**Other News.**

HIGHLAND, Oct. 11.—We have had and are still having at present writing copious rains sufficient to soften the ground so the Highlanders can prepare their ground for fall grain.

Highland beyond a doubt is booming and seemingly in a flourishing condition. New families from the East keep continually coming. Attracted by our genial climate, and new dwelling houses and other buildings necessary on farms are being erected.

Mr. Schiewe sr. has bought the old Heckart place and is overhauling and greatly improving the old sawmill, putting in a new wheel etc. Peter Schiewe, his son, recently from Dakota, has bought 160 acres for \$1200 formerly owned by Henry Mason.

Daniel Wagner, recently from Stafford, son-in-law of Mr. Schiewe, has bought the old Livingston place consisting of 160 acres for \$3000, has torn down the old house and is erecting something in its stead more neat and substantial. The dimensions of the house under construction are 26x18 feet with kitchen 16x18 feet.

Another new man by the name of Ackerman has bought a 40-acre tract and will occupy and improve it in the near future.

Our old friend and neighbor Chas. Moran has sold his fine 90-acre farm to C. Kleinmuth for \$5200.

The new families are mostly all Germans and know how to farm and how to produce large yields from a small number of acres. They know also how to dispose of the primeval forest of Oregon.

A nuptial knot was tied between Charley Martin, son of J. Martin, our sawmill man, and Maggie Linn, at the residence of Thomas Jones of Highland. The participants in the charivari were treated to the contents of a rifle. Mr. Jones fired at them twice, once through the close window, without any serious results however.

S. Hutchinson has returned from his visit to his wife's brother and is a bonafide Highlander again. CORRESPONDENT.

Miller brothers have moved the remains of their mill up on their homestead in the mountains.

Worthless hounds came near causing the death of little Minnie Palmateer on Wednesday of this week. Her cousin, Pearl, came over to get Minnie to stay all night with her. A neighbor's dog followed Pearl and the two hounds pitched on to fight and Minnie and her older sister ran to part the dogs. The older sister took a stone large as ones hand and threw at the dogs but missed the dogs and struck her sister over the ear knocking her down and cutting quite a gash and injuring her brain.

Minnie has lain in a stupor most of the time since. Dr. C. B. Smith was called and pronounced it quite a serious case. This makes the second time the same hounds have caused Minnie to get badly hurt. A year ago she was cutting kindling with a drawing knife when they jumped on her knocking her on the knife in such a way as to cut quite a gash in her forehead. A few weeks past the mother of Minnie went for a walk, and tiring, sat down to rest with her babe in her arms, when those same hounds got to fighting and sprang on the mother and child and came near hurting them both. Yet the keeper of the hounds tries to blame the innocent for the accidents.

Garret Palmateer and wife will occupy the house formerly occupied by Marion Young and family.

Mrs. Mansan's many friends dislike to give her up to go East to live.

Doll Wilcox is moving into his own house formerly owned by Charlie Linn. We all rejoice in hopes of a new bridge across the Clackamas river near this place.

**Can't Cook as Mother Did!**  
How many a young wife's heart has been saddened by hearing the above remark! And yet how often the words are true; especially when cake, pastry or biscuit are in question! The reason is plain, yet it is "like telling a secret."  
Our mothers used and are using Dr. Price's Cream Baking Powder. They cannot be misled into using any of the ammonia or alum powders. No dyspepsia no sallow complexions, when mother did the cooking.  
The first symptoms of ammonia poisoning, says a New York paper, which appear among those who work in ammonia factories, is a discoloration of the nose and forehead. This gradually extends over the face until the complexion has a stained, blotched and unsightly appearance  
Dr. Price's Cream Baking Powder is the only pure cream of tartar powder that contains the whites of eggs.  
Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact the purity of this ideal powder has never been questioned.
