If you desire a luxuriant growth of healthy hair of natural color, nature's crowning ornament of both sexes, use only Hall's Vegetable Sicilian Hair Renewer.

Wheat, oats, hay, potatoes, butter and eggs wanted at the Park Place store at the highest market price. We give in return the best goods for the least money. Our prices cannot be duplicated in the county.

Sufferers from dyspepsia have only themselves to blame if they fail to test the wonderful curative qualities of Ayer's Sarsaparilla. In purifying the blood, this medicine strengthens every organ of the body and even the most abused stomach is soon restored to healthy action.

The mass meeting held on Saturday night at Shireley's hall was attended by about 200 who after listening to several speeches appointed a committee to wait upon the city council and upon the contractors for the street work and see what could be done towards having only Oregon City labor employed upon the public works.

Our mention of blackberries in last week's paper has set several parties to measure their vines and the result is something of a surprise as it shows that the soil and climate are wonderfully adapted to the raising of this fruit. The first to report was A. W. France who has a vine 22 feet and over in length with lateral branches over 10 feet long. W. E. Hart measured a vine growing on his place at Green Point which has grown just 24 feet and 2 inches during the season just closing. And these vines are not sky creepers either. Who is next?

Mrs. Mary Clement Leayitt who enjoys the distinction of being the first woman to visit all foreign countries unattended, and who has spent eight years in pioneer missionary work, will speak in the M. E. church next Monday evening. Those who listened to the account of Miss Ackerman's journeys will enjoy the opportunity of hearing this celebrated lecturer describe her experiences in out-of-the-way places, where many thrilling incidents show her to be an intrepid traveler and courageous under severe trials. Admission free.

Last Saturday Colonel Robert A. Miller went to Salem to "see his friends," but the Tuesday dispatches from the Capital city explain more fully the nature of the visit. According to these: Colonel Robert A. Miller, register of the Oregon City land office, and Mrs. Sarella G. Grubbs, late superintendent of the Salem schools, were married this morning at the home of the bride's parents at Walgo hills. Tuesday Mr. Miller and bride came to this city where they will make their home. Notwithstanding the recent coming of Mr. Miller to this city he has made many friends who take pleasure in wishing him much happiness and both he and his wife will meet a cordial welcome at the hands of our people.

HORTICULTURAL ASSOCIATION

Canby Meeting on Tuesday Well Attended—Interesting Discussions.

The meeting of the Clackamas County Horticultural Association was held in Canby last Tuesday and was well attended principally by the local growers who manifested much interest in the meeting and the discussions. The meeting was called to order by the president Dr. Joseph Casto and in the absence of the secretary Millard J. Lee was chosen secretary pro tem. The morning hours were devoted almost exclusively to a discussion of the manner of planting and pruning trees an interesting feature of which was an illustration of the method employed by Mr. Mathews who had a tree in the room. The sentiment favored careful planting in large holes with the roots well spread out and the dirt firmly packed about them. In relation to pruning it was favorable to low cutting at the time of planting the height varying from eighteen inches to three feet. It was generally endorsed that nursery men might make the fruiting one year earlier by cutting the tree back in the nursery instead of trimming it in such a way as to make it grow tall all of which growth has to be cut back by the planter in order to get a low shapely tree.

LIST OF DESIRABLE FRUIT TO GROW.

One of the most important transactions of the afternoon was the selection by the association of a list of such varieties of fruits as are adapted to the soil and climate of this county. This action was taken, in answer to a query as to the best varieties of fruit for a farmer to grow for home use and at the same time be salable so that the surplus can be marketed. The following is the list as adopted:

- APPLES.**
 Early—Early Harvest and Red Astrachan.
 Fall—Gravenstine, King of Tompkins County and Waxen.
 Winter—Baldwin, Ben Davis, Lady Apple, one tree.
- CRAB APPLES.**
 Siberian and Transcendent.
- PEARS.**
 Early—Madeline and Bartlett.
 Fall—Beurre d'Anjou and Fall Butter.
 Winter—Winter Nellie.
- CHERRIES.**
 Early Purple Guigne, Royal Ann, Late Duke.
- PLUMS.**
 Peach Plum and Damson.
- PRUNES.**
 Italian and Petit.
- PEACHES.**
 Early Crawford and Alexander.
- QUINCE.**
 Orange.
- CERRANTS.**
 Fay's Prolific and Cherry.
- GOOSEBERRY.**
 Champion.
- BLACKBERRY.**
 Evergreen and Lawton.
- RASPBERRY.**
 Oregon, Red Netwerp and Doolittle Blackcap.
- STRAWBERRIES.**
 Wilson and Clarke's Seedling.
- GRAPE.**
 Black July, Concord and Delaware.

