Office in Bestow's Cash & Door Factory, opposite Congregational Church, Main street, Oregon City, Oregon.

NEWS IN GENERAL.

Troops Wanted in the Cour d'Alene Mining District.

BROUTH IN MEXICO AND TEXAS.

Portland Collectors—The American Berby—Dewey Declines to be Secretary of State.

Boss, Idaho, June 24.—Governor Willey has asked the president to order troops to the scene of the miner's lock-out in Cour d'Alene district, Northern Idaho. Serious trouble is pending. It is understood that the injunctions sued out against the union miners by the mine owners are quite certain to be dissolved on Tuesday next, and it is said the union men will then attempt to drive the scabs from the district. Both sides are said to be heavily armed.

Earthquakes in Mexico.

GUADALAJARA, Mexico, June 27.—The people of this city and surrounding country have been in a state of terror for the past few days on account of repeated shocks of earthquake which have been the most severe ever felt here. The first shock occurred Friday night and lasted 18 seconds, the vibrations running from southwest to northeast. Glass windows were broken and the plastering in many buildings was cracked. Hundreds of people took refuge in the streets. At daylight Saturday morning another shock occurred. This one caused great disaster, no less than 100 buildings of the city being completely wrecked. Several people were seriously injured, but none killed, by falling walls. Since then several light shocks have been felt. The Colima volcano, south of here, is in active operation again to-day, and is throwing out great volumes of sulphurous smoke and lava.

Campbell Chosen Chairman.

WASHINGTON, June 27.—The republican national committee was called to order by Chairman Clarkson shortly before noon. All the states and territories except Nevada, Wyoming and Oklahoma were represented. J. Sloat Fassett, of New York, named Clarkson to succeed himself as chairman, eulogizing him and his work in behalf of the republican party. Clarkson replied, expressing his appreciation of the words of praise from Fassett but saying he had learned this morning that Harrison preferred another man. He therefore cheerfully declined to be considered a candidate.
Payne, of Wisconsin, placed in nomination as chairman of the national committee, Committeeman William J. Campbell, of Illinois, Campbell was elected by acclamation.

The Texas Drouth.

LAREDO, Texas, June 25.—The great drouth which has prevailed over northern Mexico and a portion of Texas on the Rio Grande border for the last two seasons continues unbroken, except in places. The cattle industry is almost annihilated, and a total failure of crops, except in irrigated districts, resulted in extreme suffering among the poorer classes. Several hundred thousand bushels of corn shipped from the United States has prevented suffering. In the Texas drouth region the poorer classes have been subsisting for months on contributions sent from other parts of the state.

The Portland Collectors.

WASHINGTON, D. C., June 27.—The Oregon senators and representative held a third and final session today relating to uniting upon a man for collector of customs at Portland. At the two previous sessions no choice was made, but this afternoon they decided that the appointment should go to a Portland man and the delegation will so recommend. From what can be learned tonight it is quite certain Lotan is the man recommended.

The American Derby.

CHICAGO, June 25.—Nearly 50,000 people were present today when the great American derby was won by Carlsbad in 3:04 1/4, the slowest time in which it has yet been run. The race was a good exhibition of game, sturdy racing in the worst going possible, and it was not speed but bottom that carried. Carlsbad showed he was a great stayer along with \$17,800 which the purse netted him.

Dewey Declines the Place.

CHICAGO, June 24.—A Washington special quotes a cabinet officer as saying that Chaucey M. Dewey has decided to decline the state portfolio. It is said the president is considering another name. Tracy and Wharton are both spoken of as the coming man.

St. Lawrence Canal Controversy.

OTTAWA, Ontario, June 25.—Members of the cabinet have great faith in the offer they have submitted to President Harrison looking to a settlement of the

canal discrimination controversy. The Canadian proposal was forwarded through the British legation at Washington prior to the day on which president Harrison forwarded his dictatory message. Up to last night no word had been received from Washington as to whether it had reached the president or not. From what has leaked out it is understood that Canada's offer is based upon the lines of a measure of reciprocal use of the canals on both sides of the St. Lawrence, which was talked over at the recent conference at Washington.

DOUBLE MURDER IN PORTLAND.

A Jealous Swain Shoots a Girl and Then Commits Suicide.

PORTLAND, June 25.—The developments of today fully explain the cause of the murder of Augusta Sjogren and the self-destruction of her murderer, John F. Norberg, yesterday morning at the residence of Eugene D. White, in this city. A letter found today throws much light on the subject and indicates that Norberg had made repeated propositions which were incompatible with the young woman's sense of honor, and that jealousy on Norberg's part and despair over financial difficulties prompted him to commit the horrible crime. It is supposed that the shooting occurred about 9 o'clock yesterday morning, though the discovery of the lifeless bodies was not made till last evening at 9:30 o'clock.

The White residence is now being occupied by Lawyer R. E. Giltner and family, who were away from home all day. The theory is that, maddened with jealousy, Norberg called on Miss Sjogren while she was doing her morning work, as all the floor mats were outside where she usually dusted them. After entering the house by the front way, he shut the door leading from the hallway, and no one knows what conversation followed, but evidently a tussel ensued, as the chairs were upset about the room. Norberg fired two shots into the girl's breast, and must have stood several feet away, as the clothing was not the least powder-burned. After satisfying himself that his victim was dead, the murderer placed the muzzle of the weapon in his mouth and sent death's messenger crashing through his brain, falling at the side of a small table, on the opposite side of which lay the body of the woman. The weapon was found lying at the side of Norberg.

THE INDIANAPOLIS BOARD OF HEALTH.

After the Ammonia and Alum Baking Powders.

