Institute Points.

The enrollment at the close of institute numbered 97. This is the greatest number ever in attendance. The teachers have all been interested and many have taken a very active part in the exercises. Miss Porter who has visited the World's Fair gave the teachers a description of the educational display from the different states.

Superintendent Gibson conducted the class in mental arithmetic each day, selecting the most difficult problems and giving excellent analysis of them. Prof. Strange's lecture on the subject "Teacher and his Profession" which he delivered to the teachers at Shively's hall last Friday evening was enjoyed by all who heard it. He said "Every teacher owes something to his profession; every profession owes something to the public and the public owes something to every profession."

The band furnished excellent music and all went on as merrily as the marriage bell. A good time was had by all especially by those who dished out the ice cream. One interesting feature of the social was Mr. A. Cole's phonograph. Just drop a nickel into his hand and you were almost borne away by the enchanting sounds.

In the games that were played it was surprising to see how spry our professors and other teachers became.

At 3:10 the band played its last selection for the evening and the company dispersed with good feelings on all sides.
