John Shindler and John Cloe of Canby were in the city on Monday on business. THE CITY SOLONS.

A Lively Session and a Good Batch of Business Transacted.

The city council met in regular session Wednesday evening, and transacted the following business. Mayor Straight presiding:

Application of Brady & McDonough for continuation of liquor license granted. A. Schilling same.

Petition of W. H. Close for a new liquor license granted. Application of L. A. Nobel for continuation of liquor license granted.

Ordinance introduced granting to the Oregon City Manufacturing Company a franchise for the building of a street railway on Third street. Councilman Cooke moved to refer to the financial committee which was seconded by Councilman Stevens. Mr. Jacobs in behalf of the company asked to make a statement relative to why the ordinance is requested. He claimed that it was only for the use of the company and would result in a benefit to the community. The motion to refer to the finance committee was carried, all members voting in the affirmative except Howell.

Report of the recorder for the month of February showed that there had been two cases before the recorder, one for disorderly conduct in which a fine of \$10 was imposed and paid and one for allowing a minor in a saloon, fined \$5 and cost of which the cost was paid and the fine held in suspense.

The following bills were reported favorably by the finance committee and ordered paid:

The mayor called the attention of the council to the bill of H. E. Cross as city attorney and objected to the payment of the bill as Mr. Cross had not complied with the request of the council for an itemized bill. Councilman Broughton stated that he had conferred with a member of the old finance committee who had stated that \$75 was sufficient and that he could not vote for the bill till an itemized account should be rendered. Councilman Albright thought the bill should be itemized. The motion was then changed to exclude the Cross bill and passed. Councilman Kelly moved to allow Cross' bill. Councilman Stevens, Kelly and Greenman voted aye, all others no. The bill was then referred back to H. E. Cross to be itemized.

Relative to the dispensing with the arc lights on the streets, the committee asked for further time which was granted.

The mayor called for a report from the committee, which not being forthcoming occasioned considerable cross firing.

H. L. Kelly for the finance committee reported that he had negotiated the \$800 warrant to pay Dan Lyons for 5th street improvement at ninety-three cents and converted the money into the treasury. He also stated that he had engaged the services of H. E. Cross to assist the city attorney in prosecuting the street assessment cases. Several members of the council objected to the vagueness of the report. Councilman Stevens stated that the employment of Mr. Cross by conservative men like the finance committee ought to satisfy the council. Councilman Cooke said that he did not know that the committee was to ask for sealed bids in the matter. City Attorney Driggs objected to the employment of Mr. Cross, as he had not been consulted in the matter.

Councilman Stevens stated that the committee had tried to work with the city attorney, but when asked for a list of attorneys with whom he could work he referred to several of the best attorneys in the state, all of whom were considered too high priced for the city to employ. The report was adopted, Councilman Cooke voting no, all others aye.

The committee on health and police reported as a smelling committee in favor of correcting certain abuses in connection with certain drains and vaults. They also asked for and received further time for investigating sewers; also for reporting upon the claim of R. Glasspool for damages.

The request of the representatives of the press for a table and seats was granted. Councilmen Stevens, Jagger and Broughton voting no, all others aye.

Ordinance abolishing fire limits passed, also an ordinance prohibiting gambling in the city.

Ordinance introduced fixing the salary

of city attorney at \$5 per month together with such fees as the council may see fit to allow. Ordered published to come up for final passage March 20.

Councilman Stevens moved that the recorder be authorized to notify the sheriff that the city would accept city script for taxes. He also moved that the mayor appoint a special committee of three to revise and enlarge the license systems. Carried. The mayor appointed as that committee H. C. Stevens, C. O. Albright and J. Cooke.

The council canvassed the fire election returns and found J. W. O'Connell had received thirty-nine votes and Max Schulpius thirty-two for chief engineer and that H. Trembath had received seventy-one votes for assistant engineer and the mayor declared in accordance with these footings.

Councilman Stevens moved that the mayor appoint Capt. Thos. Bundy a special police without compensation. The appointment was made and confirmed.

Before the council adjourned the mayor notified the members that there would be a special meeting on the 20th of March.

Humbag.

It's sound old fashion, and expresses just what you meant, after having purchased something of no account. Now there is no humbag about Simmon's Liver Regulator. Some imitation or substitute may be offered you instead, but none will give the relief from Indigestion Dyspepsia and Biliousness like the genuine Simmon's Liver Regulator. You know it by the Z on every package, and the relief it gives.

The Nehalem Journal says that on the morning of February 24th the people of the quiet little city of Vernonia, in Columbia County, were greatly shocked to see what at first seemed to be the lifeless form of a man hanging from the bridge. On closer examination it proved to be a dummy or effigy. On posters attached to the feet of said dummy, it would seem that it was meant to represent Mr. Schoonover, county commissioner. Mr. Schoonover was formerly a resident of Oregon City.

Chas. B. Rose of Vinton, Iowa, but formerly one of the successful business men of this city writes for the Enterprise and says in his letter that they had a fine winter in Iowa with no times to interfere with outside work. He reports as looking up with money obtainable on good real estate security at 7 per cent.

The Newberg Graphic says that J. D. Bell's hack is adorned on both sides with the words, "Free Hack Steamer Altona," in letters so large that he who runs may read. Freight and passenger rates are so low on account of the many boats that are plying on the river that it is only a question of time when some of them will be forced off the line.

Portland Dispatch: Prof. Frank Rigler of the Harrison street school, is a candidate for School Superintendent on the republican ticket. If the gubernatorial nomination does not come to Multnomah county the Professor is likely to get the place he is after.

The Butteville correspondent of the Woodburn Independent notes that O. H. Byland will give one week's vacation in the public school after which he will begin a four months spring term. This will make thirteen successive months Mr. Byland has taught in that school.

