—A COMPLETE LINE OF—
Fruit and Ornamental Trees, Shrubbery, Etc.,
WHOLESALE AND RETAIL.
CANBY, OREGON

DOINGS IN CONGRESS

Panic in the Money Market Caused by Gold Exportation.

TO REPEAL THE ELECTION LAWS.

Congress Not Doing Much—Silver Discussions in the House—Poisoning at Homestead.

WASHINGTON, Dec. 18.—The silver and anti-silver men in the house engaged in fight skirmishing in anticipation of a failure of the Brussels international conference, from which the members say they expect nothing. Each side is now endeavoring to learn something of the purposes and views of the other side. Talks with free-silver men and avowed opponents of the present Sherman law show it to be believed to be unlikely that anything will be done at this session either in the way of a repeal of the Sherman law or the enactment of more radical silver legislation.

The senate and house committees on immigration held a joint meeting and discussed the bill introduced by Senator Chandler, to suspend immigration. It was shown by communications from experts that it would be positively necessary to suspend immigration for a period in order to keep cholera out of this country next year.

In the house a concurrent resolution for a recess from December 22 to January 4 has been adopted.

A bill making it unlawful for any common carrier to insert in a bill of lading a clause to release it from liability for loss in transportation of merchandise committed to its care passed.

WASHINGTON, Dec. 19.—Mr. Blaine's physicians now concede that he will not recover. They do not say just how long he may live, but from the tone of their statements it is believed he cannot live more than two or three days. A correspondent saw Dr. Johnson again this afternoon. He is more communicative and had no hesitancy in stating Mr. Blaine's exact condition and the disease with which he is suffering. His disease is mainly in the kidneys. "Waxy degeneration of the kidneys," the malady was called, with complications of hernia and nervous troubles.

WASHINGTON, Dec. 19.—The senate adjourned soon after meeting, on motion of Senator Gorman, as a mark of respect to the memory of the late Senator Gibson.

WASHINGTON, Dec. 19.—In the house today it was manifest that the Christmas holidays were rapidly approaching. The unoccupied seats far outnumbered those occupied.

Durborrow, of Illinois, has introduced in the house a joint resolution repealing the religious legislation pertaining to the world's fair. The resolution proposes to leave the matter of Sunday observance entirely within the power of the regularly constituted authorities of the exposition.

The bill introduced by Bate, of Tennessee, to repeal all statutes relating to supervisors of elections and special deputies was taken up, and Bate made an argument in its favor. These laws, he said, had been in operation over 20 years, and had not reconciled the people to their harsh interference with affairs belonging exclusively to the states. It was not surprising that late political revolutions had swept from power the party which enforced machinery for interfering with the elections of the states. The force bill had been potent in the late overthrow of the republican party. The law which he proposed to have repealed was the germ of the force bill. These laws had no constitutional warrant, serve no good, and their remaining on the statute books was in direct disregard of the spirit and purpose of elections and the peace and quiet of the country.

Senator Cullon introduced two bills, intended to strengthen the weak points in the interstate commerce act. The first compels the testimony of witnesses before the interstate commerce commission; the other defines the word "line" as used in the interstate commerce law, and construes it to mean physical line, whether it is one railroad or two or more connecting railroads, or part railroad and part water, when both are used under common control.

Blaine Very Sick.
WASHINGTON, Dec. 18.—All day long the life of James G. Blaine has hung trembling in the balance. For more than an hour in the forenoon hope was abandoned, and the end was momentarily expected by physicians, family and friends. All stimulation was thrown aside in the apparent imminent presence of death, and the suppressed facts of his illness, the long denied, but now admitted, Bright's disease, the occasional intervals of delirium, the nine long hours he has laid incapable of speech or motion—these, and other distressing

features of his illness, all incidental to the one overpowering organic trouble, Bright's disease, aggravated as this has been of late by a cold contracted while imprudently venturing out driving two weeks ago, and by malarial fever, and confronted by a constitution impaired by nearly two years of continual sickness, are now tacitly admitted.

A Panic Averted.
WASHINGTON, Dec. 20, 1892.—Information was received at the treasury department to the effect that the financial flurry in New York is practically over for the present, and that there is no longer any prospect of a panic. Money is reported easy at exchange; has fallen below the shipping point so that the heavy exportations of gold are not likely to continue. Secretary Foster said this morning that \$5,000,000 in gold has been taken out of the treasury this week and that about \$1,500,000 more would probably be lost before the week was ended. He is confident, however, he said, that this gold will soon be returned with interest through the regular channels of trade. He said there is really nothing alarming in the situation, and that stocks apparently unsettled now will readily adjust themselves. Mr. Hepburn, comptroller of the currency, also said this morning that there was really no occasion for alarm at the state of affairs in Wall street, and he would be surprised if the apparent stringency was not intended solely for its effect on congress. Mr. Hepburn said that while there may be some sentiment in the situation, he was convinced that the interests of the country demanded the repeal of the Sherman silver bill.

Atrocious Chinese.
SAN FRANCISCO, Dec. 18.—A four story rookery in the most densely populated quarter of Chinatown was found ablaze this afternoon. The building was crowded with hundreds of Chinese men, women and children. As the first cry of fire sounded two Chinamen were seen to run from the house, closing and barring the doors and windows. Hardly were these Chinese out of sight when the flames burst through the roof. Smoke issued from the upper windows and the imprisoned inmates battered at the barred doors and windows and screamed for aid. The police and firemen quickly arrived on the scene, and with axes cut their way into the burning building, rescuing all the inmates. It is thought that the two men who perpetrated the fiendish act of firing the building and imperiling a large number of people's lives were highlanders.