The society voted to hold the next meeting in Canby on the first Saturday in November and appointed as a special committee to provide for that meeting the following: Wm. Knight, D. W. Howard, M. J. Lee, Mrs. G. W. Hoyt and Mrs. L. Rogers. This committee is to prepare a program for the meeting and entertainment for all in attendance and it is the intention of the good people of Canby to make the meeting specially attractive and to this end they will spare no pains. It was deemed a good plan to invite all who come to bring of their fruits so to make the meeting a sort of harvest home gathering.

The secretary was instructed to send a list of the names of the members to the State Agricultural College at Corvallis to that their names might be entered upon the list for receiving the experiment station bulletins.

SOME NOTES OF INTEREST.

S. J. Garrison brought to the meeting from his orchard a black caterpillar with yellow spots along the back which had stripped his plum trees of all foliage. As no one could tell its name or knew

anything about it a specimen was sent to Prof. Washburn at the state experiment station.

J. C. Walgamott brought in some fine samples of melons from his patch which the members lost no time in discussing to their entire satisfaction when the meeting adjourned.

It was decided to incorporate a question in the program at the next meeting and all who attend are specially invited to be loaded with practical questions to fire into the box.

The society tendered Wm. Knight a vote of thanks for the use of his pleasant hall for the meeting.

M. J. Lee exhibited pears from a tree two year's old tree from the graft that had produced forty-seven pears this season. This pear is a seedling originated on the farm of Mr. H. A. Lee some years ago, is very hardy, free from insect attacks and extra prolific. Fruit similar to Bartlett but smaller and ten days earlier. Considered by those acquainted with it a pear of great promise.

Mr. Lee also a model of fruit dryer built on the plan of Ferris wheel at the world's fair. The wheel being inclosed to retain the heat and is revolved to give an even temperature to the fruit. This dryer is now in use by several fruit growers of The Dalles and is found to give a very uniform grade to the fruit and to dry rapidly.

G. Whipple exhibited Italian and Hungarian prunes and Green Gage plums that were most perfect specimens of those fruits.

Wm. Knight had an exhibition of Early Crawford peaches whose perfection were conclusive proof that Oregon can raise the best of peaches.

Among the exhibit was some apples from Dr. Casto's orchard whose name the Doctor was unable to give. After a careful examination by all present none were able to give the name, if they were a budded fruit, but decided that it was an apple of extra good quality. Dr. Casto stated the apples were from an old tree in his orchard, and was one of the best bearers and healthiest trees grown by him. The apple resembled the King of Tompkins county in quality, but different in size and color, being round and flat, of green color with yellow cheek.

Geo. Knight had some Italian prunes on exhibition that were as near perfect as can be grown.

G. W. Hoyt brought a limb from a two-year-old Italian prune tree that was loaded with a weight of fruit never seen by Eastern growers.

S. Mathew had a limb from a tree in his petit prune orchard that showed by its enormous load of fruit the wonderful productiveness of that prune.

To show the variety of the productions of Canby prairie D. W. Howard exhibited a number of tomatoes that were of unusual size and perfection. In addition to conducting one of the largest fruit farms on the prairie, Mr. Howard has been giving his attention to the raising of tomatoes and is making a success of it as the sandy soil of his land is especially adapted to their growth. This year he has about three acres in tomatoes and has the entire crop contracted for in Portland at a price that will bring him as much per acre as the best of his other crops.

J. C. Walgamott had a lot of very fine prunes of the leading varieties on exhibit. He also had a prune tree of this year's growth from the graft that was over ten feet in height.

In Glass.

That's the way Dr. Pierce's Pleasant Pellets come. And it's a more important point than you think. It keeps them always fresh and reliable, unlike the ordinary pills in cheap wooden or pasteboard boxes.

There put up in a better way, and they act in a better way, than the huge, old-fashioned pills. No griping, no violence, no reaction afterwards that sometimes leaves you worse off than before. In that way, they cure permanently. Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach and bowels, are prevented, relieved and cured.

They're tiny, sugar-coated granules, a compound of refined and concentrated vegetable extracts—the smallest in size the easiest to take, and the cheapest pill you can buy, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get.

