Treasurer, F. J. Louis
City Attorney, H. E. Cross
Street Commissioner, C. Hoberg

City Engineer, Sidney Smyth
Councilmen—C. O. Albright, Jr., R. L. Kelly, C. N. Greenman, W. A. White, J. J. Cooke, J. W. O'Connell, J. G. Porter and T. P. Randall.

Council meets first Wednesday of each month in city hall.

The way to build up Oregon City is to give Oregon City people your patronage.

SPRAY OF THE FALLS.

Prices the lowest—The Red Front.

See at the head of the local column the conditions by which you can get the Enterprise at a reduced rate.

If you want an attractive sign see Davis the painter. Portland prices. Shop back of Pope & Co.'s hardware store.

A new shop, a new striped sign and a clean shave by a first-class barber is what you will get at Parker's, Main and Seventh streets.

Mothers and nurses all over the world have given their teething babies and feverish children Stegman's Soothing Powders. Try them.

Seven thousand dollars worth of good income city property to trade for good farm property near this city. E. P. ELLIOTT, Oregon City.

The Enterprise admitted by all to be the leading paper of Clackamas county and at the reduced price, \$1.50 per year, is the cheapest paper in the county.

The weather on Thursday was disagreeable in the extreme for Oregonians, the atmosphere was raw in the extreme and very occasionally damp furies of snow would come down making it nasty under foot and very unpleasant to be out or get about.

To preserve a youthful appearance as long as possible, it is indispensable that the hair should retain its natural color and fullness. There is no preparation so effective as Ayer's Hair Vigor. It prevents baldness, and keeps the scalp clean, cool, and healthy.

Miss Annie Merrill received word Sunday morning to the effect that her father was lying very sick near Ranier and demanding her immediate presence. She accordingly made hasty arrangements and left the same afternoon for Goble over the Northern Pacific intending to take advantage of the first opportunity that offered to reach his bedside.

There will be a special meeting of the city council on Friday evening this week. The tax levy of 1893 and the salary of the city recorder and chief of police will come up for consideration, as will also the mayor's appointment of Chas. Noblitt, chief of police. The removal of Capt. John Kelly upon the asserted authority of the council is expected to furnish some interesting episodes.

At the annual meeting of the stockholders of the Bank of Oregon City on Monday evening Major Thos. Charman, G. A. Harding and N. O. Walden were elected directors for the ensuing year. This is the same board as served last year. The annual election of officers of the board has not yet been held but from the fact that the board is not changed from last year there will probably be no change in the management.

The prize fight which was booked for Friday night failed to materialize as there were too few sports in this community to bite at a fake. Some of the parties who let the fighters run bills to be presented and paid at the door probably have their bills yet and might be persuaded to part with them at quite a discount. Oregon City has no use for fake prize fighters.

The executive committee of the Sunday school association of Clackamas county met in this city at 2 p. m. on the 15th at the home of Vice-President Mrs. Brownell. President George Randall of Central Point presided and an excellent program was prepared for the next meeting of the association which takes place at Canby on Wednesday and Thursday, the 21st and 22nd of February. E. M. DONALDSON, Sec.

Work has commenced on the new pump which the water commissioners are having put in as the old pump will not begin to supply the demands for water in the summer season and is besides unsafe being liable to break at time of fire when most needed. The new pump was built by the Union Iron Works and they are under bonds guaranteeing it to stand under 300 pounds pressure. In building the pump the company feared that the specifications would not give a pump to stand the strain to which it would be put so they strengthened it in its several parts, the additions requiring four additional tons of iron. When the pump is set the builders will run it for thirty days at their own expense both to show that it is all right and to have every part in perfect working order before turning it over to the city.

A PROTRACTED STORM.

Widespread in Area—Clackamas County Not Damaged.

