IMPORTANT MEETING.

The fifth session of the Trans-Mississippi congress will assemble in Ogden, Utah, on Monday, April 24.

The Denver News prints a special descriptive article of the coming event which foreshadows its importance.

It is also confidently anticipated that all, or nearly all, of the governors of the states and territories of the Trans-Mississippi country will be present.

There will be many able papers and addresses presented to the congress which will treat of the various topics in which the people of the west are especially concerned.

THE TRAMP NUISANCE.

The Oregonian makes the action of Colfax, Wash., in sentencing the tramp to three months labor in the chain gang the subject of a timely editorial.

Colfax, Washington, congratulates itself upon freedom from the tramp nuisance, because of the practice adopted of sentencing vagrants to three months imprisonment with labor on the streets.

Lack of system, and the natural desire of city authorities to avoid expense, are the chief obstacles to repression of the tramp evil.

chain-gang is seldom worn on his board, and this is why the "move on" is generally pronounced by the city marshal.

THEY DOUBLE VALUES.

A gentleman formerly from Ohio who has recently been over the roads of Clackamas county, says that the great need of this county is good roads, and that he is firmly convinced that the development of this section depends more on the building of good roads than upon any other factor.

Of course it will cost more to build roads here than in level prairie countries, but after this country is developed it will be worth much more than most of the land in the East.

The advantages of a substantial brick building over cheap fire-traps has not usually been considered by business men in this city, consequently there has been little encouragement to property owners to put up substantial structures.

PHILADELPHIA in many respects the ideal of what large cities should be in respect to the homes of the city.

OUR Needy correspondent wishes to know whether teachers and others will draw their pay from the county treasurer under the new law.

WILLIAM McGUIRE, the state fisher and hunter, calls county papers "penny liners," and turns up his nose at their "puny vaporings."

Beef, live, per lb. 36c; Beef, dressed, 66c; Mutton, live, per head, 3 00@3 50.

THE move to permit the members of a family of the late J. D. Wetherell to perform the duties of county treasurer and receive the pay therefor is one that ought to meet with general approval.