There's nothing likely to be "just as good."

Board of Trade.

Last Monday evening was the regular meeting night of the Oregon City Board of Trade which met with the president, Geo. C. Brownell in the chair. There was a good attendance and after the usual routine business the board listened to Messrs. H. W. Grady, the present United States marshal, and John S. Matthews who have a header which has been patented by Mr. Matthews which possesses several improvements over the machines now made, the principal ones being that the cutting bar and platform are always level and the sickle instead of being run by a pitman consists of knives attached to a series of rotating discs which travel in the same direction all the time thus doing away entirely with the loss of motion and power caused by the stroke of the pitman.

Their object was to interest capital to start and operate a factory for the manufacture of the machines; they wished to start with \$20,000 capital stock. The matter was discussed at length and was then referred to the committee on manufactures.

The bill of J. M. Lawrence for preparing pamphlet for the use of the board was referred to the committee on finance. This matter brought up the question of a descriptive pamphlet and the advertising committee stated that they were at work upon one which would probably be out by the first of November.

Bills of the Enterprise and Courier were approved and ordered paid.

Married.

BISSELL-SHANK—At the residence of Mr. Alfred Bissell, Canby, Sept. 6, 1893, Elder A. C. McKeever of the First Christian church of Portland officiating, Mr. Weldon M. Shank and Miss Nellie Bissell in the presence of many relatives and friends.

The contracting parties were remembered by their many friends with numerous and elegant presents. After a few hours of social enjoyment the guests retired, leaving with the young couple many earnest wishes for their future happiness.

The bride was handsomely dressed in cream silk with orange blossoms which made a very beautiful appearance. Both parties are favorably and widely known throughout the county, Miss Bissell being one of Clackamas county's most successful teachers and a cousin of Wm. Bissell, postmaster general under the present administration. Mr. Shank is a son of G. W. Shank, one of the prominent valley farmers and fruit growers of Oregon, and is a great favorite in political and society work. At present he is filling the office of grand secretary of the Independent order of Good Templars of Oregon the second term.

The young couple repaired immediately to their farm at Riverside which had previously been prepared for their reception.

A Basket Social.

The young people of the West Side Sunday School will give a basket social at the chapel Friday September 15th. Each young lady brings a basket with a lunch for two in it. The young men buy baskets at auction and eat with the girl whose name is on the basket. All are invited to come to one of the most enjoyable socials that ever was invented. Remember the place, West Side chapel at 8 o'clock sharp. The young people of the west side know just how to make a social a success and don't forget it. If you don't think so come and see.

Grand Ball.

Will be given in Eyan's hall at Canby on the 29th of September. Music will be furnished by A. Marr's orchestra. Supper at Knight's hotel, tickets \$1.50. Floor managers, H. Evans, P. Howard and J. Nolin.

Oysters, Oysters, Oysters.

Fresh oysters received daily at the Portland Restaurant. Families supplied by the gallon, quart or pint on short notice.

Wedding stationery, the latest styles and finest assortment ever brought to Oregon City at the ENTERPRISE office.

E. E. WILLIAMS,
 GROCER,
 OREGON CITY,
 Masonic Building.

Leaves foot of Alder street, Portland.
 Leaves Portland daily, except Sunday, 7 A. M.
 Leaves Astoria daily, except Saturday, 7 P. M.

Direct connection daily at Youngs bay with Seashore R. R. for all points on Clatsop Beach. Tug Ilwaco from Ilwaco connects at Astoria with Telephone every night for Portland. Tickets of Telephone, Ocean Wave, Lurline and tug Ilwaco interchangeable.

Thrashing Machine Owners

Will find it to their interest to get one of those books which the ENTERPRISE is now putting up especially for thrashers. In it you can keep an exact record with the least amount of work. No other book required. Everything kept in the smallest possible space. Send a postal card for a sample page or order a book of 100 pages for \$1.75. Now is the time you want it.

Does your wife know that the best graham flour obtainable comes from C. T. Howard's mill at Mulino? The reason for this is that he makes this branch of his work a specialty and as he uses the old-fashioned stones for grinding it he can give you better flour than the other mills. If you enjoy gems or graham mush try that made by Howard once and you will use no other.

Elizabeth, Pa., Aug. 22, 1891.
 NORMAN LUCHTY, Des Moines, Iowa.
 We have a good sale for Krause's Capsules and those who have tried them use them again. Respectfully, &c.,
 CHAR. H. SHAFER.
