FRIDAY, MARCH 24, 1893.

ACCIDENT AT THE CROWN MILLS.—That was a terrible accident which occurred at the Crown paper mills last Saturday morning just after the day shift went on duty. Louis Stapler was caught in a line shaft while in the third story over the huge cooking cylinders, twisted up and carried around and around while he was beating against projecting timbers, till his clothes gave way and he was thrown to the floor below bruised and terribly mangled. It is supposed that the accident was caused by a loose shirt sleeve, the button being off, which caught on the main shaft which was revolving at the rate of 180 revolutions per minute, while he was oiling a bearing. Fellow workmen on the main floor heard his cry when caught, and also heard a sprinkler fall which he had struck while revolving around the flying shaft, but before they could climb up the two flights of stairs to his aid he had been thrown to the floor all broken and bruised. He was quickly brought to Dr. Carl's office where his injuries were found to consist of three broken ribs, both arms broken, one of them in two places, above and below the elbow, numerous severe bruises and probably internal injuries. His wounds were dressed and he was carried home where he spent a comparatively comfortable night, considering the terrible mangling which he had received. Stapler was a young man 26 years of age, of good habits and well liked. He had a wife and one child. He came to Oregon City from Missouri about six months ago and had been at work in the paper mill four months. He is said to have been carrying an accident policy of \$1500 at the time of his death.

A SILVER WEDDING.—On Friday evening March 17, 1893, a large company of invited guests met at the residence of Mr. and Mrs. George W. Boylan of this city, to celebrate with them the 25th anniversary of their marriage. An excellent social time was had. A sumptuous repast was served, a number of presents were given and excellent instrumental music was rendered by the Aldridge Bros. and others. Appropriate remarks and prayer was offered by Rev. P. B. Williams, pastor of the U. B. church. Among those present were: P. B. Williams of Portland, Mr. and Mrs. John P. Sumner, Mr. and Mrs. Geo. Boylan, Mrs. and Mrs. Will Aldridge, Mr. John Aldridge, Mr. and Mrs. Frank Aldridge, Mr. Joe Aldridge, Mr. Reuben Aldridge, Mrs. Sade Surfas, Mr. and Mrs. Will Green, Mr. and Mrs. A. P. Cannon, Mr. and Mrs. James Miller, Chas. Peterson, Mrs. Mary Stewart, Mr. O. Warren, Mr. A. Cannon, Mr. Jesse Milligan, Mr. Chas. Milligan, Miss Winnie Boylan, Mr. Chas. Boylan, Mr. M. Murran, Mrs. Edna Griggs, Miss Mattie Boylan and Miss Cynthia Brassick. The affair was a success in every respect.

CLACKAMAS COUNTY BOYS.—The Woodburn Independent contains the following notice of two of Clackamas county's young men who moved to Woodburn a couple of years ago: "The planing mill of Livesay Bros. is running on full time and is turning out a superior quality of work. Mr. Livesay told us that they would do fully \$500 worth more work this month than in the corresponding month of last year. They will soon put in more machinery. Sash, doors and blinds will constitute a special feature of their business."

SEVEN NEW MEMBERS.—Falls City Lodge No. 59 of this city is in a most prosperous condition, and is rapidly building up a good membership. The applicants for last Friday night numbered seven and still they are coming. The march assessment was paid out of funds on hand so that members had nothing to pay for this month. There are now 118 members.

AURORA'S NEW OFFICERS.—The city election occurred for the first time last week in the young city on the southern boundary of Clackamas. The officers chosen were as follows: Treasurer, Fred Will; recorder, A. H. Giesy; marshal, Wm. Miller; trustees, Wm. Fry, C. Snyder, Geo. Kraus, Stephen Smith and Wm. Miley.

TO DRAIN THE LAKE.—The wisdom of draining what is known as "the lakes" lying north east of town has often been remarked, but no move has ever been made in that direction till recently when C. O. Albright had a preliminary survey made by Sidney Smyth which demonstrated the feasibility of draining the lakes into the Abernethy. He has since presented the matter to the property holders who own the lake and adjacent territory and they have signified their willingness to co-operate in the movement. The work will be done by a system of under-drainage leading to a large main which will empty into the Abernethy near the brick yard. Sidney Smyth is now engaged in making a survey and plans showing the places where thing should be laid together with estimates of cost. It is expected that the work will be done this summer. Besides redeeming a large area of rich alluvial bottom land it will relieve the lower end of the city of a fever and miasma breeder which will prove a God-send to those inclined to malaria.

