FRIDAY, FEBRUARY 24, 1903.

RESULT OF ACCIDENT.—Between three and four weeks since Rufe Robbins while working on the new sash and door factory was hit on the side of the jaw by a plate which slipped from the pikes while it was being carried to its position on the building. He was holding one end of the long stick at the time of the accident. But little was thought of it at the time, but subsequently when during a severe attack of pneumonia, the glands where he was struck by the stick began to swell, it was feared that he had been hurt more than was at first supposed. On Tuesday morning he was very sick and his folks had found it necessary to rub his limbs all night to keep up circulation. Preparations were being made to lance the swelling, but it was found that he was too weak to stand the shock. Subsequent to the writing and placing in type of the above, Rufus Robbins died on Tuesday evening, death resulting from heart failure due to the injuries above mentioned complicated with pneumonia which had greatly reduced his vitality and strength. Rufe, as he was commonly called was a young man of exemplary habits, a careful painstaking and competent workman and was highly esteemed by his associates. His death at the early age of nineteen years cuts off a life full of promise and causes deep grief to a large circle of friends and relatives.

WORK ON THE ICE PLANT.—Messrs. H. E. Smith and J. P. Lovett have begun active work in preparing the building in which their ice plant is to be located for occupancy. They will occupy all of the lower floor of the Portland General Electric company's warehouse for the manufacture of ice and for cold storage purposes. A 250-horse power wheel will be placed at the foot of a flume to be built along the west side of the warehouse in the same place that the old electric light flume stood. The work of preparing the room for the machinery, and building the flume will be done by Messrs. Smith and Lovett, but the placing of the machinery will be done by the contractors who are to have the plant completed by the 15th of May. The machinery will begin arriving about the first of March, and as a matter of fact the company expects to begin turning out pure, crystal cakes of ice as early as the first of May. This ice will be of the very best quality and will be largely disposed of in Portland though proper attention will be paid to the local market, but 20 tons per day is much more than this city can use at present. The cold storage feature will be a great advantage as meats, fish, fruits, vegetables and dairy products can be kept as fresh as when killed, garnered or made.

BAPTIST SUNDAY SCHOOL WORK.—The Young People's society of the First Baptist church is conducting five missions as follows: The West Side mission Sunday school meets at 3 p. m., John Humphreys, superintendent. The Canemah mission school meets at 3 p. m., John Gibson, superintendent. Young People's society Tuesday evening at 7:30, Edward Beach, president. The Jones Mill mission Sunday school meets at 3 p. m., Harvey E. Cross superintendent. The Maple Lane Sunday school meets at 3 p. m., J. M. Heckert, superintendent. The Mt. Pleasant Sunday school meets at 3 p. m., O. S. Ohlson, superintendent. Besides, the society has a county mission in the person of Richard Hargreaves of Springfield, and also a city mission, Miss Willows recently of the training school at Chicago. The society numbers about sixty members at present. The Junior society conducted by the pastor and his wife, numbers 206 members and is doing a good work. The Sunday school has recently changed time of meeting from 12:15 p. m., to 9:30 a. m., O. S. Ohlson is the superintendent.

WANTED TO BE BANDITS.—On Sunday the police of this city arrested two youths aged about 14 years who had run away from their respective homes in Portland on Saturday intending to go to Mexico and enter upon the gay life of a bandit. They were each armed with a

gun and one of them had a bowie knife. Other supposed to be essentials were found stowed away in various parts of their clothing and they came from Portland as stowaways on one of the O. C. T. Co's boats. After they were taken in charge and locked up, the supposition being that they had stolen their wares, it was learned that their names were Charles Kaup and Willie Wyncoop and that their parents lived in Portland. Accordingly the officers informed their parents of their whereabouts and Monday morning they came up and resumed charge of their bandit inclined offspring.

THE SASH AND DOOR FACTORY.—The new sash and door factory is now well inclosed and the engine room built on. Last Monday the company began tearing down the sheds of the old building and moving the machinery out. It is not the intention to move all the machinery immediately and it will probably be the first of April before the old building is dismantled and everything running smoothly in the new building. When the machinery is all in place the Oregon City Sash & Door Company will have one of the best equipped factories on the coast. They have already demonstrated their ability to meet Portland competition and with the better conveniences furnished by their new factory they can meet any competition and turn out any amount of work needed.

