#### DROWNED AT TUALATIN.

The Son of an Oregon Pioneer Loses his Life in a Mill Pond.

TUALATIN, Oct. 15.—A sad accident occurred last Wednesday in which Charlie Day lost his life by drowning. He was employed at the saw mill as log puller and had gone down the slip to bring up a log from the boom when he fell into the water, and being unable to swim, was drowned before assistance reached him. The noise of the mill drowned his cries for help and no one saw him except Mrs. Frances Savage who was coming up the rail road track, and hearing some one screaming, "Oh, my God! my God!" reached the bridge in time to see him sink for the last time. She had to cross the suspension part of the bridge which detained her some, but with all possible speed she ran to the mill and gave the alarm. The mill was shut down and all possible efforts made to recover the body, but over three hours elapsed before it was secured, and life had long since flown. The deceased was 29 years of age and leaves a young wife and two small children. He was a son of Mr. and Mrs. George C. Day, well known pioneers of Oregon, residing about three miles from Tualatin. The funeral was held the following day at the Hayes cemetery.

THE MOTOR LINE.—Last week all the iron then available for the East Side motor line was laid and it brought the track to a point a few yards distant from the north line of Judge Meldrum's place. The company had ascertained that it would be short of rails and had ordered 55 tons additional from Denver, which are due now. The poles for wires are set nearly to the Clackamas river on one side of the track and the other side will soon be brought up with it. On this side the Clackamas the pile driving is being pushed. The track will be 12 feet above the flood water mark which means 16 to 20 feet high through most of Green Point. If this grade is maintained in Oregon City the track will be eight to 12 feet above the present roadway of Main street to Eleventh. It is understood that the company would like permission to put the track up a little higher there, which would give more room in the street but would be an unsightly structure.

THE MANZANILLO WITHDRAWN.—Without any notice whatever the steamer Manzanillo was withdrawn from the up river route the latter part of last week. Insufficient support is the reason alleged for the withdrawal. But the people up the river feel rather sore over the matter. They say they have done their best by the Manzanillo during the season when there was the least business of the year and now when the roads are getting so bad that their only communication is by river the boat drops them without notice of any kind. There would be much more business for the boat in the winter season and the up river people are glad to patronize the boat that will do the fair thing by them.

FOR THE NEW HOSE COMPANY.—There will be a meeting at Shively's hall next Saturday evening at 8:30 o'clock to organize some sort of entertainment to raise funds with which to buy furniture, a flag, etc., for the hose company No. 4 on the hill. All members of the company and those who expect to join it are especially desired to attend this meeting. G. W. Church, the president of the new company, is taking an active interest in setting it on its feet in good shape and the public should manifest a lively interest in it.

Mrs. F. R. Charman thinks Burdette Wolf, who shot Miss Birdie Morton at East Portland last week, called on her Tuesday night and Wednesday morning. In the evening he was coatless and when he called again begging a breakfast in the morning he had on a grey coat. Mrs. Charman suspected the fellow was Wolf from the description of him she had read and when she saw the picture in the Oregonian Wednesday she was confident that the tramp caller was the fugitive Wolf.

When a cheap or old building takes fire the remark is often heard that "it ought to burn down" or "let it go." This is a mischievous sentiment and it often does harm. Such remarks have their influence on the firemen and it often happens that in this way fires get headway that create a vast deal of destruction. This sentiment caused Spokane to burn down. Everybody's property should be equally protected.

The skull of the younger one has been removed, showing the covering of the brain. The moccasins are yet on them, and are hardly changed. They will be sent to the world's fair for exhibition.

Lake county will have from 2000 to 4000 fine beef steers for this year, to be gathered between this and November 1. The amount is only about one-half the usual amount, owing to the number of calves lost in the hard winter three years ago.

The number and extent of recently discovered quartz ledges and placer-field is actually bewildering to the newly arrived mining men in Josephine county, says the Grant's Pass Courier. In any direction from Grant's Pass scores of rich prospects have been found, and capital is all that is needed to bring out their innate wealth.