HORSE FELL ON HIM.—Have you noticed John Noblett limping about town? Well, whilst you may think it unfortunate that he has to walk about with a cane, John thinks himself the luckiest man in town just because he isn't worse used up. You see he was riding along on horseback when in crossing a walk the horse's feet slipped from under him and down came horse and rider in a heap. It was done so quick that John couldn't help himself but his leg which was under the horse just cleared the walk and laid in a hollow between the walk and a hump so that it was protected and instead of being broken and smashed, he has only a bad wrench of the ankle to bother him, and that is why he smiles so broadly when relating his lucky escape.

THE CARS ARE ORDERED.—Last Friday the Portland General Electric company placed the order for the cars for its west side road with Briel and Company of Philadelphia. These cars will be 30 feet long and nine feet wide. This will give as much room in seats as a passenger coach on a standard gauge-railroad has. The cars will be vestibuled so that the motorman instead of standing outside exposed to all the inclemencies of the weather will be inside. The trucks will be of maximum traction and speeded to 20 miles per hour which will enable them to run the entire length of the road in less than six minutes if they desire. The cars will be painted a handsome cream, trimmed with gold and will be the finest in the state. In two months they ought to be here.

BUDGET TO KANSAS CITY.—Some time since the people of "Kansas City" set about getting a bridge across Fourteenth street gulch on Madison street and at one time they were assured of success, but the plans did not materialize and they had to look to another quarter. They now find the bridge again in sight, as they have the money raised which added to that which the city council stands ready to allow will build it, and H. E. Cross has agreed to put it up. As part payment he is to take three lots subscribed by E. M. Atkinson, Sam Roake, and Nick Story, and have entered into a bond to make good the amount of the subscriptions. They expect to see the bridge built at once. It will be a great convenience to that part of the city when completed.

RETURNED TO OREGON.—Mr. John M. Crawford of Portland, a brother of Mrs. H. C. Stevens spent Sunday in town. Mr. Crawford has just returned from an European tour of several months duration. He spent considerable time amid the historic scenes of England, Ireland and Scotland. Among other things he says he enjoyed the art of Paris but to an American "London is the city." Mr. Crawford is an Oregon boy, a son of the late Hon. Medorum Crawford, the pioneer of 1842. On the way home he took in the inauguration and the World's Fair. At the former he saw Senator Dolph and Congressman Hermann. And now he says Portland seems to have shrunk since he went away.

THE WHEAT OUTLOOK.—Reports from the several parts of the county are encouraging relative to the appearance of winter wheat. There was a good acreage sown last fall and the winter was in the main favorable. For a time there was frosty weather which would have hurt the wheat had it been exposed but fortunately during most of the cold weather it was protected and so suffered but little injury, and the outlook is now very favorable for a good crop.

A NEW FIRM.—The members are H. H. Johnson, T. P. Randall and D. W. Kinard all well known in this community where the first two named were brought up. They will office in the new suite of offices being fitted up over the Bank of Oregon City where they will establish a general surveying, engineering and draughtsman's office. The new firm needs no send off in this community.

FORMING A SYNDICATE.—For some past parties have been engaged in organizing a syndicate for the purchase of the Dan Magone tract of 200 acres, the price being \$225 per acre. The plan is to allow each acre to represent a share and to permit each one in the pool to take as many shares as he likes. The first of the week 125 shares had been taken.

IMPROVEMENTS AT THE CROWN.—In a few days the Crown Paper mills will shut down and give the mill a thorough overhauling, converting it from coarse manilla and straw mill into a straw, fine manilla and news mill. The last run of straw paper is now on prior to the close down which will require about three weeks to get in place the three car loads of machinery which has arrived and is enroute. The efficient superintendent, W. F. Hawley, will have charge of this work. When the mill shuts down he will push the work as rapidly as possible. For a few days last week while out of stock six of the big drying cylinders were removed to make room for the new machinery.

WANT FREE DELIVERY.—Some time since the Pomona Grange passed resolutions opposing further reduction of postage until after free delivery has been generally established. Replying to these Hon. Binger Herman writes to Dr. J. Casto as follows: "I beg to acknowledge the receipt through the secretary of the resolutions passed by Pomona Grange P. of H. opposing any further reduction of postage until the several communities are supplied with free delivery. I am heart and soul with you in this resolve and on several occasions have placed myself on record in congress on each of these propositions."

BIRTHDAY PARTY.—The 20th of March was E. P. Rand's 72d birthday and the Saturday previous when the little folks could be at home from school his daughter, Mrs. W. A. White gave a birthday dinner in honor of his anniversary to which she invited all his grand children, who presented him with an easy chair as a token of their love. Those present were Wilfred and Norman White, Jean White, George and Nellie Swafford and Nellie Swafford, Thurlow and Eulalie Rands.