These Be Radical Democrats.
WASHINGTON, Dec. 18.—About forty democratic members of the next congress have entered into a more or less definite agreement. Their purpose is to act as a brake on tariff legislation. In their own language they are "going to stand together to keep the party from acting the fool on the tariff question." Most of the members are from the Atlantic seaboard, but several are from the Ohio valley districts. If their great prototype were alive, these forty protectionists would be classed as "Randall democrats." They are entirely confident that they will be able to hold down the wild and woolly Westerners, and the members from the cotton districts, to a very moderate revision of the tariff without a material effect upon the protected industries.

Contrary to Stipulation.
TOLEDO, O., Dec. 17.—The Blade tonight published a long article, descriptive of the three English alleged revenue cutters, now lying in Owen sound, on the south shore of Georgian bay. The vessels, which are named Petrel, Constance and Curlew, according to the Blade's representative, who visited the place, are men-of-war, any one of which is capable of knocking into splinters all floating armaments which the United States now has on the Great Lakes. The vessels are said to be 150 feet long and 25 feet beam, with a draft of less than 10 feet. They are capable of running through the smallest canal in the lake system, and their armament is the most complete of its kind known to modern naval warfare.

Democratic Laws.
INDIANAPOLIS, Dec. 17.—The Indiana supreme court today decided as unconstitutional the apportionment act passed by the democratic legislature two years ago, under the provision of which the legislature which meets next month was chosen. The finding is that the apportionment laws of 1875, 1879, 1891 are all unconstitutional, but the court also finds there is a de facto legislature elected, qualified to enact a law which may take the place of the law set aside.

Won't Accept Resignations.
WASHINGTON, Dec. 18.—The postoffice department has refused to accept the resignation of fourth class postmasters or make appointments, except in places where the postmaster dies or absconds. The department has learned that postmasters are resigning and securing the

appointment of democrats or mugwumps, and oftentimes selling their business to the new man as a part of the consideration. Fourth Assistant Rathbone, who has charge of these matters says that it is unfair to the new administration, and the department does not care to be a party to such bargains and sales as many of them seem to be.

A Balance Against Us.
WASHINGTON, Dec. 18.—The first published official information concerning the foreign trade of Germany for 1890 has just been transmitted to the state department. It shows that 9 1/2 per cent of Germany's imports come from the United States, while 12.2 per cent of her exports come to the United States. Great Britain headed the list of countries with which Germany did business furnishing 15 per cent of the imports and absorbing 29 per cent of the exports.

Want to Hang Beattie.
PITTSBURGH, Dec. 18.—The feeling against Beattie, the alleged Homestead poisoner among the non-union men at the mills is very bitter, and from rumors afloat it would seem that he was much safer in jail than out of it. It is stated that an organization has been formed among the non-unionists to put him out of the way if he should be given his liberty.

The President's Patern.
SAN FRANCISCO, Dec. 20.—The Examiner this morning says that President Harrison has accepted a proposal from President Jordan, of the Leland Stanford Jr. university, to become a member of the faculty of that institution. His duties will comprise the delivery of a series of law lectures, which will call him to Palo Alto two or three times a year, and it is probable that he will make this state his winter residence.

Will Maintain the Reserve.
WASHINGTON, Dec. 18.—Secretary of the Treasury Charles Foster today expressed himself freely to reporters respecting the alarm felt in financial circles over the anticipated large gold exports. He said:

"My duty will be performed in the interest of the public welfare as vigorously as if my time were not soon to end. Every resource at my command will be availed of to preserve the ratio of gold and silver, as I am commanded by law"

Large Batch of Immigrants.
NEW YORK, Dec. 19.—Over 1400 immigrants were landed here today. Agent Beaz, of the Hamburg-American line, who was a passenger on the Columbia, announced that no steamer passengers will be brought from Hamburg after January 1.

To Extend Civil Service.
WASHINGTON, Dec. 19.—There is little reason to doubt that the president will soon issue an order extending the civil service law and rules, so as to include all letter-carriers and clerks in the free delivery postoffices. These offices now number 301 and employ about 11,200 carriers and 9300 clerks, making 20,500 in all.

To Doctor Blaine.
NEW YORK, Dec. 18.—Dr. Alfred D. Loomis, the leading specialist in New York city, and probably in America, on Bright's disease, was tonight summoned to Washington to attend Secretary Blaine.

More Extra Session Talk.
NEW YORK, Dec. 19.—A Washington special quotes Don M. Dickinson as authority for the statement that Cleveland is in favor of an extra session, but he is undecided whether it should be held in the spring or fall.

There's a good deal of guarantee business in the store keeping of today. It's too excessive. Or too reticent. Half the time it means nothing. Words—only words.

This offers to refund the money, or to pay a reward, is made under the hope that you won't want your money back, and that you won't claim the reward. Of course.

So, whoever is honest in making it and work—not on his own reputation alone but through the lead dealer, whom you know, must have something he has faith in back of guarantee. The business wouldn't stand a year without it.

What is lacking is evidence. Back of that, what is lacking is that clear honesty which is above the "average practice."

Dr. Pierce's medicines are guaranteed to accomplish what they are intended to do, and their makers give the money back if the result isn't as guaranteed.

Doesn't it strike you as being a little odd which the makers say is evidence in, is the medicine?

Milk, Milk
Having assumed entire control of the Minthorn Park dairy by the purchase of Mr. Hemelgarn's interest, I am prepared to furnish pure milk delivered to any part of the city at reasonable rates. Orders can be left at O. W. Lovejoy's and F. T. Barlow's on Main street or J. D. Renner's on Seventh street.
M. W. RANDALL, Jr.

Church Festivals.
Special prices given to churches and schools for their Christmas candies, nuts and fruits. E. E. WILLIAMS, the grocer.
