Also Wagon and Carriage Making, Horse Shoeing and General Blacksmithing on short notice.

THE GREAT FAIR.

A Visitor Gives Some Valuable Pointers—Hotel Rates.

REMAINS TO BE REMOVED.

Order to Sealers by the English Government—Davis' Funeral Train Attracts Large Crowds.

PORTLAND, OR., May 27.—Mr. C. W. Crichton who has just returned from the World's Fair, says that the various exhibits are very fine, but as it required a journey of 160 miles to see them all, he had been unable to get around, and, therefore, could only speak for what he had really seen. "I can say one thing truly," he observed, "and that is that Oregon's exhibit throughout compares favorably with any on the grounds. Our fruit exhibit in the horticultural building, is perhaps the most prominent in the building, and is attracting universal attention. Our agricultural and mining exhibits are not as complete as they might be, but as they are they compare favorably with those of other states. The Oregon fish exhibit is not yet in place. The carpenters had just finished the pavilion for it in the fisheries building upon the day I left Chicago. By cutting across lots Oregon's exhibits can be seen by traveling only 60 miles.

"Some idea of the immense size of the grounds and buildings can be gained when I tell you that 27,000 people were on the grounds one day. I was there and to look around from the tops of the buildings one would think that a corporal's guard was in attendance. The new whaleback passenger steamer, Christopher Columbus, has just been put in service to carry people to the fair. It can carry 5000 passengers at one time. There is simply an army of guards, custom-house officials and messenger boys on the grounds. There are also 825 young fellows who push the wheel chairs, and a reserve force of 600 to be called upon when needed. To get a job pushing a wheel chair a boy must have a pedigree as long as your arm, and the consequence is that most of the chair-pushers are young men from colleges and private schools. They are paid \$1 per day and board, and 10 per cent of their earnings. It costs 75 cents per hour to ride in a chair.

THE TIME TO VISIT THE FAIR.
Mr. Crichton was very much impressed with the magnitude and beauty of the buildings, the immense number of exhibits and the completeness of the transportation facilities. He says at the present time only about two-thirds of the exhibits are in place, but it is estimated that the remaining third will be set up at the latest by July 15, and probably by July 4. He attributes the small number of visitors to the fact that the various state departments have issued statements to their home papers in relation to the incompleteness of the exhibits and advised people not to attend until after July 1.

WHAT IT WILL COST.
"There is not an eating house on the grounds, which pretends to furnish anything except light lunches, and, as you can see for yourself, their charges are not higher than those of first-class restaurants in this city. A good lunch can be had for 40 cents and a first-class one for 75 cents. Of course if a man tries to make a square meal on such light material he must expect to pay for it. At the down-town restaurants the prices are not so high either. I met several Oregon gentlemen in Chicago who told me of places where good meals could be had for 50 cents each. They also told me that it was not difficult to secure good lodgings in private residences at a \$1 per day rate. One gentleman, who was living very near the exposition grounds, said that several hotels and boarding houses in that neighborhood were furnishing splendid board and lodging at the rate of \$2.50 per day. My wife and I stopped at one of the big down-town hotels, and found no difficulty in securing accommodations at the regular rates. The kick on exorbitant prices comes either from people who expect to live in Chicago as cheaply as they can at home, or from those who expect to take apartments at the Auditorium at country hotel rates. I learned of one man from Portland who telegraphed ahead for a suit at the Auditorium for himself and wife, and then when he arrived in Chicago was surprised to find that his bill was to be \$45 per day. A man and his wife from Georgia did the same thing, and at the end of two days had to pay a bill of \$170. I estimate that two persons can go to the world's fair in a Pullman coach, remain at a good hotel for a week, take in the whole exposition and all of the side shows, and return home for \$400."

JEFFERSON DAVIS REMAINS REMOVED.
NEW ORLEANS, May 27.—The remains of the late ex-president of the Southern Confederacy were removed this evening from the vault where they have been temporarily resting for 3 1/4 years to Memorial hall where they are to lie in state until transferred to the funeral that is to bear them to hollywood cemetery, Richmond, which leaves here tonight. The transfer was made early and privately at the family's request. A mounted escort of Army of Northern Virginia veterans conducted the casket in a closed hearse to Memorial hall. Here it was received in silence by the United Confederate veterans and placed upon a catafalque and exposed to public view. The Virginia veterans marched behind the hearse.

The Mongolian Question.
WASHINGTON, May 27.—Yesterday's meeting of the cabinet lasted over three hours. The terms of the circular regarding the deportation of the Chinese, issued by Secretary Carlisle Thursday, were discussed, and it was decided that nothing further could be done at this time except to instruct the subordinate officials of the department of justice to aid in carrying out the instructions of the secretary of the treasury. On one point the members of the cabinet agree with Judge Lacombe, who discharged the Chinaman Ny Lok on Wednesday. They have examined the Geary law carefully and carefully and fail to find any provision designating the officer who shall deport such Chinese as may be "unlawfully within the United States." The law says simply that such Chinese "shall be removed." This omission, even if fatal to the Geary law, does not however, affect the provisions of the act of 1884 and 1888, under which arrests will continue to be made, as required by Secretary Carlisle's circular. It is likely that another statement will be made by the treasury department within a few days, further defining the position of the administration.

Order to Sealers.
OTTAWA, Ont., May 27.—The following notice to sealers appears in today's Canada Gazette:
"Referring to arrangements concluded between the government of her Britannic majesty and that of the United States for the continuation until October 31, 1893, of the prohibition of seal killing in Behring sea, public notice is hereby given that an order of her majesty, the queen in council, has been issued prohibiting seal killing in Behring sea until March 1, 1894, until her majesty otherwise directs."