The storm of the past week has been almost universal along the Pacific coast, many parts of which have suffered serious loss from its effects. Telegraphic reports show that it has extended from British Columbia to southern California and as far east as the Rocky Mountains. In nearly all localities it has been a rain rather than a snow storm, and streams swollen to overflowing banks have been general, the reports indicating higher water than has been experienced before for years.

Locally the storm has been a lengthy and disagreeable one, the weather being a good part of the time quite raw and cold as though snow were in the mountains roundabout. With clear weather we shall probably see the higher mountains covered with snow.

While many localities report damage by flood there seems to have been but little to complain of here aside from the disagreeableness of the storm, for no damage aside from a few culverts and small bridges has been reported. The water in this section was as high as at the time of the storm in December.

Wednesday the water reached its highest stage at Oregon City and did not vary much from the stage of last month. The track of the Southern Pacific north of town was under water to the depth of about 40 inches and trains failed to come through on Monday and Tuesday but on Wednesday morning all mail and delayed passengers came through in two sections. The wheels at the electric station lacked sufficient head to furnish power and both light for Oregon City and Portland were scant while the electric line had to abandon electricity as a motive power on Wednesday evening and attach an engine to the cars. The up-river boats were all obliged to tie up as the locks were closed and at times there was considerable drift running.

The mills found on Wednesday morning that there was too much water for them to run so they had to shut down which gave the men a forced rest. On Wednesday night the water fell a little and as the weather turned colder with snow in sight on all the hills back of town it is almost certain that the backbone of the storm is broken so far as high water is concerned.

MINOR NOTES OF INTEREST.

Persons living at Clackamas Heights whose business required them to be in town were considerably put out by the water on the flats as they had to arrange to be ferried over. The residents of Kansas city had either to go around by the public school or take to boats across the flat.

C. G. Albright was shut off from his slaughter house by nearly half a mile of water and had to take a skiff down to pass to and fro and to bring his meats across.

The sidewalk leading to Canemah was afloat for perhaps 200 feet just beyond the Imperial mill.

George Broughton was anxious about his logs which are boomed on the east side of Rock Island and guarded them very closely but fortunately they were well boomed and none of them escaped.

The Discount Social.

The social to which reference was made last week is now an assured fact and will be given on the 25th of this month by the Presbyterian Y. P. S. C. E. in Stively's hall. Later announcements will tell you more about it—the rate of discount, some of the features, etc.

Several gentlemen were standing at the corner of Seventh and Main streets when one of them saw a purse lying near on the cross walk and went to pick it up. It proved to be empty which caused the bystanders to laugh and some parties approaching called their attention to another empty purse lying near. So abundant a supply of empty purses caused considerable comment and it was finally concluded that the owners finding no use for them in these times had deliberately thrown them away.

The luxury of a bath in a fine bath tub full of hot water is denied to many on account of lack of room for a tub, and the cost of putting one in together with boiler and pipes. This has been entirely overcome by the folding bath tub and heater which Messrs. Groom & Elliott are showing at the postoffice. It possesses all the advantages of the old fashioned bath tub, can be set up in a bedroom and requires very little space. Besides this it is cheap. Call and see it.

Tax Levy Made.

On Monday of this week the county court was in session, the business before them being the making of the tax levy for 1893. As the court could not get the figures from the state board of equalization and it was not known what the state levy would be they had to estimate some of the items. The levy is 21 mills made up as follows: state, estimated 5 mills, county school 5 mills, county road 2 mills, county for general purposes 9 mills.

As soon as the figures are received from the state board of equalization showing the changes that have been made County Clerk Horton will employ sufficient help to keep a force at work on the books day and night figuring out the changes ordered by the board, then as soon as the school districts have reported their levies the total tax will be carried out. It is hoped that the sheriff can begin collecting taxes early in March but it will most likely be the middle of the month or later before the books can be got ready.

Company F. Orders.

