THE MAILS. Mails close going North, 9 a. m.; 3 p. m.; 8 p. m.

FRIDAY, JUNE 23, 1902.

A BAD FALL.—Last Thursday as Lee Harding was helping about the house and was engaged in sweeping off the roots of the porches, he had just finished sweeping one and to save time instead of going around through the rooms to reach the other which was about six feet away he went to jump across when his pants pocket caught upon a hook in the side of the house which holds the starter back and he was thrown down to the ground below where he struck upon his face and left arm on the steps.

COTTONWOOD AND SPRUCE.—The Statesman of Sunday said that some 40,000 feet of cotton and balm wood logs will pass through here today on their way to the Willamette Pulp and Paper mills at Oregon City.

FEMINE DIAMOND RACKERS.—The girls of the Monmouth public school must have been spending their spare minutes with the bat and ball since they engaged in a game of ball with nine boys of that institution last week and beat them.

MAKING GOOD ROADS.—Chas. Noblitt who returned from a trip through the Molalla country the first of the week says that the piece of road being built by G. T. Howard on this side of Wright's bridge on the Molalla road is exceptionally fine and he thinks Mr. Howard entitled to much credit for the excellent work as well as quality of the work and for the large amount.

A PAINFUL ACCIDENT.—The many friends of Geo. H. Himes in this city will be pained to learn that as Mrs. Geo. H. Himes and her 6-year-old daughter, Mildred, were riding in a cart from Sellwood to Portland Saturday evening one of the wheels of the vehicle dropped into an unseen rut with such force as to throw the child to the ground, breaking one of her legs above the knee.

ENGLISH SPARROWS HERE.—A colony of English sparrows have taken up their abode in our midst and any morning now the little "pests" may be seen in goodly numbers upon the streets in front of the postoffice picking up refuse and when disturbed they fly up to the wires above.

STATE OF THE RIVER.—The upper Snake and upper Columbia rivers remain nearly stationary. The lower Columbia and Willamette are falling slightly. From Umatilla to the sea the rivers will fall slightly for the next forty-eight hours, when they will remain stationary with the tendency to rise.

PICNIC AT MAPLE LAKE.—The people of Maple Lake have decided to hold a Fourth of July picnic at the grove near the school house and the committee announce that there is being prepared an excellent program embracing music, recitations, speeches and orations.

MUSICAL ENTERTAINMENT.—There will be a most interesting entertainment at the Congregational church on Friday evening under the management of Mrs. E. E. Williams. The exercises will consist of vocal and instrumental music, recitations, etc., by professional and amateur talent.

FLOWER POTS.—Having closed up a contract with the Milwaukee pottery to sell their goods in Oregon City we offer today a full line of flower pots at prices never seen before in this city.

The Old and Dreadful Way. Weigh out a half-pound or more sugar to every pound of fruit; scald your cans for a time, cook your fruit for hours over a red-hot stove. After all this trouble and labor, scalding of hands and arms, burning your face, breaking fruit cans, etc., you have but half the quantity of fruit, which is mashed and the flavor entirely destroyed by cooking.

THE NEW WAY. Fill the jars with natural fruit, as it comes from the tree or vine; add one Antifermentine tablet dissolved on top of each pint of fruit, etc., until the jars are full, then fill the jars with a syrup made of water and sugar, cover and put away.

Ladies' Tea. Is a pleasant drink, which will be borne by the stomach without nausea or griping. It acts thoroughly on the liver, kidneys and reproductive organs.

TRAVELERS ATTENTION.—The World's Fair and Eastern cities. Save fare to Portland and re-checking of baggage by purchasing your tickets of L. B. Moore, agent, S. P. Co. at depot. Tickets over all roads out of Portland and all Eastern roads.
