Mails close going South, 9 a. m., 7:30 p. m.

FRIDAY, JUNE 9, 1893.

VITRIFIED BRICK PAVEMENT.

William Steyth, City Engineer Burlington, Iowa says: "There are 582-100 miles of vitrified brick pavements in our city. The first brick pavement was laid in August, 1887. Since we laid the first brick pavement, no other pavement has been laid on either business or residence streets, nor will there be in the near future. It is in use on all our streets of heavy traffic. Contractors are not required to guarantee, on account of the known qualities of brick which they are required to furnish; 5 per cent of the contract price is required for one year, to cover any expense for replacing defective material, which will show up during that time. The present condition of our oldest brick pavement is first-class—hardly any sign of wear perceptible. Strictly speaking, no repairs have been necessary; so far the only work done in this respect has been to raise sunken places over some of the underground systems, which cannot be classed as repairs. On account of its smoothness it is almost as noiseless as wood block. While very smooth, it is not at all slippery."

THE HORSE SHOW.

The horse show at Hillsboro on Saturday last was well attended and there was a good display of horses on exhibition. The interest of the farmers seemed to center mainly in the heavy draft horses which they find better adapted to their work besides which they will sell to much better advantage when they are put on the market. Among those attracting particular attention was the celebrated stallion, Grove Prince who was present together with a good number of his colts all of which were well marked and true to their sire. Grove Prince carried off the blue ribbon, and it was a real pleasure to see him as he pranced proudly along, the center of all eyes, followed by his colts three of which took prizes as sucking colts and several as yearlings and two year olds. One of the two year olds weighed 1400 pounds. It will pay you to see Grove Prince if you are at all interested in horses and to do so you have only to step into Noblett's barn any Tuesday afternoon or Wednesday morning.

RAYMOND EXCURSIONISTS.

On Monday there was a party of Raymond excursionists up here from Portland having been drawn thither by the hope of inducing a wily salmon to take their hooks, but Monday was not one of the days that fish were biting and they were disappointed. Dr. Everhart, of Scranton, Pennsylvania, a member of the party, said that Oregon City reminded him more of the towns in his state than any place that he had visited since leaving the East, and added that it had much more in the way of factories and mills than any other town visited. He was much impressed with the great power of the falls and said that with a rich country back of it this place ought certainly to become a great manufacturing city. The party left on Tuesday for Alaska.

IT MIGHT HAVE BEEN.

An accident happened at the home of C. Hoberg on Tuesday evening which resulted most favorably for all concerned since such accidents frequently furnish the material for fatal mishaps. Mrs. Hoberg and daughter were at home alone in the evening and had a lighted lamp setting on the organ when in some way it was upset and fell upon the floor and broke enough in the fall to permit the oil to run out. This at once caught fire and but for the immediate presence of mind of Mrs. Hoberg the house must have burned. She at once threw the lamp and burning contents out of doors and turned the hose upon it, thus averting a more serious accident.

AT CASTLE KEHM.

The steamer Ramona took a party of excursionists numbering about 150 through the locks and to Rock Island where they landed at Castle Kehm. The excursion was given under the auspices of the First Regular Church of Portland and all who went had a most enjoyable day and were delighted with the beauties of the scenery.

WILL NOT CELEBRATE.—Monday afternoon the Fourth of July committee held a meeting for the purpose of still further considering plans for celebrating but when the report of the finance committee was made it was found that so many of those who would be directly benefitted by the holding of a celebration here had made such small contributions that it would be well nigh impossible to get up a successful celebration and a motion was made and carried to adjourn to meet at the call of the chairman. This means that there is to be no celebration in Oregon City unless those who will be directly benefitted intimate to the committee in a practical way that they wish to have steps for celebrating renewed.

CONGRESSMAN HERMANN'S VISIT.—Last Monday afternoon Congressman Binger Hermann came up from Portland and stopped off in Oregon City till the evening train which he took to Chemawa where he was intending to visit the Harrison Institute or Indian Training school. Mr. Hermann was here to look after some business in connection with the appointment of a cadet to West Point and the Naval Academy at Annapolis. The examination for these appointments will take place in a few days at Salem and our congressman is anxious that all who desire shall have the opportunity to enter the contest and if they win will receive the appointment and the benefits of a good education free.

NEW UNIFORMS.—On Monday evening the members of Company F were measured for new uniforms which are to be made for them by J. M. Moyer & Co. of Portland. These uniforms are part of the equipment which is being furnished by the state to the National Guard and the boys are hoping that they will have them prior to the time when they expect to go into encampment, as the uniforms which they now have are becoming quite shabby. The pants which the boys are using in connection with their uniforms are those which they bought for themselves without the aid of the state. The company in Oregon City has paid more money out of their own pockets during the time that it has belonged to the regiment than it has received from the state.