The Davis' Funeral Train.
MOBILE, Ala., May 29.—As Jefferson Davis' funeral train pulled out of New Orleans last night, crowds appeared at every street corner until the corporation limits were passed. At every station the crowds assembled, gray-haired old soldiers, ladies and children with flowers being prominent features. At Beauvoir, Davis' old home the track and station platform were carpeted with rhododendrons.

SEALERS OATH.
STATE OF OHIO CITY OF TOLEDO } ss
LUCAS COUNTY.
FRANK J. CHENEY makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by HALL'S CATARRH CURE.
FRANK J. CHENEY.
Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886.

A. W. GLEASON,
Notary Public.
Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.
F. J. CHENEY & Co. Toledo O.
Sold by Druggists, 75c.

Takes 1000 people to buy Dr. Sage's Catarrh Remedy, at 50 cents per bottle, to make up \$500. One failure to cure would take the profit from 4000 sales. Its makers profess to cure "cold in the head" and even chronic catarrh, and if they fail they pay \$500 for their over-confidence.
Not in newspaper words but in hard cash! Think of what confidence it takes to put in the papers—and mean it.
Its makers believe in the remedy. Isn't it worth a trial? Isn't any trial preferable to catarrh?

After all, the mild agencies are the best. Perhaps they work more slowly, but they work surely. Dr. Pierce's Pleasant Pellets are an active agency but quiet and mild. They're sugar-coated, easy to take, never shock or derange the system and half their power is the mild way in which their work is done. Smallest, cheapest, easiest to take. One a dose. Twenty-five cents a vial, of all druggists.

Lounges, chairs, etc., upholstered at R. L. Holman All work guaranteed. Repair all your old lounges for little money and they will be good as new.

THE GOLD LEAVING.

Treasury Officials Report Large Foreign Shipment.

THE NEW PENSION RULING MADE

World's Fair Suit—Haytian Republic Seized at Seattle—Ex-Secretary Foster Falls.

WASHINGTON, May 29.—Since January 1 \$60,000,000 in gold have been exported to Europe, and the export movement, instead of abating, seems to have received a fresh impetus. Most of this gold was taken from the United States treasury, and practically all that is now exported comes from the same source. In that time the treasury department has sustained a net loss of \$25,354,243, the net total gold in the treasury January 1, 1893, having been \$121,266,662, while today it is only \$95,912,419. With the gold engaged for shipment Tuesday and Wednesday, it will be about \$93,000,000, the lowest figure reached since the resumption of specie payments. In addition, there are reports that more will go out next Saturday, sufficient it is said, to reduce the gold holdings to \$90,000,000. Despite these heavy shipments, the treasury officials express the greatest confidence in the ability of the treasury to restore the gold balance. They point to the fact that there is a gradual and healthy inflow of gold from natural sources to the treasury, which was only temporarily checked by the large amounts taken for export. The cessation of gold exports in large amounts is looked for by July 1, as it is understood the Austrian demand is well nigh supplied. A peculiar and encouraging feature of the decrease of gold is that a corresponding increase is shown in the net treasury balance. That balance today is \$25,397,933, or nearly \$1,000,000 greater than March 7, when Secretary Carlisle took official charge of the treasury department.

New Pension Ruling.
WASHINGTON, May 27.—Probably the most important pension decision ever sent from the office of the secretary of the interior to the commissioner of pensions was filed today. It is believed by those high in the pension bureau that it will reduce the payment of pensions under the act of June 29, 1890, between \$15,000,000 and \$20,000,000. It involves the repeal of an order made by General Raum and approved by Assistant Secretary Bussey, and a return to the language of the statute requiring a disability, not of service origin, to be such as to prevent the applicant from earning a support by manual labor.

Coasting Steamer Seized.
SEATTLE, May 29.—The steamer Haytian Republic was seized here last night by the customs authorities and is now tied up at a buoy in the middle of the harbor, in charge of an inspector. She was searched today and only five pounds of opium found. The customs officers say they did not expect to find more, and that she would have been tied up if they had known she did not have a pound of opium on board. They say it is for past offenses that she has been seized, and that when they file a libel on her in a few days, there will be developments that will justify them in making the prediction that she will be confiscated.

Ex-Secretary of the Treasury Falls
FOSTERIA, O., May 26.—Ex-Secretary of the United States Treasury Charles Foster and the banking house of Foster Co., have assigned. Everything is in a chaotic condition. The bank carried several hundred thousand dollars in deposits, and had negotiated loans for the brass works and glass houses, giving its own indorsement.
Governor Foster has issued a statement expressing his deep distress and humiliation over the failure.

Suit against the World's Fair.
CHICAGO, May 29.—On application of Stockholder Clingman, Judge Stein, of the superior court, this morning issued a temporary injunction restraining the directors of the World's Fair from closing the gates on Sunday.

World's Fair Travelers Will Have It.
The public demand through service when traveling. It is old fashioned to change cars. On the through solid vestibuled trains of the Chicago, Union Pacific and Northwestern line from or to Chicago, Omaha and intermediate points, there is no change. This is the finest and fastest road.
For Sale Cheap.
J. I. Chase threshing engine and four roller chop mills. Call on or address, A. D. BARNES, No. 60, Union Ave., East Portland.
You will lose money unless you examine the fine assortment of millinery goods at the Park Place store before purchasing.
