All the other specimens that I was in hopes to have to find a process by which I re-frozen in Chicago. The storage plant that was destroyed was under the supervision of Mr. Pierce and a friend named Donaldson. When they said it was a remarkable work in freezing and they were had no tanks in which they were in the same size cake. I find nobody who could do the well, so concluded to exhibit it and it lasted three days. The of the East gave it very notices. It was only a few they served it up at lunch the superintendency of the chief, an account of which see in the Oregonian today. in splendid shape and you will have a detailed account of it. you very much for making magnificent exhibit out of a specimen of salmon. It was the largest salmon ever caught Columbia river, and I believe no such a specimen ever the world. With kind regards

Yours respectfully,

HEAD.—SPEAR HEAD possesses more qualities of intrinsic value than any other plug tobacco produced. It is the sweetest, the toughest, the richest. SPEAR HEAD is absolutely, positively and distinctively different in flavor from any other plug tobacco. A trial will convince the most skeptical of this fact. It is the largest seller of any similar shape and style on earth, which proves that it has caught the popular taste and pleased the people. Try it, and participate in the contest for prizes. See that a **TIN TAG** is on every 10 cent piece of SPEAR HEAD you buy. Send in the tags, no matter how small the quantity. Very sincerely,
THE P. J. SORE COMPANY, MINNEAPOLIS, MINN.

A list of the people obtaining these prizes in this county will be published in this paper immediately after February 1st, 1894.