McMinnville Reporter: D. P. Thompson is a man whom we greatly admire for his accomplishments in life, and the pluck, energy and ability he has displayed, but we should doubt exceedingly the propriety of his nomination for governor again at this time.

A. B. Marquam was in the city on Tuesday preparing to begin work as deputy assessor. He was planning to go to work in Barlow on Thursday morning.

Prof. D. F. Warner, who has just completed a successful term of school at Currinsville, has been engaged to teach a six months' term in the Holcomb district.

School districts issuing orders on blank pieces of paper are liable to be involved in error of trouble which would be avoided by using order books with stubs.

GLADSTONE IS PROSPEROUS.

Many are Buying and Building Homes in the Beautiful Suburb.

Times are hard and money scarce, but from the time Gladstone property was in the market, not a day, week or month goes by without from one to three new homes are noticed in course of construction in Oregon City's chief suburb. Doctors, lawyers, preachers, druggists, merchants, publishers, newspaper men, editors, politicians, and all thrifty people, who want to make a dollar go a long way, buy a home in Gladstone. It pays.

The following partial list of the purchasers of property in Gladstone confirms this statement, and that proves that this "handsomest home site in Oregon" has a warm place in the estimation of careful, sober business men, who travel around with their eyes open and who appreciate a good thing when they see it:

- Rev. Gilman Parker, Nathan Tingle, H. T. Sladen, John K. Groom, Oliver S. Ohlsen, J. E. Garrow, B. F. Bellomy, James Murrow, August Goetting, C. E. Johnson, B. F. Clopton & Bro, A. J. Joslyn, T. M. Cross, Charles Bolde, R. L. Cheshire, John Mason, U. S. Forbes, R. E. Brown, J. M. Johnson, Joseph Miller, T. L. Charman, C. O. T. Williams, E. E. Charman, John Hill, John Gibson, J. J. Burgess, A. Obituary.

DIED—In this city after a long illness on Thursday, March 1, 1894, Oren Holmes, aged 47 years, 9 months and 24 days.

Deceased was born in Indiana on the 9th day of May, 1846. He enlisted in the Union army in 1862 when he was yet but 16 years of age and served till the close of the war after which he settled in Iowa where he married the woman who is now left to mourn the loss of her companion of the last quarter of a century and more. In 1871 he united with the Baptist church whose teachings he had since consistently followed. For many months past he had been in poor health and suffered in many ways, largely as the result of exposure while in the army, yet through it all he was cheerful and patient. On Thursday evening he passed peacefully away and on Saturday his remains were followed to the grave by his comrades, members of Meade Post, No. 2, G. A. R., of this city, the services other than the ritualistic of the post being performed by Rev. G. W. Giboney.

Tuesday evening there was a meeting of the special committee having in hand the arrangement of a program for the tournament which is to meet in this city this season. They are ready to report to the department meeting a program, which they believe will afford more real tests and a better exhibition than any meeting that has ever been held in the state. It is estimated that it will require something like \$1200 to meet the expense that it will be necessary to incur in making the tournament a success.

Oregon City Building.

The last number of the Pacific Builder contained the following relative to building operations in this city. A few buildings are now in the course of erection but times with the builders here, as elsewhere just now, are rather dull. More improvements are projected and it is hoped that will come on as spring opens. A handsome church building is projected by the Baptist congregation. The site for the new building is not yet definitely settled upon but the project has so far matured that the trustees have authorized the drawing up of plans by F. F. White & Bro., local architects. The proposed church building will be of wood with stone basement. It will be provided with galleries and will be surmounted by two towers with spires. It will seat about 900 people and will cost \$10,000. An addition will also be added to the Presbyterian church enlarging its seating capacity, early this spring. Architect White also has a design for a small business building now projected. He is just now completing two residences at Oswego for Mr. Schwan, the Oregon City plumber. The Sellwood Congregational church, which was designed by Mr. White more than a year ago, will be finished this spring. A furnace will be put in and the interior will be finished. Rev. G. Rockwood is now in charge. Architect Weston has prepared a design for a residence to be built on the bluff this spring by one of our well-known saloon keepers. Mr. Cross, the owner of the Gladstone townsite, has one or two buildings in the course of erection at that place. The plant of the Oregon City Sash and Door company and the Geo. Broughton sawmill are both closed down at present. Mr. Broughton was caused a peck of trouble recently by the rascality of a railroad employee at Portland, and we give our readers notice that if they have anything to collect of him hereafter, they must have credentials as collectors lithographed on their bills. It seems that one of the chief clerks of the Union Pacific, having been discharged by the company, immediately afterward collected about sixty dollars due the company from Mr. Broughton. The latter, of course, had the papers to prove payment but it occasioned some little difficulty to get the matter straightened out notwithstanding.

County Grange Meeting.

On Tuesday there was a meeting of the county grange in this city for the purpose of choosing delegates to the state grange which is to meet in Eugene on the 22d of May. It is not generally known what a vast plant it requires to publish and circulate a metropolitan newspaper. The Chicago Inter Ocean has in its Circulating Department alone nearly one hundred men and women, not to mention the carriers who deliver the paper to all parts of the city before breakfast every morning. It may be mentioned that no kind of weather however severe, is permitted to interfere with this delivery in any way. Of this large force about one-half of them work through the day at ordinary office or clerical work and the other half begin late at night and work until about daylight, preparing and addressing the wrappers, counting and wrapping the papers, "routing" and mailing the bundles. Their work is of the most difficult nature and is done in the quickest possible manner, and yet so well is it done that it seldom happens that a single bundle or paper of its immense edition of nearly 100,000 reaches its destination on other than the right train and at the right time, unless delayed by accident. The system is wonderful and its operation almost perfect.