THE BIGGEST YET.—The salmon usually caught at the falls with spoon and line are the young ones weighing from two to five pounds; but occasionally an old stager takes the hook and is landed. Saturday evening there was on exhibition before the post office the biggest salmon caught this season with hook and line. It was caught from a boat anchored below the falls and fortunately the boat slipped its anchor when the salmon was hooked and before he was landed the boat had reached and was circling in an eddy below the paper mills. It was four feet long and weighed 28½ pounds.

WILL HAVE AIR BRAKES.—The East Side Electric railway company is preparing to place air brakes on the cars plying between this city and Portland. This will enable them to operate the cars to much better advantage and to stop on shorter notice which will be a factor in enabling them to shorten the running time. As the air chambers will be pumped full by the action of the car when running down hill so that no powers will be required to operate the pumps they will prove quite a convenience not only to the motor men but to the traveling public as well.

THE LOWER RIVER.—Parties who have occasion to go down the Columbia as far as Oak Point will find it to their interest to take the pleasant steamer Iraida which after this will leave the Washington street dock in Portland for Oak point and way landings at 3 o'clock daily except Wednesdays. This allows those who live below 4½ hours in Portland. The Iraida is one of the most accommodating boats on the lower river and those who patronize it may be assured that they will meet only fair and courteous treatment.

JUNIOR PRIZE ESSAYS.—Last Sunday at the meeting of the Junior Society of the Baptist church the essays on the bible were read and the following named persons were entitled to the prizes which had previously been offered: McKelsey Thomas, first prize; Olive Thomas, second prize; Metta Finley and Grace Whitlock each third prizes. There were several present besides the Juniors. The first Sunday in July essays will be read on the subject "How to Behave in the House of God."

THEY WANT WORK.—A mass meeting of unemployed men was held at the plaza in Portland on Sunday afternoon and the following resolution was presented and unanimously adopted: "Resolved, That we demand that the city council furnish employment to those who are law-abiding citizens and are out of work, but who must logically in time become a menace to the body politic. Men must have bread and to obtain this they must have employment."

TRAVELLERS ATTENTION.—The World's Fair and Eastern cities. Save fare to Portland and re-checking of baggage by purchasing your tickets of L. B. Moore, agent, S. P. Co. at depot. Tickets over all roads out of Portland and all Eastern roads.

Hamilton & Washburn are paying the highest price for grain, hay eggs, etc.

We Must Have the Coin. Call and See Us and be Convinced.

O'CONNELL & GLASS, The One Price Clothiers, Hatters and Furnishers.

IN DEEP WATERS.—Last Tuesday as Joe Meldrum and Clifford Gray were playing on the raft of saw logs near the boat house had the misfortune to fall in the river and but for the timely assistance of two larger boys who happened to be present they would both have been drowned. Joe was pulled out by Web Burns who managed to reach him and get hold of his coat but Clifford was not as fortunate as he had sunk twice before Chas. Drew had reached him and pulled him out. That is a bad place for boys to play and a fatal accident is likely to result if the boys are allowed to congregate there.

NEW PREMIUM LIST.—This office is in receipt of a number of copies of the new premium list of the State Fair for 1893 and will take pleasure in supplying them to our readers as long as they last, or by calling on the president of the society, Captain J. T. Apperson anyone may obtain a copy. They are very neatly and carefully gotten up and give promise of an interesting program for the fair which opens September 11th and continues through the week. The society offers \$15,000.00 in cash premiums for this year.

HURTLING AT THE WORKS.—Last Friday night the watchman discovered that the cofferdam above the pulp mill was giving away and he hastened to give the alarm so that aid might be procured. A force of men was at once summoned and put at work repairing the leak but in spite of their efforts it looked for a while as if they would not be able to prevent the entire dam from giving away but after a time they succeeded in getting the water stopped and no further trouble has been experienced.

CHILDREN'S DAY.—Next Sunday will be observed at the Methodist church in this city as children's day and a special song service has been prepared, the principal parts of which will be sung by the children, these to be interspersed with responsive readings that will prove very interesting and all are cordially invited to be present. Services begin at 11 o'clock.

TO BE ORDAINED.—Rev. J. A. Eckstorm of the Episcopal church will be ordained at Trinity church in Portland next Sunday morning at 11 o'clock at which time special interesting services will be conducted by Bishop Morris. Quite a good many from here are intending to be present to witness the ceremonies.

The Park Place store leads in prices on doors, windows, shingles and all builders material.