A PASSENGER DEPOT.—The Southern Pacific has in these many years had an immense passenger business out of this city, better probably than is received from any other city along its line, yet the depot here is an old gloomy and dirty structure, hardly fit for freight. The railroad company need not expect to hold its share of travel any longer unless it makes some marked effort to make it pleasant for travelers. With commodious pleasant boats and accommodating officials and a quick, easy riding electric line running every hour, the Southern Pacific will have to do something besides take in the money in a dingy waiting room, if it gets the travel.

WANTED IT REDUCED.—On Monday, Mr. Tarrant of Portland, but who owns 200 acres of land adjoining Oswego, was in the city interviewing the court desiring to have his assessment reduced. His 200 acres was assessed at \$18,000, or \$90 per acre. As he recently sued the Oregon Iron and Steel company for \$20,000 damages for encroaching upon his property a few feet with a mine, this would not seem an unreasonable assessment. If a drift from a mine run in a few feet damages land \$20,000, the whole 200 acres, which is held as mineral land ought to be worth \$18,000. What will Mr. Tarrant take for his 200 acres might be a proper question for the court to ask.

ENTERTAINMENT AND SOCIABLE.—On Friday evening there will be a musical and literary entertainment at the Congregational church, consisting of recitations, songs and declamations. The program is well prepared and will prove an interesting and attractive one. Among the features that will particularly please may be mentioned Frank Riley's recitations. Several of our best local musicians have kindly consented to lend their services toward making it a success.

TEACHERS' ASSOCIATION.—On this Friday evening Professor John Bloss, president of the State Agricultural college, will deliver a lecture before the county teachers' association at Park Place. The president is an able man, a fine educator and an interesting speaker, and all teachers and friends of education should endeavor to hear him. The program for the following day is an interesting one and should receive the attention of teachers generally.

AGREED AND SUBMITTED.—On Thursday of last week the case of the 7th street property owners vs. Oregon City having been advanced several days on the calendar of the supreme court docket was argued and submitted for the consideration of the judges. H. E. Cross and E. B. Williams appeared for the city and C. D. Latourette for the property owners. The opinion is expected every day now.

TO ABOLISH THE MILITIA.—The Crescent Literary society is the name of a society formed in the Jones mill neighborhood which is holding interesting meetings on Friday evening of each week. At their last the question under discussion, was the state militia which according to their discussion should be abolished.

MORE ROOM.—The firm of Marr & Robertson on Seventh street have found their business increasing to such an extent that they have found it necessary to increase their store room by renting the store in the rear. The partition has been removed and this now gives them one of the most commodious and convenient stores in the city.

PROTECT YOURSELF.—Insure your property in the Guardian Assurance company of London. Cash assets \$23,000,000. F. E. DONALDSON, Oregon City, Oregon.

Wanted.—Board and lodging on farm within two miles of Oregon City for lady and two children. Address C. this office.

Bring your 5 gallon cans and get it filled with the best Pearl oil for 65 cents at the Park Place store. x

AT PACIFIC UNIVERSITY.

A Student's Report of the Oratorical Contest and Society Entertainment.

FOREST GROVE, Feb. 18.—Last evening the Gamma Sigma literary society entertained a crowded house with a well prepared program consisting of vocal music, an oratorical contest and a dramatic play, "The Court Scene in the Merchant of Venice." The greater interest centered on the oratorical contest and the following gentleman were chosen as judges, Mr. Smith, mayor of the city, Mr. Davies, manager of the Keely institute, and Rev. Mr. Waters of the M. E. church. The judges were to decide upon the following points, viz: thought, composition and delivery. The contest was between Mr. Philip E. Bauer and Mr. Oliver H. Kerns both of whom are in the freshman year. Mr. Bauer's subject was, "The Effects of Immigration on our Civilization." Mr. Kern's subject was "Patriotism." The orations were good and would have done credit to students much further advanced or even to college graduates. The judges reported Mr. Bauer's average to be 88.1 per cent, and Mr. Kerns 91 per cent. Mr. Kerns having won was presented by the society with a neat silver medal bearing a beautiful engraving of one of the university buildings and appropriate inscriptions. In the presentation speech Mr. D. H. Thomas said "Only one can win in any contest, but after all the real gain is not in the prize, but in the preparation necessary to enter the contest."

