THE ENTERPRISE CORRESPONDENTS SWEEP THE FIELD.

Another Kick at the County Court—Neighborhood News—F. M. Kruse Struck with Paralysis.

WILSONVILLE, May 7.—The action of the County Court in dividing the county into five road districts, together with other matters of no less importance, will work havoc in the ranks of the republican party of this county at the next general election, and unless some radical change is made by way of nominations at the county convention republican defeat will be unavoidable. Influential republicans around here, seeing the state of things, are looking about for a suitable candidate for the county judgeship, and their approval of Frank M. Kruse for that important position is almost unanimous. Mr. Kruse is well known and moreover is very popular throughout the county. In this strong democratic precinct he has been elected justice of the peace five successive times, which tends to show how well he is liked in this part of the county. Should he be nominated he will carry the county by a big majority, and the people would never regret their choice, for he is well qualified to fill the position.

Ervin Patterson, who, when he resided in our midst, was considered one of the prominent young men of the neighborhood, spent a few days with his friends in Frog Pond the past week. Mr. Patterson's visits are always welcome at the Pond.

Miss Rosa Wagner is spending a few days with friends and relatives in Portland. She is expected to return the coming week.

In spite of the continuous rains the prospect for a big crop of wheat is very promising in this section. The oat crop has a very different aspect. But very few acres have been sown in oats and the season is getting alarmingly late. The farmers are kicking vigorously at the continuous rainy weather, but with no good results.

Max Schelpus has sold his ranch near Wilsonville for which, it is said, he received \$10,000. It is further stated that after giving possession his first move will be a trip to the world's fair.

Hon. John Kruse of Frog Pond, contemplates building a large barn this summer. The main building will be 40x60 feet, and will be surrounded by sheds. The structure will then measure 74x94. Mr. Kruse recently purchased 70,000 shingles for covering the same.

The carpenters will commence building Pete Larson's dance hall next Monday. It is expected it will take them about two weeks to finish it. The young folks of the neighborhood are living in great expectations for Mr. Larson has promised to christen the hall with a dance as soon as it is finished.

Hon. R. V. Short was a guest at the residence of Hon. John Kruse the past week.

Prof. H. Robb, who is teaching school at Damascus, and who, when he taught school at Frog Pond, was the acknowledged poet of the neighborhood, spent a few days among old time acquaintances last week.

While out boat riding last Friday evening in company with John Tyler, Mike Gross and Ervin Patterson, Frank M. Kruse was suddenly stricken with paralysis and utterly lost all control of himself. Dr. Weaver of Aurora, who was summoned and is attending the patient, says that his condition is not fatal, although it will be several months before he can fully recover.

DAMASCUS NOTES.

DAMASCUS, May 3.—A. Bohna has sold his share in the Damascus store to J. C. Elliott who is to be the sole proprietor. Mr. Bohna expects to try farming as his future occupation.

O. C. Ford has returned from Portland where he has been under medical treatment. He thinks he has been benefited.

Damascus was saddened on the morning of May 1st by the death of Mr. C. Hiser, who had been ill for some time. His trouble was brought on by an accident about one year ago which caused hemorrhage of the lungs. Carl Hiser's age was 65 years. He was born in Germany March 8, 1828, and came to America in the year 1880, and had lived at Damascus up to the time of his death. He had been married thirty-seven years, and was the father of ten children, five of whom died in Germany and one in America, leaving four to mourn his loss.

Fritz Matthias, sr., sold at public auction, for cash, his stock and farm implements last Tuesday, realizing therefrom \$600. The great event of the sale was the purchase of a buggy and harness by George Feathers. Engage a ride early, girls; for when the good roads come there will be a general rush.

About thirty of the young people from around here met at the residence of James Wilson Saturday evening to bid Mr. and Mrs. Marshall Sylvester farewell. They have been in our midst but little more than two years and have made many friends. They will be greatly missed by all, but their absence will be felt most by the church and Sunday school as they were both enthusiastic workers. We understand that Mr. Sylvester is going to locate at Albina where he will follow his trade of tinmith. We wish him success.

He has made considerable improvement for a beginner, and says he is now prepared to make a living for two, and more if necessary. We will not venture to doubt his ability, for he is young and strong and works with a will.

E. S. Fish has been very sick with the grip but is slowly improving in health, and we hope to see him sound and well again soon.

Needy seems to be a center of gravity for James Ogle of Molalla, as we see him here every once in awhile. Jim always has a smile on his face when here, a sure sign that the climate agrees with him. Well, it's all right, Jim; we give our consent.

So far as can be determined at this time fruits of this section of country will yield most abundantly for 1893. Reports from various parts of this section of country indicate that orchard fruits are in good condition except peaches, for which the outlook as to aggregate yield is poor in nearly all sections, though of course the fruit will be exceptionally large and fine. The prospect for prunes is good. Canby prairie will raise an abundant crop this year.

The grand ball given by the Canby base ball club was well attended Friday evening and all present seemed to enjoy themselves nicely. The boys did not make as much as they expected but came out more than even.

We farmers are making the best of the few fine days and are pushing our work as fast as circumstances will allow.
