and Female Diseases.

Twenty (20) Years' Experience in Medicine, Surgery and

Electricity. All curable cases guaranteed. Office, 259 Commercial

Street, Salem, Oregon. Correspondence solicited.

TO HER LAST REST.

The Last Sad Rights for Mrs. Harrison.

BURIED AT CROWN CEMETERY.

Thousands of Friends of the Deceased Pay Their Respects to Her Memory.

WASHINGTON, Oct. 27.—Funeral services over the remains of Mrs. Harrison occurred in the east room of the White House this morning at 10 o'clock in the presence of the family, immediate friends and many notable persons. Revs. Hamlin and Bartlett officiated. The services lasted three-quarters of an hour. They were very simple, but beautiful and impressive. The casket was set in the middle of the east room and chairs ranged about it in a semi-circle. Seats were reserved near the casket for members of the family, members of the cabinet and members of the supreme court. Among the early arrivals were ex-Secretary Blaine, wife and daughter, and Mr. and Mrs. Whitelaw Reid. The members of the diplomatic corps were also early in their seats.

INDIANAPOLIS, Oct. 28.—The funeral train bearing the remains of Mrs. Harrison arrived here this morning at 9:30. All along the route, after daylight, at all the stations the people gathered to see the train go by. They seemed actuated not so much by curiosity as by a desire to testify their sympathy with the president in his sorrow, and nearly all stood with bowed, uncovered heads as the train passed. The same was true, only in a greater degree, on the arrival here, where the deceased and her distinguished husband are so well known. A mass of people gathered about the station when the train came to a stop, and all stood reverently with bowed heads as the solemn cortege emerged from the station and took their places in waiting carriages.

When the cortege arrived at the church a throng of people filled the sidewalks and adjacent streets, and stood respectfully silent while the coffin was carried up the aisle and deposited in front of the chancel. The organ played softly. Then the choir sang "Lead Kindly Light." Dr. Haines offered a short invocation and read a selection from the scripture. The funeral sermon, from the text, "Wherefore comfort ye one another with these words," was then preached by Dr. Haines.

Soon after the train arrived, at the request of the president, the casket was opened and the sad ceremony of taking a last look at the face of the dead followed. The features were calm and peaceful as in sleep.

FIRE AT MILWAUKEE.

The Flames Raged with Ungovernable Fury for Six Hours.

MILWAUKEE, Wis., Oct. 28.—The fire which started at 5:30 this evening in the Union Oil company's store east of Wafer street, now threatens to destroy the entire wholesale business section of Milwaukee, east of the river below Huron street. A furious gale is blowing and driving the flames before it within startling rapidity. At 11 p. m. the fire has lapped up everything in the territory bounded on the west by the north branch of the Milwaukee river, on the east of Lake street and on the south by the harbor branch of the river, twenty-two solid blocks, five of which were occupied by wholesale houses, factories, distilleries, etc., and the rest by fine residences. This does not include the vast yards of the Chicago & Northwestern railroad, which covers many acres. Hundreds of cars have been burned. There is no telling at this hour what the extent of the fire will be. The gas works are burned and not a gas light is burning in the city, and some portions of the city where there are no electric lights is in total darkness. Half a dozen men have been taken to the emergency hospital all seriously injured by falling walls.

Insurance men estimate that the entire loss will aggregate \$7,000,000. At 11:45 Chief Foley announced the fire was practically under control.

Heavy Armor Plate.

BETHLEHEM, Pa., Oct. 29.—The heaviest armor plate ever made is now in course of preparation at the Bethlehem Iron works. The monster ingot which will be converted into armor plate weighs eighty-four tons, and when completed will be seventeen inches thick. This armor is to defend the side of the battleship Indiana, building at Cramps' shipyards, Philadelphia.

The Wheat Situation.

