It is rumored about town that the Willamette Pulp & Paper company are intending to enlarge their plant at this place, but as far as can be learned the report cannot be verified. We hope that the company may conclude to put in another mill as its erection at this time would mean much for the place in the employment of labor. If built this summer it will make this city the best town in Oregon.

AMONG THE REPUBLICAN CLUBS.

Activity all Along the Line—Good Reports from all Precincts.

The past week has been another busy one with the republicans of this county who seem anxious to get every part of the country organized for aggressive work during the coming campaign.

On Tuesday evening several went out from here to assist in organizing a club at Maple Lane where they found a good crowd gathered. The meeting was called to order by W. F. Brayton after which speeches were made by J. U. Campbell, H. S. Strange and B. F. Swope.

On Monday evening Pope's hall was crowded and many went away because they could not obtain seats, the gathering being the second meeting for this spring of the Young Men's republican club.

It was evident from the close attention given by the large audience that a personal interest is being taken in political matters this year. The speakers of the evening were Hon. Lydell Baker and Hon. Robert Platt of Portland who discussed the political situation in an able and interesting manner.

As a solution of the road question they want the state to build and operate electric lines to run by water power. The committee on insurance reported that they had secured pledges of almost enough funds to enable them to incorporate an insurance company in accordance with the laws of the state, and they were instructed to take the necessary steps as soon as possible.

Quite a number of the prominent republicans went down from here on Saturday evening to help organize a club there and report a rousing time. The details of the organization are told by the correspondent from there.

The Beaver Creek republican club has arranged for a joint debate to come off on Friday, March 23d, with H. S. Strange as leader for the republicans and T. B. Hankins for the populists.

Brown's school house in New Era precinct was crowded by an enthusiastic lot of republicans on Wednesday night for the purpose of organizing a club. The meeting was called to order by Eli Maddock who was made temporary chairman. C. H. Dye and J. U. Campbell made fine speeches, after which they proceeded to the organization of a club and twenty-six members were enrolled.

The Oswego club will have another meeting on Saturday evening of this week with good speakers in attendance.

The meeting at Pleasant Hill which was set for Wednesday evening was postponed on account of the storm. Geo. C. Brownell, who was to have spoken there, received a telegram Wednesday afternoon advising him not to come.

On Thursday a republican club was organized at Barlow with twenty-three members. There was a fair attendance and plenty of enthusiasm in spite of the bad weather.

The Chautauque held a delightful session at the residence of H. C. Stevens last week. Mr. Stevens had out his valuable collection of Indian curios that are worth several thousand dollars.

The Canby boys held another rousing meeting of their club on Friday evening and report everything in good shape with the membership increasing.

THE FARMERS' ALLIANCE.

Met in this City Tuesday Afternoon—Resolutions Passed, Officers Elected

At 11 o'clock Tuesday afternoon, Nathan Pierce, president of the farmers' alliance and industrial union of Oregon, called that organization together for its third annual meeting.

Press, W. H. Galvini, W. H. Spaw and J. W. Dwyer; constitution and by-laws, R. P. Burns, J. C. Oliver, J. Chin, of Linn; finance, H. D. Jory, W. H. Galvani and J. C. Luce; corporations, George W. Weeks, W. H. Spough, E. C. Hamilton of Clackamas; insurance, A. B. Stanley E. H. Cooper and R. P. Caldwell; resolutions, W. H. Galvani, S. H. Holt and M. E. Johnson of Yamhill; legislation, J. C. Luce, W. H. Brees and A. B. Stanley; transportation, George L. Ogle, T. M. Molt and M. Davis; mileage and per diem, J. W. Dwyer, G. L. Ogle and J. H. Whitsett.

At the morning session on Wednesday the hearing of reports of committees was in order and much business was transacted. It was decided not to change the bylaws from their present form.

The committee on transportation declared that commissions have proven a failure and that the only remedy is government ownership and control of railroads to be operated at cost.

As a solution of the road question they want the state to build and operate electric lines to run by water power.

The committee on insurance reported that they had secured pledges of almost enough funds to enable them to incorporate an insurance company in accordance with the laws of the state, and they were instructed to take the necessary steps as soon as possible.

The committee on legislation reported that they had lost all hopes of securing any relief through the tools of monopoly and recommended every possible effort to secure the election of reform legislators.

Concerning the expenditures for education the meeting declared in favor of placing the public school first and foremost.

It was decided not to maintain a state lecturer at the great expense attached thereto and to do the work through local organizers to be aided by the state organization.

The question of making one paper the alliance organ was discussed and it was decided not to designate any paper as such. Resolutions were adopted declaring the alliance to be nonpartisan and independent of parties, except as they advocate the principles of the alliance.

