The legislature and the Cross Road en that any action of a republican legislature or county court would be indersed by that kind of a meeting. Now it seems to me the easiest way out of such extravagances in future would be to abolish the legislature and county court and substitute these wise solons. They will curtail the expenditures of the state and county, then if we will give them a printing press and a straw stack they will give us all the money we want and more too. Why connot we all be happy?
