GETTING ARISTOCRATIC.

The democratic house of representatives, member and delegate, not the chairman of county the best in the state. a committee having a clerk, shall be entitled to the services of a clerk during sessions, at public expense. This resolution was adopted by a vote of 132 to 57. The private secretaries or clerks are not to cost more than \$100 a month.

This measure will be severely attacked all over the country. Says the Blade: "The farmers of the West and South, who look paid to representatives in congress as princely, will not look with favor on the steal of \$100 per month additional out of the treasury for each of these gentlemen, to enable them to answer their letters and relieve themselves of routine work. Then the manner of its adoption, at the very end of a congress, and before the people had a chance to make themselves heard on the subject, unjustifiable steal. But the probability is that the innovation will stand and become permanent. The clerks will prove very upon as a permanency." This means that law, without being oppressive to properly the Rush, expects to make the trip in nearly \$500,000 per annum is to be added to owners. the expense of congress. THE statement is made on good authority that Canada was the cause of Hawaii's re- lives, and on whose account they make the 1889. The firm tooting which that treaty ergetic citizens, and we very much regret would have given the United States in the his absence. "Flowery Kingdom," amounting as it did to a protectorate, was distasteful to Canada and especially to the Canadian Pacific rallway which is a vigorous pusher for Pacific ocean business. Jealous of the commercial growth of the United States in that direction, Canada indirectly interiored and defeated the treaty. The fact that other nations do not want us to have them and do wish to gain control themselves, coupled with the fact that Hawaii has asked to be annexed, should lead to that result without unnecessary delay. It is to be hoped that Mr. Cleveland's special messenger may mate an early and favorable report, and that a treaty will be and be satisfactory to the senate.

MICHIGAN has a judge who looms up as a record-breaker. According to the San Francisco Examiner he contends that a nign may have ordinary intelligence on passing events of the day and still be qualified to serve on a jury. In fact, he goes so far as to say that in their skulls, because "with more infelli- favor of the negative. gence in the fury box there will be more justice in jury trials."

The best argument on this point was made by a famous soap-maker in the East. When a friend asked him why he did all his ad-"a man who never reads the newspapers never uses soan." The old notion that the proper thing to do in a jury trial is to roll in a dozen cabbage-beads and plant them in the box is rapidly losing its grip. Our Mich- and interesting, igan friend has a great number of followers on the bench, fortunately, who are quietly helping on the era of enlightenment. As newspapers multiply in the land the ignorance standard for a juryman becomes a howling farce. It can only place in the jurybox either needy candidates above all fear of perjury or soapless anarchists whom it were rank flattery to stigmatize as citizens.

The record made by Judge McBride at the last term of court was right in line with the course here commended. The ENTRIPRISE then commented favorably and the citizens of the county generally voiced a hearty en-

There is another reason why it is not best to publish these resolutions at this time. The impresdon is general throughout the state that Clackamas county and Oregon City are just now in the fore rank of progress with a united people pulling for improvements.
