Commercial travelers are proverbially good feeders and if a good square meal is to be obtained in a city they know where to go for it, and all you have to do when alighting from a train is to follow their lead and you will find good beds and tables. It is well known all along the road that since W. C. Faulkner assumed control of the Livermore hotel restaurant it is the only place in the city to go for first class meals, and that is why all commercial travelers stop there.
