WILL BEGIN TUESDAY, JANUARY 3, 1893.
For catalogues and full information address,
THOMAS McCLELLAND, Pres., Forest Grove, Or.

AT WASHINGTON.

Congress Owns the Mill of the Gods—Other Notes.

PENNOYER AND THE DEMOCRATS.

New Supreme Judge—Democrats in Council—The Hawaiian Trouble.

A bill has been introduced in the house providing for commercial and political union between the United States and Canada.

The house has received the anti-option bill back from the senate several amendments incorporated in which it is disposed not to concur. A conference is probable.

Senator Mitchell gave a lunch to Judge Caples today at the senate. Among those present were: Vice-President Morton, and Senator Dolph.

The senate in executive session discussed the French and Swedish expedition treaties. The French treaty was ratified. Incidentally the Hawaiian matter came up and was debated. There was almost a unanimous feeling in favor of American interference, but a difference of opinion as to whether annexation or a protectorate is best.

A DEMOCRAT NAMED.

Howell Edmunds Jackson to Succeed Associate Justice Lamar.

WASHINGTON, Feb. 2.—Howell E. Jackson has been nominated by the president to be associate justice of the supreme court of the United States, vice L. Q. C. Lamar, deceased.

COMMENT UPON THE APPOINTMENT.

WASHINGTON, Feb. 2.—Inquiry about the capitol shows that the appointment of Judge Jackson, is considered, from a judicial and not a political view, as a splendid one. The appointment was a great surprise to the Tennessee delegates in the house. The two republican members felt sore over the selection of a democrat and a state's rights man, but when asked as to Jackson's personal fitness, they conceded his character and ability were all that could be desired. The selection politically is no more pleasing to some of the democratic representatives, who recall the fact that Judge Jackson is a leader of the "upper school of democrats of Tennessee." The men said, however, the new judge was strong, clean and able. Several members of the delegation from Tennessee, asked about the appointment, said:

Representative Hook: "I think President Harrison followed his inclinations, betrayed the republican party and committed a crime against the constitution by appointing a man, who by birth and schooling, is a state's right democrat, believing in a strict construction of the supremacy of the state over the nation. I have nothing to say against Judge Jackson as a man, for he is just, able and humane."

Representative Enloe: "It is an excellent appointment. Judge Jackson is able, industrious, pure in character and a good judge. I have never heard his democracy questioned."

The nomination came as a great surprise on the senate side, and was received while the senate was in executive session. While no comment was made on the floor, the republicans gathered about in little groups and discussed it. With the exception of a few who think the president should have appointed a republican, the nomination was well received. It was said there would be little, if any, opposition to his confirmation.

[Howell Edmunds Jackson is a well known jurist. He was born in Paris, Tenn., April 8, 1832. In 1840 his parents removed to Jackson, Tenn., where Howell was graduated at the West Tennessee college in 1848. He then passed two years in the university of Virginia. In 1856 he was graduated at the Lebanon law school and began practice at Jackson. In 1859 he removed to Memphis, and was twice appointed judge of the state supreme court. He returned to Jackson in 1876, and was elected a representative in the legislature in 1880. He was elected United States senator from Tennessee for the term beginning March 4, 1881, but resigned in 1886, and in March of that year was appointed by President Cleveland as United States district judge for the western district of Tennessee.

Democrats in Council.

SALEM, Feb. 2.—In response to the call of Chairman D. R. Murphy, the state democratic central committee met this afternoon. There was a general discussion as to the best methods of harmonizing all factions of the democratic party. No names of candidates were mentioned in connection with any federal appointments, and so far as the official indorsement of the committee is concerned, there was none. It was

learned that one of the primary objects of the meeting was to determine upon some definite plan of organization to be observed in every nook and corner of the state. The matter of establishing a democratic morning newspaper in Portland was discussed, but the committee thought it too much of a job to undertake at this time.

GOVERNOR PENNOYER GETS SCORED.

"The state democratic central committee of Oregon here assembled regret the attitude of his excellency, Governor Pennoyer, towards the leader of our party, President-elect Grover Cleveland. The people for the second time and by an overwhelming majority have shown their confidence in President Cleveland, and it ill becomes Governor Pennoyer, who has repeatedly been honored by the democratic party, to attempt to throw slurs on its greatest leader. We hereby renew our allegiance to the chosen chief executive of this country, and consider Governor Pennoyer's utterances against him as unwarranted and sensational."

ARSENIC AND AMMONIA.

Remarkable Contrast in the Effect of Two Poisons on the Complexion.

The slow absorption of many poisons changes in some more or less modified form the complexion, but arsenic and ammonia show their effect about as quickly as any. The popular belief that arsenic clears the complexion has led many silly women to kill themselves with it in small, continued doses.

It produces a waxy, ivory-like appearance of the skin during a certain stage of the poisoning, but its terrible after effects have become too well known to make it of common use as a cosmetic.

The effects of ammonia upon the complexion are directly the opposite to that of arsenic. The first symptom of ammonia poisoning which appears among those who work in ammonia factories is a discoloration of the skin of the nose and forehead. This gradually extends over the face until the complexion has a stained, blotched, and unsightly appearance. With people who take ammonia into their systems in smaller doses, as with their water or food, these striking symptoms do not appear so soon. The only effect of the poison that is visible for a time is a general unwholesomeness and sallowness of the complexion.

