Largest stock of Coffins and Caskets kept South of Portland. Also cloth covered and Metallic Caskets furnished to order. Ladies Burial Robes and Gents' Burial Robes in stock.
Also Wagon and Carriage Making, Horse Shoeing and General Blacksmithing on short notice.

THE CHINESE TO GO.
To Deport Themselves to Mexico and South America.
WOULD IMPEACH CLEVELAND.
Affairs at Hawaii—The Inland Empire—The Fastest Cruiser Afloat.

SAN FRANCISCO, May 20.—"The gigantic scheme of the Six Companies to defeat or evade the Geary act," says a morning paper, "is no longer a secret. In brief, it is that if the law is to be enforced, the Chinese are going to deport themselves, not to China, but to Mexico, South America and British Columbia, and there wait until some plan has been prepared by the Six Companies for their return to this country. The latter organization is withdrawing as rapidly as possible all the laborers from the vineyards, farms, mills, kitchens and mines in the interior of the state, and are sending them to a point near the Mexican line or the border of British Columbia. It has been learned that the steamship Queen, which with two or three sister ships has been lying at anchor in the bay near San-salito for months, was being fitted out as rapidly as possible with a crew, being provisioned and put in readiness to go to sea, and it is understood that the other ships mentioned are also to be put in readiness for a sea voyage at once. If further time for registration is refused, then the Chinese who are near the southern or northern borders can quickly march across into Mexico or British Columbia, and those in San Francisco will be loaded on steamers chartered, and then the ships will go up and down the coast, picking up the Chinese who will have congregated at out-of-the-way ports in California, Oregon and Washington. When the ships are loaded, the Chinese will be landed in Mexico, principally, where it is said they can easily find work; but whether work or not, the Six Companies will take care of them for a time at least.

NOTICE TO THE BANKS.
"As a further evidence of the intention of the Six Companies to make some big move soon, it may be stated that Thursday last the various banks in which the companies have their cash deposited were notified that the entire amounts of deposits would probably be withdrawn within the next ten or twenty days upon a few hours' notice. As it is claimed that there is upwards of \$625,000 deposited in banks here by the Chinese, the importance of such notification to the banks can be readily understood."

Wants the President Impeached.
PORTLAND, Or., May 19.—Governor Penney calls time on President Cleveland again in the following in which he says:

"There can be no doubt whatever that a complete registration of the Chinese would have been had if Mr. Cleveland had informed the Chinese minister that he would have obeyed his oath of office by a strict enforcement of the law. Instead of doing so, he entered into a collusion with him to disregard the law. The result is the time for registration is past, and under the law the great bulk of the Chinese are subject to deportation."

"For this state of affairs, Mr. Cleveland is alone responsible. Perhaps the claim may be made before congress that this wholesale deportation would be in a measure unjust, that the Chinese were misled by their minister and by the president, and that the law should be changed, giving them another chance to register. But there will be a still more important question before congress when it convenes. It is a question involving the very stability of our government. A President of the United States for the first time in our country's history has dared to violate his sacred oath of office, by refusing to enforce a law of congress.

"If this high crime is permitted to pass unrebuked, the end of constitutional liberty is close at hand. The great question, therefore, whether we are to remain a republic, or become an imperial government, will be decided by the next congress. If no rebuke is given to the president, his action will become a precedent for others and liberty become lost. If, however, congress will do as it ought to do, impeach and remove him from office for his grave offense, the wholesome lesson will stand for ages yet to come, a notable warning against the repetition of so grave a crime.

News of the Hawaiians.
HONOLULU, May 10.—It has been announced that the big Japanese cruiser Naniwa, which has been in Honolulu harbor for several months, has been recalled and will sail today for Japan. This would indicate that Japan has given up any hope she may have had about obtaining a foothold in Hawaii. The most important event of the past few days, and even that has been expected,

was the appointment of Thurston as minister to Washington, to succeed J. Mott Smith. Thurston was chairman of the committee sent to Washington by the provisional government to negotiate an annexation treaty. Blount's attitude is still an enigma and both factions claim his report will be in their favor. Other items of interest and discussion have been the passage of what the royalists call the "press gag law" and the law prohibiting the possession of firearms and ammunition. The first mentioned law is directed against the Hawaii Holomo newspaper, which has been making bitter attacks against the provisional government, the editors and backers of which are unknown. The law provides that the true names and abodes of all the editors and proprietors of newspapers shall be conspicuously printed in each paper, thus locating the responsibility for such articles as may appear, and as the ex-queen is supposed to be one of the proprietors of the Holomo, the law is interpreted as a measure to shut her off from power to incite the natives to opposition to the provisional government.

Fastest Cruiser on the Sea.
BOSTON, May 22.—With her forward torpedo tubes buried deep in the sea and the water pushed almost as high as her fore-castle, the armor cruiser New York, steamed across the line today, breaking the world's record and winning for her builder the largest premium ever paid in any country. When 21 knots was predicted as the speed for the new cruiser, many hoped, but few believed, her engines would ever be able to drive such an immense mass of steel through the water at this rate. When she crossed the line today, however, with a speed of 21.09 knots through the water, and some corrections yet to be added for tide, the enthusiasm on board was intense. This gives the United States not only the most perfect, but the swiftest armored cruising vessel.

News from the Island Empire.
THE DALLS, Or., May 19.—The first Oregon strawberries were offered for sale here today. They were large, well ripened, and of fine flavor. The prospects are excellent for a good crop of fruit of all sorts. All orchards of this vicinity have been thoroughly sprayed and it is believed with satisfactory results. Shearing is in full blast and the wool is beginning to come in very fast. The crop is much cleaner than usual and the staple long and unbroken. Prices have not been established, as very few buyers have yet arrived. The output will be larger than for several years, if not the heaviest on record. The sheep bargained for by Eastern buyers are being delivered as fast as shorn and will take the trail at once.