BAD PLACE TO WORK.—Last week George Broughton's sawmill had to be shut down for a couple of days owing to an accident to the log way caused by accumulated sand at the foot, which threw the chain off of the pulley at the bottom. As the chain was caught and the pulley 12 feet under water there was no way to repair the damage but to cut the shute loose at the bottom and permit it to rise to the surface when the chain could be put in place again.

MOTOR LINE TO HILLSBORO.—Surveyors working in the interests of the Cornell & Barnes Heights Motor Line company have set preliminary stakes in the principal streets of Hillsboro for the proposed line to connect that city with Portland. The figures produced by them show Hillsboro to be a fraction over 14 miles west of Portland. The citizens are very hopeful that the connection will soon be made, although retail merchants do not like the idea so well.

POMONA GRANGE MEETING.—The Multnomah District Pomona Grange will meet at Milwaukie on the 1st Wednesday in April, that being the 5th day at 10:30 o'clock a. m. The roads, finances and other questions of importance will be discussed. A full attendance is desired from all the granges. Mary S. Howard, Secretary.

WORKING OVER TIME.—Beginning last Monday the woolen mill began working extra hours in the weaving room to catch up with orders. The hours are from half past six in the morning till half past seven in the evening with but half an hour's nooning. This makes pretty long hours.

DON'T LIFT THE COVER.—Some time since Thomas Shute traded property in this county for lots in Port Discovery, Coos county. He claims to have "looked into the pot" since the trade was made and finds that the lots are valueless so he has brought suit to recover his property in this county.

Treasurer's Notice.
Notice is hereby given that there are funds on hand sufficient to pay warrant No. 29 indorsed December 12, 1891. Interest ceases with date of this notice.
F. J. LOUIS, City Treasurer.
Oregon City March 16, 1893.

Cholera in Pennsylvania.
Swickley, Penn.: We had an epidemic of cholera, as our physicians called it, in this place lately and I made a great hit with Chamberlain's Colic, Cholera and Diarrhea Remedy. I sold four dozen bottles of it in one week and have since sold nearly a gross. This Remedy did the work and was a big advertisement for me. Several persons who had been troubled with diarrhea for two or three weeks were cured by a few doses of this medicine.
P. P. KNAFF, Ph. G.
25 and 50 cent bottles for sale by Geo. A. Harding, druggist.

The New Model Hall Typewriter.
A perfect machine, writes in 82 characters, can be used in all languages, can manifold, and do all kinds of duplicate work, twenty different styles of American type, light and handy to carry, writes on ruled or unruled paper, any size or quality. Easy to learn and as rapid as any, a perfect paragon of usefulness. It is acknowledged to be one of the very best writers in the market. Warranted as represented. Send for circulars and samples to T. P. Soules, Agent, Marquam, Or.
Holman & Walling are prepared to fit up your house below Portland prices.

THE TUALATIN DOCK.—It is to be 40x110 and will be built on the company's land on the West side of the Willamette near the mouth of the Tualatin. The plans and specifications were prepared the last of the week, and it is to be built at once by contract, as it is needed in landing material required for other improvements.

Troy Laundry.
The Troy Steam laundry, of Portland, has opened an agency in Oregon City with F. A. Waddock at the post office confectionery and cigar stand, where bundles will be received and returned. Goods left at office by Tuesday noon will be returned Saturday morning.

DR. L. L. CARMEL.
Stricken Down with Heart Disease.
Dr. Miles Medical Co., Elkhart, Ind.
GENTLEMEN: I feel it my duty, as well as a pleasure, to publish, unasked, to the world the benefit received from Dr. Miles' Restorative Remedy. I was stricken down with Heart Disease and its complications, a rapid pulse varying from 90 to 140 beats per minute, a choking or burning sensation in the wind pipe, oppression in the chest, much pain in the region of the heart and below lower ribs, pain in the temples, shortness of breath, sleeplessness, weakness and general debility. The arteries in my neck would throbb violently, the throbbing of my heart could be heard across a large room and would shake my whole body. I was so nervous that I could not hold my hand steady. I have been under the treatment of eminent physicians, and have taken gallons of Patent Medicines without the least benefit. A friend recommended your remedies. She was cured by Dr. Miles' remedies. I have taken three bottles of your New Heart Cure and two bottles Nervine. My pulse is normal. I have no more violent throbbing of the heart. I am a well man. I sincerely recommend every one with symptoms of Heart Disease to take Dr. Miles' Restorative Remedies and be cured. L. L. CARMEL, Gypsum City, Kans.
BOLD ON A POSITIVE GUARANTEE.