The subject of pure food, and especially the adulteration of baking powders by the use of ammonia and alum, is causing no little discussion. The legislatures of New York, Minnesota, Illinois, Georgia, Florida, etc. have taken up this question, and it is attracting the attention of physicians and boards of health throughout the country. Our own city board of health ordered an examination of all the baking powders to be found in this market; instructed Dr. Latz to make an examination and analysis and report the result to the board.

BAKING POWDER ANALYSES.

City Chemist Dr. Latz transmitted to the department of public health a lengthy communication, in which he gives the result of his analysis of the several brands of baking powders that are on sale in this city. In his report Dr. Latz says that baking powders designated as being free from deleterious substances may be recommended, as their healthfulness cannot be questioned. The report is as follows:

The samples of baking powders you have sent to our laboratory for investigation as to the purity and healthfulness of the various brands I have subjected to a qualitative examination and now report the following result:

- Atlantic & Pacific contains ammonia and alum.
- Bon Bon contains alum.
- Calumet contains alum.
- Crown contains ammonia and alum.
- Early Rising (Empire) contains ammonia and alum.
- Forest City contains ammonia and alum.
- Kenton contains ammonia and alum.
- Dr. Price's free from deleterious chemicals.
- Queen contains ammonia and alum.
- Royal contains ammonia.
- Regal contains ammonia and alum.
- Ruckelban's contains ammonia and alum.
- Seafam (made by Day, Indianapolis) contains alum.

Dr. Latz says: "Physiologists of high standing consider ammonia and alum deleterious substances, unfitted for use in foods."

The Cholera in Russia.
ST. PETERSBURG, June 25.—A total of 164 cases of cholera were reported at Baku during one week, with seventy deaths from the disease.

BAD TRAIN WRECK.

Twelve Persons Killed Outright and Sixty Wounded.

CAUSED BY OPERATOR'S BLUNDER.

One Section Crashes into another, the Wreck Takes Fire—Private Car Smashed.

HARRISBURG, Pa., June 25.—The Western express, which leaves Philadelphia at 9:02 p. m., was late last evening, and left in two sections about ten minutes apart. The first section, composed of six coaches and a Westinghouse private car, came through to Dock street bridge tower, where it was held until it could enter the union depot. Meantime the second section came, and receiving wood at Steelton tower to go ahead, the engineer to make up time, threw the throttle wide open. The train came thundering along at the rate of forty-five miles an hour, and just as it came round a sharp curve at the tower the engineer claims the red light was thrown out, but too late to avoid the accident, which resulted in a fearful loss of life. The engine plowed half through the Westinghouse private car. It, in turn, telescoped two other cars, which were filled with passengers, and the express car of the second section was totally demolished, having been crushed by the tender of engine 13 of the second section.

One of the cars took fire and those still alive were almost panic-stricken. An alarm of fire was sounded. In a few minutes the whole department responded and the flames were quenched. One young woman, elegantly attired, and probably 18 years of age, was pinned to the track by the truck of one of the cars resting on her body, her head having been severed from the body. It was over an hour before the body could be removed. She had on her person a gold watch and considerable money. The body of the unknown girl has been identified as that of Miss Lizzie Blair, of Philadelphia, accompanying Mrs. Mary Granger to Seattle, Wash. Mrs. Granger is in the hospital. She was on her way from Philadelphia to Seattle, with her daughter, Mamie, aged 8, and Lizzie Blair, to join her husband, employed on the City of Seattle, plying on Puget Sound. Her injuries are about the head, chest and abdomen. Several ribs are also probably fractured. She will recover. Mamie Granger's injuries may prove serious, but physicians express hopes of saving her life. The city is filled with wounded. Twelve at least were killed and fifty or sixty wounded.
H. C. Hays, operator at Steelton tower, practically admitted before the coroner's inquest this afternoon that he is responsible for the wreck.

Big Fire in Seattle.

SEATTLE, June 25.—Fire yesterday destroyed Schwabacher Bros. & Co. store and damaged the Hotel Northern. Schwabacher Bros. & Co. is one of the largest general merchandise dealers on Puget sound. The loss to the building is \$80,000. The firm carried a stock worth \$30,000, of which nothing was saved. The Northern hotel adjoining barly escaped destruction, and is damaged to the extent of several thousand dollars by heat and water, and other minor damages to contiguous structures and stocks will bring the loss up to \$400,000.
The insurance will probably cover the total loss, and is placed with Balfour, Guthrie & Co., of San Francisco.

The Probi Convention.

CINCINNATI, June 25.—The national prohibition convention, which meets in this city Wednesday, June 29th, bids fair to outstrip its two predecessors at Minneapolis and Chicago in size. The total delegate list is 1191 and as many alternates. The national committee of the party opened headquarters this afternoon at the Grand Hotel. A mass meeting is arranged for tomorrow afternoon as preliminary. St. John preemptorily declines to permit the use of his name for presidential nominee. A new man is suggested in General John Bidwell, of California.

A Hard Corner.

The age of 30 is a hard corner for a woman to turn, and 35 is still harder. She feels that she is fast leaving her youth behind her. But there is no reason why a woman should be faded and passe at 35, or even at 45. The chief cause of the early fading of American women is found in the fact that many of them suffer from some form of female weakness or disease which robs the face of its bloom, draws dark circles about the eyes, brings early wrinkles and sallowness, and stamps the face and figure with the signs of ill-health. Dr. Pierce's Favorite Prescription will cure all these troubles, will bring back the lost bloom, and remove the pains and ailments which make women grow old before their time. Guaranteed to give satisfaction in every case, or price (\$1.00) refunded.
