Many of the smaller boys of the city and those frequenting Main street are in the habit of placing themselves in front of the approaching electric cars and waiting on the track just as long as they think that they safely can and escape without getting caught by the car. This practice is almost certain to lead to an accident sooner or later as sometimes one of them is likely to tumble, then before the motorman can possibly stop the car there will be an injured or killed boy. Parents and city authorities should discourage and stop this practice before an accident occurs.

In organizing the school for the current year under the altered conditions of the district it has been necessary to make a number of changes. If all of the pupils could have been enrolled on the first day the superintendent and directors would have experienced but little trouble in arranging the school at the outset, but pupils have been coming in since the first day and these have made changed conditions which could not be foreseen, to meet which it has been necessary to cut and try, but the classes seem now to be arranged in such a manner as to accommodate the pupils without going to the expense of about \$700 in fitting up a room and maintaining an additional teacher. The trouble was with the fifth grade which was crowded to overflowing. The class first transferred by the board was too small to relieve the pressure and the board unanimously decided to put B class back in the fifth room and take out the A class or such portion of it as should be necessary to afford relief to the fifth room. The pupils are taking the regular work and the fact of their transfer makes no difference in their studies or in their advancement in grade work. This action on the part of the board must meet with the general approval of all parents in these hard times as it saves several hundred dollars to the district.

J. R. Nelson, who was known throughout this county as the veteran school teacher, died last Friday at St. Vincent's hospital of cancer of the mouth. He had been sick for some time and had an operation performed which seemed at first to promise relief, but the disease made rapid progress at the last and he died much sooner than was generally expected. The funeral occurred from the Odd Fellows' hall in this city under the auspices that order of which he was a member.

R. L. Holman has been in Portland a good part of the week attending the annual meeting of the funeral directors of Oregon and Washington. One feature of the meeting was special instruction in the art of embalming given by an eminent embalmer of the East. Mr. Holman was chosen one of the board of directors at the election on Wednesday.

As he passed through the room soon after he noticed that there remained but two. He says that this is the first time that he ever knowingly lost any of his stock.

The locomotive was up on the electric road on Thursday gathering up the old timbers taken out of the trestle below Fourteenth street.

From J. B. Taylor of Marquam we learn of the burning of F. M. Terman's barn last week. He was away from home at the time threshing so had the team out but the barn and all the contents including ten tons of hay and grain for the winter were burned. Mrs. Terman had been away from home and was just returning when her little boy discovered the fire apparently soon after it was started at the side of the barn, but before help could be summoned it had gotten under such headway that it could not be checked and as there was no insurance the loss was total. Mr. Terman's neighbors kindly rallied to his assistance contributing lumber, work and feed so that he now has a new barn nearly completed and grain and feed to do him pretty well for the winter.

Farm Wanted.

Wanted, a farm to rent, good references given. Address giving number of acres, conditions etc. to B. Herr, Sunnyside, Oregon.

On the 13th of the month there was a gathering at Milwaukie at which among other refreshments it was the intention to serve ice cream, but owing to unavoidable causes the parties present had to do without this part of the program, for when J. C. Hungerford and T. R. A. Sellwood went to get the freezer of cream they found it had disappeared. The sequel to this occurred on Wednesday when Constable E. T. Fields went down to Milwaukie and arrested Rudolph and Albert Henneiman for complicity in the crime of taking the cream. They were brought before Judge Fouts who placed them under \$25 bonds to appear Monday for examination. The bonds being forthcoming the young men were released.

The firm of Barin, Ward & Gregg opened up law offices in the Charman block the first of the week and are prepared to give special attention to cases before the land office. As Mr. Barin was register for eight years and has since had practice in that line, and all members of the firm are stirring men who stand well in the profession, the firm will doubtless command a good practice from the start. They will also maintain offices in the Chamber of Commerce building in Portland.

The work of clearing up at the site of the power station after the high water of the past two weeks has begun and if the fine weather of the present continues for a few days longer they will be able to start the pumps by the last of the week and these now have capacity enough to empty the pit in a hurry and can keep the water down while the excavation is made and the wall placed.

Kenworthy & Gunn are the proprietors of the new restaurant which is being fitted up in neat style opposite the Electric hotel. They are from Salem and have the reputation of knowing how to set a good table and to keep a neat place.

Among the improvement in progress about town may be noted the new piazza which H. J. Harding is having built on the east and north sides of his house which will add greatly to its appearance.

Have you noticed that the sidewalks are not wide enough to hold J. K. Morris since Sunday? An eight pound boy, the first born came to his house on that day and that accounts for his proud feelings.