For Good Roads.
NEW YORK, May 12.—Arrangements have been completed at the meeting of the National League for good roads to make an exhibit of a roadway 50 feet wide and 1,000 feet in length at the World's Fair in Chicago. The sum of \$1,000 was appropriated for this purpose. The road will extend from the French colonies exhibit to the live stock pavilion, and will show the various processes of road construction in France, Italy and England, where the country roads are in fine condition.

An illustration of the condition of the roads in this country after bad weather will be given by a wagon fast in the slough of a rough country road. On the 15th inst the headquarters of the league will be removed to Chicago.

His Sworn Duty.
WASHINGTON, May 20.—Secretary Carlisle said today that he would certainly enforce the law as to deporting Chinese, as far as means at his disposal would permit. He intended to begin with that class of Chinese who are in this country illegally, having come in contravention of the law of 1884. Having sent this class out of the country, he would then turn his attention to the other and larger class, those who have failed to comply with the Geary law as to registration. But \$16,000 remains of the appropriation for the present fiscal year to carry out this law, but \$50,000 will be available for that purpose July 1 next.

Many Horses Cremated.
ST. LOUIS, Mo., May 22.—A fire at midnight destroyed \$200,000 worth of property and caused a loss of human life. The fire was of incendiary origin. One hundred and fifty horses were burned to a crisp and the entire lot of buggies, phaetons, other vehicles, harness, etc., were destroyed. On the second floor James Quinn, foreman, his wife and eight children slept. All had narrow escapes, except Eddie, a 7-year-old boy, who was fatally burned before he could be rescued.

Cleveland's Idea About Officers.
WASHINGTON, May 17.—Cleveland's experience with office-seekers has convinced him that the present method of appointment to office through political influence has become a scandal, and he is revolving in his mind a scheme to do

away with it entirely by a complete reorganization of the system, and that he will probably recommend to congress the framing of a law for a commission on appointments as far removed from political influence as the supreme court. They are to make all the appointments, except foreign ministers and certain high officials nearest the executive qualification for the place to be the only question in making the appointments.

Storms in the East.
PITTSBURG, May 20.—A terrific hail and rain storm, accompanied by high winds and vivid lightning, passed over a portion of western Pennsylvania and eastern Ohio this afternoon doing great damage. The storm broke over Pittsburgh a few minutes after 4 o'clock and raged for an hour, striking terror to the hearts of timid people and ruining \$1,000,000 worth of property.

Small Fox is Portland.
PORTLAND, Or., May 20.—This morning a sick Chinaman on board the Danube died from smallpox. The Danube arrived at Astoria yesterday morning from Victoria and had aboard 503 Chinese. It is not thought there have been many exposures. A strict quarantine has been established over the vessel.

Glass Works Burned.
TOLEDO, May 22.—The Beatty glass works, Tiffin, O., were burned today. The loss is nearly \$200,000. Six hundred persons are thrown idle. Many employees barely escaped with their lives. The loss is fully covered by insurance.

Hop Lice Appearing.
SALEM, Or., May 20.—O. P. Beardsley, a prominent hop-grower of Eola, says the hop lice are all on the plum leaves, ready for the annual flight to the hop plants. He says the lice do not winter in the hop yards.

War Vessel's Fast Time.
BOSTON, May 20.—The cruiser New York made an unofficial run today. It is said she attained a speed of 20.5 knots or more and developed at least 16,500 horse power.

Road to Tillamook.
The Forest Grove Times says of the wagon road to Tillamook that Mr. Robbins, of Tillamook, came across the Runyon road a few days ago and found it in good condition and passable on horse-back. Between Forest Grove and the zigzag, on the other side of the summit near Devil's Lake, there are some trees across the road, one only being of any size. There is also some snow along there for a distance of three miles. One small bridge near the south fork has been broken down, and there is a washout at the foot of zigzag hill, which places are impassable for wagons. The ferry on the lower river was washed away, but the river will be fordable till winter rains set in again. Mr. Robbins estimates that \$100 will put the road in good shape for wagons. The distance to Tillamook from Forest Grove by this route is 54 miles, by North Yamhill it is 63. This road is much less mountainous than the North Yamhill road, there being about half as much mountain to climb. It will probably be opened up for travel in two or three weeks. Portland and Forest Grove sportsmen are already planning trips over into the Wilson river country, and this summer will probably see a large amount of travel over this road.

The brusque and fussy impulse of these days of false impression would rate down all as worthless because one is unworthy. As if there were no notes in sunbeams! Or catarracts in peaceful rivers! Or comets among stars! Because one remedy professes to do what it never was adapted to do, are all remedies worthless? Because one doctor lets his patient die, are all humbugs? It requires a fine eye and a finer brain to discriminate—to draw differential line. "They say" "Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Favorite Prescription have cured thousands. "They say" for a weak system there's nothing better than the "Discovery" and that the "Favorite Prescription" is the hope debilitated, feeble woman who need a restorative tonic and bracing nerve. And here's the proof—Try one of both. If they don't help you, tell the World's Dispensary Medical Association, of Buffalo, N. Y., and you get your money back again.

Ladies' Tea.
Is a pleasant drink, which will be borne by the stomach without nausea or griping. It acts thoroughly on the liver, kidneys and reproductive organs. A gentle physic, efficient diuretic, and is most useful in scant or painful menstruation. It aids digestion, and reduces corpulency; clears the complexion, rendering it fair, and restoring the natural tone of the skin, for it removes the bile, which, by accumulation, produces the sallow, muddy complexion, peculiar to the constipated state. Sold by all druggists.