The following promotions are hereby ordered, warrants to date from issuance of this order: 3rd Corp. Williams to be 2nd Corp., vice Rhodes resigned. 4th Corp. Hickman to be 3rd Corp., vice Williams promoted. Private H. A. Rands to be 4th Corp., vice Hickman promoted. They will be obeyed and respected accordingly. Sergeant Scott, and Corporals Metzner, Williams, Hickman and Rands will report to Lieutenants Kelly and Pickens at the Armory Monday evening, January 25th, at 8 o'clock, for examination to determine qualifications for being warranted. The examination will be conducted orally, and include a knowledge of the tactics as specified in Regimental Orders No. 207.

Hazalia Hits.

HAZALIA, Jan. 16.—The rain and mud has made "stay at homes" of everybody except when called away on urgent business.

The storm of today is the worst of the season. The snow is here now and the old and young are having a good time snowballing.

There is still much sickness in the neighborhood. Mr. Ford is convalescent.

Mr. and Mrs. G. Ackerson of Tecumseh Neb., are visiting their daughter Mrs. C. C. Barland. Mrs. Ackerson had the misfortune to slip and fall two days ago and badly injure her arm. They are quite old people to take so long a journey in the winter time. They think these rains far better than Nebraska blizzards.

Master J. Dennis received a letter from his sister who has been visiting at Monmouth saying she was married on the 4th inst to James Hampton. Mrs. Hampton has lived in the family of L. D. Eaton since a small child and was a great favorite. Her husband is a brother of Mrs. L. D. Eaton. We wish them a long life of happiness.

Mr. Leocy says the traveling facilities are both cheap and good from Hazalia to Portland if one has rubber boots and can walk the trestle to Elk Rock. He speaks from experience.

The rain on Saturday prevented many of the strangers from attending their meeting, yet enough plucky ones were there to form a quorum and Mr. Miller of Portland installed the officer for this year.

The Hazalia literary society failed to have a meeting owing to the severe weather.

The reappointment of Hon. G. W. Prosser as "road boss" gives general satisfaction here.

The Troy Steam Laundry

Canada Taking a Hand.

VICTORIA, B. C., Jan. 17.—The steamer Warrimoo, which sailed for Honolulu this evening, bore to the Hawaiian capital letters which are deemed to be too important for transmission through the mails, and which have been entrusted to the care of an uncommunicative passenger. They are addressed to Theophilus Davies, and contain summarized information of what has already been accomplished by his agents in the Dominion of Canada, in the direction of placing at Queen Liliuokalani's command a picked body guard of fine soldiers. For some days past rumors have been afloat that a company of volunteers was being secretly organized in Vancouver for the purpose of aiding the ex-queen with rifles and swords to regain her throne. Then came the announcement that although they were ready to enlist, the scheme had been abandoned owing to the failure of the principals to provide the "sinews of war." As a matter of fact, the latter step has never for a moment been contemplated, nor has the project by any means come to naught. In proof of this letters were shown to the correspondent here which indicate it is maturing in a manner satisfactory to the royalist hopes. The commissioned recruiting officer named by Davies is a well-known business man of Vancouver, W. H. Sanson. This man's instructions from Davies were to enlist 200 first-class men to protect the queen and royalist interests, and to be employed as Liliuokalani may direct. Of these 180 have been enrolled and are held ready to proceed to Hawaii. Letters containing Davies' instructions are looked for in the mail brought to San Francisco by the Australia. As these have not arrived it is feared that they have fallen into the hands of the provisional government, hence the dispatch of an agent on the Warrimoo.

A Little Girl's Experience in a Lighthouse

Mr. and Mrs. Loren Trescott are keepers of the Gov. Lighthouse at Sand Beach, Mich., and are blessed with a daughter four years old. Last April she was taken down with measles, followed with a dreadful cough and turning into a fever. Doctors at home and Detroit treated her, but in vain, she grew worse rapidly, until she was a mere "handful of bones." Then she tried Dr. King's New Discovery and after the use of two and a half bottles, was completely cured. They say Dr. King's New Discovery is worth its weight in gold, yet you may get a trial bottle free at Geo. A. Harding's Drugstore.
