note of this: Exports of breadstuffs for February of this year amount to \$25,850,990, as against \$8,340,967 for the same time last year.

VARIOUS PRESS COMMENTS.

Detroit Tribune: The Democrats cannot get rid of the free-coinage issue.

Harper's Weekly: The committee of the house on civil service reform, of which Mr. Andrew, of Massachusetts is chairman, and Mr. Coombs, of New York, an active and efficient member, has agreed to report to the house Mr. Andrew's bill "to exclude political influence in the employment of laborers under the authority of the United States."

New York Press: The time is drawing near when the eight-hour question will come with its annual agitation before the industrial world.

With the close of the democratic convention in this city this week the Clackamas county campaign may be said to have really opened.

The Opening of the Campaign.

With the close of the democratic convention in this city this week the Clackamas county campaign may be said to have really opened.

At this writing the democratic convention has not completed any of its work.

The work for the republicans will now begin in earnest.

Shimmering theories may be pleasing to the superficial, but in government hard facts must be faced and these facts in their true relations should be kept before the people.

Less, less of golden store be mine, So that I may have quiet hours In which to train my cottage vine And pick the priceless woad flowers.
