Mill and Yard on the River, Foot of Main Street,
OREGON CITY, OR.

DOLE SCORES ONE.

In his Communications With Willis he Draws Blood.

THE PRESIDENT ON HIS DIGNITY.

The Knights of Labor Will Enjoin the Bond Issue—The Pope in Danger.

WASHINGTON, Jan. 20.—The president in a brief note of transmittal, today submitted to congress the latest correspondence relating to Hawaii. It comprises some brief notes of Minister Willis to Secretary Gresham, which are unimportant, but the chief feature of it are the letters passing between Minister Willis and President Dole, in one of which the minister complains of the utterance of Dole as reflecting on the president of the United States, and a letter from Dole in which he specially inquires if Willis' instructions authorized the use of force.

In the president's message transmitting to the house the Hawaiian correspondence which accompanied the same he spoke of including a most extraordinary letter dated December 27, 1893, and signed by Sanford B. Dole, minister of foreign affairs for the provisional government, addressed to our minister, Willis, after the arrival of my message at Honolulu, with copies of the instructions given our minister.

Under date of Dec. 27th, Willis wrote to Dole: "Your communication would have received an immediate answer except for the statement reflecting upon the president of the United States and his diplomatic agent in this country, which, in view of its gravity, should, I respectfully submit, be set forth with more particularity and certainty."

Under the date of December 29th, Dole writes to Willis as follows: "I desire to state that the arrival of newspaper copies by late mail, since my note to you, and the special message of the president of the United States to congress on the Hawaiian matter has rendered any further correspondence on the subject of my letter unnecessary, as the message satisfactorily answers my questions as to the future action of the American administration towards the government, the whole Hawaiian matter having been referred to congress by the president. If, however, you still desire the specifications requested, I will be ready to furnish them."

Under date of December 29th Willis writes to Dole: "Am I to understand that your communication of the latter date is withdrawn? If this is your intention, as I hope it is, I would, for the best interests of all, suggest that the whole correspondence on the subject be withdrawn, with the understanding that the original letters be returned to their authors and that no copies be given to the public or made of record by either government."

Without signature, Dole writes to Willis, that it is not his intention to withdraw any letters.

The correspondence ends here with the matter apparently brought up to the point of Dole's reply offering to furnish the specifications if desired.

COMMENTS OF CONGRESSMEN.

The Hawaiian correspondence, after being read once, displaced all other questions, in the way of comment among public men at the capitol. The republican leaders regarded the position of President Dole as impregnable, and they were stirred to jest and humor at the expense of Minister Willis. The democratic leaders of the house admitted the correspondence did not add any cheering information to that already before them. They freely complimented Willis for the diplomacy with which he had dwelt with the questions and situations.

Bonds and the K. of L.

DES MOINES, Ia., Jan. 20.—Grand Master Workman Sovereign today furnished the press with the following statement as to the basis of his suit to restrain Secretary Carlisle from issuing bonds:

"If the secretary of the treasury is compelled by law to keep in the national treasury \$100,000,000 in gold he violated the law when he reduced the amount below the required sum, and should be impeached. If he is not required to maintain \$100,000,000 gold reserve, or any specific sum, his offer to sell \$50,000,000 bonds, under the act of January 18, 1875, is without authority and in violation of the law. If he has the authority to sell the bonds for the purpose of keeping intact the \$100,000,000 gold reserve his proposition to sell bonds far in excess of the deficit in the reserve fund is still without the authority of law and in violation of his oath of office."

May Have to Leave Rome.

ROME, Jan. 20.—There is a persistent rumor today to the effect that the pope has sent a diplomatic note to all the

papal nuncios for communication to the European governments, to which they are accredited, on the perils of the situation in Rome, and the possible necessity which may arise for his holiness to leave that city. It is further stated that there exists a secret understanding between the Holy See and Spain, by which the latter government has agreed to provide an asylum for the pope in case of need.

The Case of Stagge.

WASHINGTON, Jan. 20.—Controller Eckels has not yet decided what he will do in the case of Receiver Stagge, of the Oregon National bank, but the probabilities are that he will be retained in his present position. Hundreds of letters from persons in Oregon and Spokane and other portions of Washington have been received by the controller, urging that Stagge be retained. People in the West, who knew senators and representatives, have written them here and these letters have been handed to the controller. The first letter which Eckels received from Stagge was not what he expected, but there is another expected by Monday, which gives the career of Stagge. If Stagge is retained it is the purpose of the controller to give out a history of the whole affair, in order that he may be justified before the country. He has already talked the matter over with the president and will do so again soon as he has Stagge's history to show him. Business men and lawyers have been conspicuous in urging that Stagge be retained. The report of Examiner Eldridge will largely guide Eckels in his action.

The Behring Sea Patrol Fleet.

VALLEJO, Cal., Jan. 20.—Naval advices received at the Mare island navy yard today state that the United States ship Marion, now on the Asiatic station, has been ordered to proceed to San Francisco immediately and prepare for a season's cruise in the Behring sea. The same advices also state that the United States cruisers Charleston, Detroit and Yorktown have been assigned to the Pacific squadron. The vessels, with the ships Adams, Alert, Mohican, Marion, Bear, Rush, Grant, Albatross and Columbia, will form the Behring sea patrol fleet, commanded by either Captain Baker or Captain Coffin, with the cruiser Philadelphia or Charleston as the flagship, provided the Olympia is not put in commission before that date, in which event she would become the flagship and her captain detailed as senior fleet officer.

Begged for Death.

