Nearly three weeks ago Albright & Warner missed a number of sheep pelts and for a time could find no trace of the thief but finally the last of the week they obtained a clue from the O. C. T. Co. which enabled Chief of Police Purdom to trace them up in Portland and find where they had been sold.

The officers of the Butte Creek Fair Association are making extensive preparations to make the fair this year the best that has ever been held in the county, and although the season is very backward the interest that is being taken in it warrants them in feeling assured that their plans will not miscarry.

Last Monday an employee of the wood pulp mill named Fisher fell into the canal together with the truck which he was wheeling at the time. He had just come out of the mill toward the locks with a load of pulp on a truck and had to run down a short incline then turn short to keep from running off into the canal.

On Wednesday afternoon a thunder shower of light proportions passed over the upper portion of this city and nothing was thought except to comment upon the unusual thing of thunder, but in the lower part of the city the shower became hail and some large hailstones fell. Henry Salisbury who was down at work on Judge Meldrum's place two miles below town reports the storm very severe there, the ground being white with hail, some of the stones being as big as marbles. The electric line men reported the hail as extending well down toward Milwaukie.

That pleasant and attractive spot, Wright Springs on the Molalla, 10 miles south of this city has been leased by Messrs. J. L. Mr. Crouse called on Thursday and said the grounds will be ready in a few weeks and that they will do all in their power to make it pleasant for parties coming there.

Old habits are hard to break up. For a long time the post office was in the Odd Fellow's building and the front got to be a loafing place. Now that Burmeister & Andresen have fitted up their show window there in a tasty manner, they very much dislike to have it rendered useless by parties, who are simply passing away the time, leaning back against the window.

The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional treatment, Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work.

Last April she was taken down with Measles, followed with a dreadful Cough and turning into a Fever. Doctors at home and Detroit treated her, but in vain, she grew worse rapidly, until she was a mere "handful of bones." Then she tried Dr. King's New Discovery and after the use of two and a half bottles, was completely cured.