NEW YORK, Oct. 30.—The American Agriculturist prints an elaborate review of the wheat situation. It points out that the exports from India are falling off and that Russian wheat is being held for an advance. The surplus for export from Australia and South America

is very small. The world's reserve supply is by no means made by the last year's heavy yield in the United States and replenishing these reserves accounts for our enormous exports and the active foreign market at present. The returns indicate a total wheat crop for 1892 of 404,434,000 bushels. The paper claims that the area of wheat has been greatly exaggerated, the yield per acre underestimated and the total crop reported at from 5 to 15 per cent more than actually harvested.

AMMONIA AND SUICIDES.

One of the Most Certain Agents for Causing Death by Slow Poisoning.

[New York Sun.]

Of the number of those seeking suicide by following some form of poison, probably there are few who have sought to kill themselves by means of ammonia. Nevertheless ammonia, although it is the active agent in most of the salts sold to women for their guilt decorated and perfumed scent bottles, is poisonous when taken internally in a concentrated form. To attest this there has been recently in New York several cases, the most recent being that of Herman Harowitz, of which Deputy Coroner Jenkins said that death took place in a comparatively short time after the ammonia was taken. In another case, that of a child Dr. Jenkins said death resulted in five minutes after swallowing the ammonia solution.

There are on record also cases of slow poisoning from ammonia administered with intent to commit murder. Furthermore, the appearance of workmen in guano factories, where ammonia is set free by grinding guano, has been noted, and in every case there is an unmistakable symptom of poisoning. This is discoloration of the skin of the face, which assumes a blotched, dirty appearance. First to take on this appearance is the skin of the nose and forehead. Autopsies of those who die from ammonia poisoning reveal a dark hue on the mucous membrane lining the stomach and intestines.

As an agent for causing death by slow poisoning, ammonia is one of the most certain and most difficult of detection, owing to its relative nature. This quality has led physicians to believe that some of the mysterious deaths that have taken place in the history of modern and medieval crime are due to ammonia. It is known now that months have elapsed between the first symptoms of ammonia poisoning. On the other hand death has resulted in four minutes from the time a large draught of ammonia has been swallowed. It has been found in cases of gradual absorption of ammonia in the human system that there is a general elimination of healthy oxidation of the blood and a consequent lowering of the bodily strength. In the cases of immediate poisoning death comes with frightful agony, as in the case of Harowitz. Blood gushed from his nose and mouth.

Statistics in England put ammonia thirteenth in frequency in the list of poisons. Alexander Winter Blyth, medical officer of health in the St. Marylebone district, London, cites thirty cases of poisoning by ammonia swallowed for the purpose of committing suicide, or administered with the purpose of committing murder, or absorbed unconsciously in food. Of the suicidal cases six were fatal. Of cases of murder with ammonia, Dr. Blyth notes two, both of them children.

The Inter-Oceanic Railroad.

MONTREY, Mex., Oct. 29.—The Hon. Delino Sanchez, who is widely known as the railroad king of Mexico, arrived today from an extended visit in Paris and London. He says he has been successful in securing the capital necessary for the construction of the Inter-Oceanic road from Pueblo to Acapulco. Work on the new line is now in progress.

Set for Argument.

WASHINGTON, Oct. 31.—The United States supreme court today advanced and set for argument on the second Monday in January the cases of the United States against the California and Oregon Land company and the Dalles Military Road company. These are known as the wagon road land grant cases.

McKinley in Brooklyn.

BROOKLYN, Oct. 31.—Seven thousand people cheered for Harrison and Reid, and listened to Governor McKinley, of Ohio, speak of campaign issues, in Clermont avenue rink, tonight. The meeting was the most enthusiastic republican rally ever held in King county.

Gala Week.

CHARLESTON, S. C., Oct. 31.—Gala week, as a memorial of the gratitude of this city for assistance of the nation in time of its distress, opened this morning with the ringing of bells. All the shipping in port was handsomely decorated with the national colors.

Receiver Appointed.