SAN DIEGO, Cal., Jan. 20.—Miss Ruth Sibly, aged about 24 years, attempted to commit suicide this evening by jumping off the steamship wharf, and a board was quickly thrown to the girl, but she refused to touch it. A sailor of the United States steamship Albatross and another man got a boat and reached the girl before she sank. She begged them to let her drown, and they were compelled to use force in getting her ashore. The chief of police was notified, and took the girl home in a hack. She told him she was forced to the act for the lack of work. She could not accept charity, she said while able to work. She is a seamstress, but has been out of employment for some time, and lately has tried to make a living by making ornaments of all kinds from sea kelp.

Another Supreme Judge Nominated.

WASHINGTON, Jan. 22.—The president today sent to the senate the nomination of Wheeler H. Peckham, of New York, to be associate justice of the supreme court of the United States. The nomination sent Senator Hill hurrying about the floor of the senate in a lively style. He was quickly in consultation with the members of the judiciary committee, who will pass upon the nomination before it is reported to the senate. The senators, generally, thought, Judge Peckham, of the court appeals of New York, was the man, but Hill explained that such was not the case, that the present nominee was his brother. The indications are strong that the nomination will be opposed upon the same grounds that that of Hornblower was.

Mid-Winter Fair Opening Saturday.

SAN FRANCISCO, Jan. 23.—Arrangements for the grand procession and ceremonies, which are to take place Saturday next, are now nearly completed. General Dickinson will be grand marshal of the parade, and James D. Phelan president of the day. There is every reason to believe the procession will be the largest ever seen here. In the French section of the manufactures building there will be a great display of bronzes, some of which will be exceedingly rare. Among them will be the celebrated vase "La Vigne" which was originally intended for a monumental fountain. It weighs 6000 pounds, measures 13 feet in height, 7 feet in width, and cost \$20,000.

New They Won't Adjourn.

DENVER, Jan. 22.—The legislative conference committee reported this evening unanimously in favor of adjournment after the passage of bills for the construction of a state canal and any other works that will give employment to the unemployed. The report of the conference committee was adopted by the senate but rejected by the house.

THE INCOME TAX.

Some Provisions by Which Big Salaries are to Pay Revenue.

HEAVY SNOW IN CALIFORNIA.

Sword Swallower Sacrificed—Seal Sailing Ships Selected—Wanted to Die.

WASHINGTON, Jan. 22.—The bill provides for an income tax to go into effect on January 1, 1895, and the first collection on incomes will be made on July 1, 1895. All classes of incomes are included in the measure, and a uniform rate of 2 per cent tax on incomes over \$4000. No tax is levied on those making return of above \$3500 and under \$4000, but the committee deemed it expedient to leave a margin of \$500 below the exemption point in order that returns might be sure from all subject to the tax. In case a person having an income of over \$3500 fails to make return, it becomes the duty of the revenue assessor to make the inquiry as to the amount of such person's income. If the examination discloses an income above \$4000 the income is subjected to twice the ordinary tax, and the party failing to make return is guilty of a criminal offense and made subject to fine and imprisonment.

Particular provision is made for the collection of the income tax due on salaries, not only of officials but also the salaries of individuals received from business firms or corporations. The individual receiving a salary does not pay a tax, but it is made the duty of every Government, State and municipal disbursing officer to retain 2 per cent of all salaries over the taxable amount. This 2 per cent will be taken out of the salaries in bulk at the last payment of salary for the year.

The tax upon corporations includes every sort of corporate stock. This tax is general and without the \$4000 exemption allowed upon individual incomes. It is provided that including the tax on its corporate stock the corporation shall pay the tax and deduct the amount from the dividends to stockholders.

It is made the duty of each corporation to take 2 per cent from each annual corporate income from the amount set apart for the stockholders and pay the total to the internal revenue collector in its locality. Severe penalties are provided for the failure to make proper reduction from the dividends of stockholders and for failure to make returns to the revenue collector.

Swallowed Too Many Swords.

New York, Jan. 20.—Cliquot, a French-Canadian sword-swallower, today swallowed 14 22-inch swords at one time, and tonight lies unconscious and suffering from internal injuries at the Union square hospital. Cliquot gave an exhibition in sword-swallowing this afternoon in his room at the hotel. After swallowing all sorts of swords he swallowed a long cavalry saber, and to show that there was no deception about the act, he placed a bar on the hilt which protruded from his mouth and weighted the bar with a 14-pound dumb-bell. Then he took 14 swords, the blades of which were about an inch wide, and putting them in his mouth swallowed them. A Dr. Hope, for whose benefit the exhibition was given, instead of drawing the swords out singly, drew them all out at once, cutting Cliquot severely and causing the human sheath to faint. A physician was called in and gave Cliquot a hypodermic injection of morphine to relieve the pain. Cliquot was reported in a critical condition tonight, and he is not expected to live.

And This is Susan California.

SAN FRANCISCO, Jan. 20.—The worst snow storm for twenty years is reported from all points in the northern part of the state. At Redding the snow is drifting badly causing a number of accidents. The river is rising rapidly and the low lying country is threatened with inundation. At Sissons the snow fall for the last twenty-four hours is forty-eight inches. All north bound trains are blocked. A furious snow storm is raging in the mountains northwest of Sacramento on the line of the Southern Pacific. All the snow plows are at work in the mountains, and all available men are at work shoveling snow. Thus far all trains have been kept moving.

For the Man Who Can Win.

New York, Jan. 20.—Joseph H. Manley, chairman of the republican national executive committee, came into town unexpectedly tonight. He said, when told it had been rumored that he favored the nomination of Thomas B. Reed for president:

"My candidate for president is the candidate of the republican party. I favor whom the party favors, and the man who is the choice of our convention will have the hearty support of the national committee."