The play was very interesting being acted out in a manner creditable to the performers. The entertainment was in every way a success and the students and citizens of Forest Grove went to their various homes well satisfied that they could not have spent the evening in a more enjoyable manner. The students are manifesting a lively interest in their literary work. Pacific University was never in a more prosperous condition than it is at the present time and one only needs to look through the catalogue to convince him of the fact that the course of study here is equal to that offered by any college on the coast.

Mr. Roots, the international secretary of the college Y. M. C. A., while on his recent visit here said "There is more of the college spirit manifested by the students here than in any similar institution on the coast, not excepting Stanford or Berkeley." This is only one of the many compliments that Pacific University is constantly receiving.

AMMONIA.

Physicians Opposed to its Use.

The Sanitary Era of New York in its November number has the answer of numerous physicians all over the country to its question: "Do you consider advisable the habitual use of food in any degree qualified by ammonia?" Over a thousand replies have already been received, and the Era says they are still coming in and that they are unanimously in the negative—many of them stating the particular harm to the kidneys, stomach, nervous system, etc., occasioned by the drug.

The Indianapolis "Independent" says editorially, that these opinions are entitled to especial consideration because they were published in the Era, being obtained by the editor, W. C. Conant, solely in the interest of the public, and further states that "no corporation is powerful enough to buy an utterance in its columns, or prevent one when in the opinion of its editor one should be made."

The question is of great importance in view of the many baking powders containing either ammonia or alum, or both, and the Era does not hesitate to place what it terms the principal offenders on the "front seat," so that they may be better viewed by the public and avoided in the future. Those thus pilloried are: Royal, Calumet, Davis' O. K., Atlantic and Pacific, Kenton, Patapsco, Silver Star, Dry Yeast, Bon Bon, Zipp's Grape Crystal.

Then follows a list of about 200 other less important brands which are all tainted with either ammonia or alum.

The New Model Hall Typewriter.

A perfect machine, writes in 82 characters, can be used in all languages, can manifold, and do all kinds of duplicate work, twenty different styles of American type, light and handy to carry, writes on ruled or unruled paper, any size or quality. Easy to learn and as rapid as any, a perfect paragon of usefulness. It is acknowledged to be one of the very best writers in the market. Warranted as represented. Send for circulars and samples to T. P. Soules, Agent, Marquam, Or.

Mr Albert favorite, of Arkansas City, Kan., wishes to give our readers the benefit of his experience with colds. He says: "I contracted a cold early last spring that settled on my lungs, and had hardly recovered from it when I caught another that hung on all summer and left me with a hacking cough which I thought I never would get rid of. I had used Chamberlain's Cough Remedy some fourteen years ago with much success, and concluded to try it again. When I had got through with one bottle my cough had left me, and I have not suffered with to others, and all speak well of it." 50 a cough since. I have recommended to cent bottles for sale by Geo. A. Harding.

Attention G. A. R.

Owing to a school election occurring on the first Monday in March, the regular meeting of Meade Post No. 2, G. A. R. is hereby postponed to Wednesday evening, March 8. **DAVID McARTHUR,** JAS. P. SHAW, Post Commander. Adjutant.

MRS. ELMIRA HATCH. HEART DISEASE 20 YEARS.

Dr. Miles Medical Co., Elkhart, Ind.
DEAR SIR: For 20 years I was troubled with heart disease. Would frequently have falling spells and smothering at night. Had to sit up or get out of bed to breathe. Had pain in my left side and back most of the time; at last I became dropsical. I was very nervous and nearly worn out. The least excitement would cause me to faint. I was so much troubled with fluttering. For the last fifteen years I could not sleep on my left side or back until I began taking your **New Heart Cure.** I had not taken it very long until I felt much better, and I can now sleep on either side or back without the least discomfort. I have no pain, smothering, dropsy, no wind on stomach or other disagreeable symptoms. I am able to do all my own housework without any trouble and consider myself cured.
Elkhart, Ind., 1888. **Mrs. ELMIRA HATCH.**
It is now four years since I have taken any medicine. Am in better health than I have been in 40 years. I honestly believe that **Dr. Miles' New Heart Cure** saved my life and made me a well woman. I am now 62 years of age, and am able to do a good day's work.
May 28th, 1892. **Mrs. ELMIRA HATCH.**
