Portland, Oregon.

The Monmouth State Normal.

During the past year the State Normal School at Monmouth has reached an enrollment of over 400, the largest in its history. The Professional Course has been strengthened by the addition of the Model Training Department in which students are given practical experience in the application of methods, under the supervision of special instructors. One of the last graduates, a graduate of the Millville, Pa., State Normal, has been added to the department for the next year's work.

In the Academic Course, the work in all departments has been revised and strengthened. The school has a bright prospect for future growth and usefulness.