MONTREY, Mex., Oct. 29.—In the federal court today Judge Rael appointed J. A. Robertson receiver of the Monterey, and Mexico & Gulf railway, with full power to control and operate its lines, and direct the handling of all property.

NEWS IN GENERAL.

Terrible Destruction to a Town in Mexico.

THE REBELS ARE ANNIHILATED.

More than 300 Soldiers Killed Other Important News.

EL PASCO, Texas, Oct. 27.—News has just reached here of the total destruction of the town of Temochie, in Western Chihuahua, Mexico, inhabited by a people who are nearly pure Aztecs. Mexican troops were sent out there twice to compel submission of the religious fanatics to the authorities, but each time the troops were defeated. The third time a larger force was sent out, accompanied by a battery of two gatling guns. The result of the battle was the total annihilation of the rebels and the killing of more than 300 Mexican soldiers. The soldiers left Chihuahua two weeks ago and formed a junction with others from Pinos Altos and Guerrero to the number of 1,200. Monday an attack was made on all sides. The Temochians with their families took refuge in a church, awaiting the attack. It was made on all sides and the slaughter was terrible. Hand-to-hand fights took place. The soldiers completed the massacre with 368 of their number killed and many wounded. The village the next day presented an awful view. The streets leading to the church were filled with bodies, and blood seemed to flow in torrents. Not a man of the Temochians was left, except those who happened to be out in the mountains, but the government has paid dearly for its victory.

Manufacturing Industries in Portland.

WASHINGTON, Oct. 19.—The census office today made public bulletins giving statistics of manufacturing industries in Portland, Oregon. In '80 the data relating to manufacturing industries, this city was included in the totals for Multnomah county, and therefore no comparative statement is possible. The figures for '90 are: number of establishments reported, 504; industries, 88; capital invested, \$18,808,028; hands employed, 9240; wages, \$7,176,733; cost of materials used, \$12,427,071; value of product, \$24,429,449. The figures for Multnomah county are: establishments, 162; capital, \$1,938,025; hands employed, 1,148; wages, \$700,878; materials, \$1,567,246; product, \$4,867,201.

Idaho's Farvey Faculty.

BOISE, Nov. 1.—The original surveys of Idaho, it is being discovered, were extremely faulty. The official engineers, who are engaged in resurveying the line between Washington and Idaho counties, have discovered that about half the famous Salmon Meadow country, settlers which have been paying taxes into Washington county, is really a part of Idaho county. It has also been discovered that between Washington and Boise counties there lies a valuable strip of land which, according to the established boundaries, belongs to neither county. The people living on the strip cannot be assessed, and will of course refuse to make payment of taxes.

A Trainman Killed.

NEWPORT, Or., Oct. 31.—Charles Laughlin a trainman on the government works, was killed instantly about noon today. He was putting a rope on the engine and train to pull the latter in on a side track when the rope caught on a tie and threw him off the car under a wheel. The wheels did not pass over him, but pushed him ahead of them on the track, crushing his breast. Death must have been instantaneous. He leaves a wife, whom he married five months ago. His people live in Ohio.

Preparing for Irrigation.

BOISE CITY, Idaho, Oct. 31.—Prof. A. H. Thompson, chief of the western division of geological survey, arrived yesterday. Plans have been perfected for making a detailed topographical map of Snake river valley on 25-foot contours from the American falls westward, showing just what lands can be irrigated from the river. W. T. Griswold has been in charge of the work in Idaho, Oregon, and Washington. E. T. Perkins will be chief of the Idaho corps.

Canal Convention.

COLUMBUS, Ohio, Oct. 31.—A call has been issued by the chairman of the executive committee requesting delegates to the national Nicaragua canal convention held in St. Louis June 24, to reassemble at New Orleans, November 30, 1892, to further consider the question of the immediate construction of the canal. Commercial bodies are to send one delegate for each one hundred members.

The President Again at work.

WASHINGTON, Oct. 31.—The president resumed his official duties today. He devoted most of the forenoon to routine matters which have accumulated during the past few weeks.