Many people are slowly absorbing ammonia poison without knowing it. The use of ammonia in the manufactures has greatly increased of late, and it is unquestionably used as an adulterant in certain food preparations. Official analysis have plainly shown its use even in such cheap articles of every day consumption as baking powders. The continued absorption of ammonia in even minute quantities as an adulterant in food is injurious not merely from its effect upon the complexion, but because it destroys the coating of the stomach and causes dyspepsia and kindred evils.

Treaty Should be Revised.

WASHINGTON, Feb. 2.—President Harrison sent to the house today a message dealing with the importation of foreign goods into the United States across the Canadian border, under the consular seal system. The president discusses at length the treaty obligations which affect the subject, growing out of the provisions of the treaty of Washington. The law based on this treaty did not contemplate the passing of sealed cars to any place not a "port," nor the delivery of such to owner or consignee to be opened by him without the supervision of a revenue officer. Such practice is inconsistent. The revenue statutes relating to transportation of merchandise between the United States and the British possessions should be subjected to revision. The treasury regulations have given these laws a construction and scope the president does not think was contemplated by congress.

Tin Plant Sold to the Welsh.

DEADWOOD, S. D., Feb. 3.—Superintendent Childs, of the Harvey Peak Tin Company, has just returned from New York, and by his orders the mines and mills of the company have been closed down indefinitely, throwing between 300 and 400 men out of employment. The suspension caused great surprise throughout this section, as the recent reports of the operations were of a most encouraging nature. Superintendent Childs refuses to give any information, except that the suspension will be permanent. It is stated, on supposedly good authority, that the entire plant has been sold to a Welsh tin syndicate, which is opposed to the production of tin in the United States.

The Dual House in Kansas.

TOPEKA, Feb. 3.—All hope of settling the middle of the house has been abandoned, and the two organizations have settled down, quit quarreling and agreed to divide the time on the floor from now

to the close of the session, the republicans meeting in the forenoon and the populists in the afternoon. Of course, a tangle in the affairs of the state will result, and it will continue until after the next general election in 1894, when a new house will be chosen. The populists believe the republicans will not care to attack the populists' laws and thus tie up the state government. They believe, too, that public policy would compel the supreme court to recognize the populist as the de facto house and sustain its laws.

Germany Wants Pay to Keep Bill.

NEW YORK, Feb. 2.—A telegram from Berlin, published this morning, to the effect that if the United States should annex Hawaii, Germany might demand a slight compensation elsewhere, was discussed with much interest in official circles. But one construction could be placed on it, and that was that Germany would insist upon the United States retiring from joint control with Germany and England of the Samoan islands.

Will Clackamas County Supply It.

PORTLAND, Or., Feb. 2.—Major Handbury, United States engineer, is asking for proposals for furnishing 1000 000 tons of rock for the jetty at the mouth of the Columbia, with the privilege of taking as much more or such part of the amount as may be needed to complete the work. The rock used during the past year has been supplied by Joseph E. Smith from quarries in the vicinity of Oswego, and the bargeloads which started down the river Friday completed the contract. The present contract will require a greater proportion of large rock than was asked for last year, as the jetty is now nearing completion, and the rock placed on top will be more exposed to the action of the waves than that below.

New Associate Justice.

WASHINGTON, Feb. 2.—Howell E. Jackson has been nominated by the president to be associate justice of the supreme court of the United States, vice L. Q. C. Lamar, deceased. Inquiry about the capitol shows that the appointment of Judge Jackson, is considered, from a judicial and not a political view, as a splendid one. The appointment was a great surprise to the Tennessee delegates in the house. The two republican members felt sore over the selection of a democrat and a state's rights man, but when asked as to Jackson's personal fitness, they conceded his character and ability were all that could be desired.

Will Build a Second Vesuvius.

NEW YORK, Feb. 3.—Naval officers say if the reports from the gun's trials on the cruiser Vesuvius continue as favorable as they have for the past three days, there is little doubt that a second dynamite gun vessel will be built. It is learned on good authority that the navy department is prepared to order a second ship of the Vesuvius type, to be built just as soon as there is sufficient assurance of the accuracy of the dynamite gun when operated from a floating platform.

Boies for the Cabinet.

DRS MOINES, Ia., Feb. 3.—Cleveland has tendered Governor-elect Boies the position of secretary of agriculture, who today sent to Cleveland a letter declining the position of secretary of agriculture. The information comes from the governor's friends. The matter has been under consideration for several days. Governor Boies gives as his reason that it is the general wish of the democrats of the state that he should fight for United States senator next fall.

The City of Peking Safe.

SAN FRANCISCO, Feb. 6.—The City of Peking was sighted eighteen miles out this morning at 8:45. She left Yokohama for San Francisco, January 10th, and was due here January 24th. Today makes her twelve days overdue. It is now learned that the machinery broke down nineteen days ago, since which time the Peking has been under sail.

To Revise the Pension List.

WASHINGTON, Feb. 2.—Mr. Little of New York, a member of the Raun investigating committee, introduced in the house today a bill to revise the pension list. Its purpose is to discover all undeserving pensioners and have their names erased from the roll.

Tara and Tara Aboard.

TOPEKA, Kan., Feb. 2.—Populists this morning obligingly took a recess to give the republicans a chance to do some business. The republican house then passed a bill appropriating \$60,000 for the Kansas world's fair exhibit.

Alaska Wants Home Rule.

SEATTLE, Feb. 2.—The people of Alaska are calling aloud for home rule and are setting earnestly at work to secure it, according to advices received from Juneau by the steamer City of Topeka, now in port.