Officers for the ensuing year were elected as follows: President, S. H. Holt, of Jackson county; first vice president, John Everhart; second vice president, Jacob Clem; secretary, E. H. Cooper; lecturer, J. C. Luce; chaplain, Joseph Castro; steward, J. C. Oliver; door-keeper, R. P. Burns; executive committee, W. H. Spough, J. W. Dwyer and M. E. Johnson; delegates to the national convention O. Teel and W. H. Spough.

J. C. Newbury, postmaster at New Era, was in the city Wednesday and reported an accident at his place of a serious nature. The last of the week his little son was leading a mare and colt out in the yard and another boy, the 9 year old son of Jno. Burgone was following behind when the colt kicked him, cutting a gash to the bone extending from the nose over the right eye for two inches or more.

The Chautauque held a delightful session at the residence of H. C. Stevens last week. Mr. Stevens had out his valuable collection of Indian curios that are worth several thousand dollars.

PERSONAL NOTES.

S. C. Baker and Emil Fenina, of Oswego, were in the city Wednesday and called at this office.

Elmer Bacon returned the first of the week from Yokohama, Washington where he has been stopping since last fall.

Hon. J. B. Eddy, and Mr. Lathrop, representing the East Oregonian of Pendleton, were callers at this office Thursday.

Mrs. Louis F. Cook and Mrs. Geo. P. Reynolds, of Pendleton, sisters of Mrs. E. M. Mack, were in the city Wednesday, on their way to the Mid-winter fair.

George Clark and wife, of Portland, old time residents of Clackamas county, were in the city Wednesday to attend the wedding of W. B. Wiggins and Miss Mollie Wilkinson.

H. S. C. Phelps of Canby was in the city Monday evening and took in the republican rally. He is one of the solid bedrock republicans that don't go off after theoretical hobbies.

W. P. Johnson, who has been in the city the past two weeks conferring relative to the interests of the Willamette Pulp & Paper company, will return the last of the week to San Francisco.

Judge McBride returned on Sunday from Astoria and will be at home for about a week. The session of court in Clatsop county was a brief one this time and it gives him a short rest which he has well earned.

Ben Wolfer of Neely was in the city on Monday for a few hours, being on his way to Portland to pay taxes on some property which he purchased there before the democratic times knocked the bottom out of values.

Political Pointers.

Among the candidates who are mentioned in connection with the county judgeship, none stand better than Jas. M. Tracy, who has been a resident of the county almost continually for forty-two years. He has proven himself a careful economical man and it nominated would carry more than the full strength of the party.

The Oregonian has of late contained several interviews with party leaders calculated to boom the candidacy of D. P. Thompson for governor.

Inquiry among the republicans generally relative to the strength of the ticket nominated on Saturday by the populists, shows that they do not generally consider it as strong a ticket as the party might have made.

Married.

KESTERSON-RICHEY.—In Pleasant Valley, Multnomah county Oregon, March 8, 1894, at the residence of the bride, by Elder T. H. Organ, Mr. Chas. F. Kesterson and Miss Elva Richey, both of Pleasant Valley.

The bride looked her prettiest in a cream colored Henrietta cloth dress, with flowing veil and wreath and corsage bouquet of orange blossoms. The presents were useful and handsome and the dinner which was served immediately after the ceremony was tempting and elaborate. The young couple start out in life with the best wishes of their many friends.

When Jacks calls on Miss Eleanor, He always brings her plenty Of flowers and chocolate bonbons, which Most charm the maid of twenty.

And though Sir Jack has skinny arms, And legs as thin as pheasants, How could one blame Miss Eleanor, Who would admire his presents?

No woman has any real admiration for a man's presence unless the man has a good physique—legs and arms well filled out. You can't be "well-looking" if you suffer from any of the diseases caused by a disordered liver or impure blood—dyspepsia, biliousness, and scrofulous affections.

Dr. Pierce's Medical Discovery is a medicine that cures these cases. It's the only remedy that's guaranteed to benefit or cure, in every case, or the money refunded. Medical science stamps it "absolutely potent" as a blood-cleanser, strength-restorer, and flesh builder.

GLADSTONE IS PROSPEROUS.

It is not generally known what a vast plant it requires to publish and circulate a metropolitan newspaper. The Chicago Inter Ocean has in its Circulating Department alone nearly one hundred men and women, not to mention the carriers who deliver the paper to all parts of the city before breakfast every morning. It may be mentioned that no kind of weather however severe, is permitted to interfere with this delivery in any way. Of this large force about one-half of them work through the day at ordinary office or clerical work and the other half begin late at night and work until about daylight, preparing and addressing the wrappers, counting and wrapping the papers, "routing" and mailing the bundles. Their work is of the most difficult nature and is done in the quickest possible manner, and yet so well is it done that it seldom happens that a single bundle or paper of its immense edition of nearly 100,000 reaches its destination on other than the right train and at the right time, unless delayed by accident. The system is wonderful and its operation almost perfect.
