BTYLES THAT ARE FINDING FAVOR. THE PROPER CARE OF GLOVES.

Baggestions Concerning the Selection of Gloves-Directions For Putting on Gloves the First Time-How to Take Them Off Without Destroying Their Shape.

The principal changes that mark the fashion in gloves have to do with the matter of color and manner of fastening. This winter red is one of the most popufar colors, hence gloves are to be seen in all the red shades, including the red browns and red tans, for day and street wear. For evening wear there is quite a choice in colors. White and pearl are the most approved tints, though delicate tan is also in good taste and any color worn to match the dress, yellow, old rose, heliotrope or any chosen hue.

For ladies' wear the walking glove is of glace kid, four buttoned, with three narrow rows of stitching on the back. If the color is one of the red shades, the stitching will be of the same, or of scar-

THREE STYLES OF GLOVES,

let or white, according to the wearer's fancy. A new style of glove also popular for outdoor wear has a gusset let in on the under side to afford ease in slipping on, the extra looseness being reme died by a clasp at the wrist, which draws in the glove and makes it a perfect fit. For evening wear the mousquetaire gants de Suede are the preferred style, according to Harper's Bazar, authority for the foregoing.

In glove wearing, of course, the first object should be to secure a perfect fit. If a glove is of the right size and cut much of its subsequent tractability depends upon the way it is first put on. It should be perfectly adjusted to the hand, with every seam straight and true. each finger pushed down to its proper place, and the whole fitted smoothly. This will require a little time, but it will be minutes well invested, for the glove entering upon its usefulness in this way will ever after be found ready to the hand and in every way pleasing.

A writer in Good Housekeeping advises that no attempt be made to button the glove till the hand is perfectly fitted; then begin at the bottom and proceed gently-do nothing with gloves in a hur-A dress glove for visiting or evening wear should fit closely and perfectly. but at all other times those which have more room inside should be employed. For walking, driving and other service, where protection of the hands is the object in wearing gloves, they should be sufficiently large to give the hands en-

As there is a right way and also many wrong ways to put on the gloves, there CO T Williams et al to M Ekis also a right way to take them off. The strand, lot 7 in blk 13, in Falls anthority quoted says: They should never be drawn off by the finger tips unless they are old and very loose. Taking them off in that way soon stretches the ends of the fingers so that they can never

SILK KNITTED MITTEN

draw it gently back over the hand till Drug store. the second joint of the fingers is reached. It can then be drawn off by the finger tips without damage. When it is thus taken off, the very best way to treat it next wanted, it will fit the hand much more easily and look better than if it were smoothed and flattened back into the form of a new glove.

weather lined with lambs' wool, and then Oregon. there are knitted mittens in silk that are durable and easily put on and off.

### Linoleum In the Kitchen.

An authority on such matters recommends a thin quality of linolenm to be used as a dado for the walls in a kitchen. It should be glued close to the wall, and may be finished at the top with a plain molding. It may then be oiled or varnished, or left in its natural condition, as one chooses. It is in every way to be preferred to a dado of wood, which is liable to crack and leave interstices in which insects may lodge. The dado of linoleum is as easily washed as a dado of tiling, and is even more durable, while it is a good deal cheaper.

In the natural wood color in which this material comes, it would make a very pretty dado for a wall painted pale blue. As linoleum is nothing more than the blown pulp of wood, combined with oxidized linseed oil, it can be readily seen that it can be treated in any way that wood can be treated, while it is exactly suited to this purpose and the purpose of covering kitchen floors. A dado is almost a necessity in a kitchen, because a plastered wall gets chipped with continual wear. Linoleum offers just the right material necessary for such

Popcorn Balls-Boil molasses as for candy; when cooked, pour over the corn, which must be nicely popped and placed in a pan; stir with a spoon until cool enough to work with the hands. Grease the hands with butter, form the corn into balls, and lay them on well buttered dishes.

## INFLUENZA,

Or La Grippe, though occasionally epi-demic, is always more or less provalent. The best remedy for this complaint is Ayer's Cherry Pectoral.

"Last Spring, I was taken down with La Grippe. At times I was completely pros-trated, and so difficult was my breathing that my breast seemed as if confined in an from eage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I began taking it than relief followed. I could not be-lieve that the effect would be so rapid and the plete. It is truly a wor icine."-W. H. WILLIAMS, Crook City, S. D.

## AYER'S Cherry Pectoral

Prompt to act, sure to cure

## A YOUNG GIRL'S FORTUNE

AN INTERESTING SKETCH.

Nothing appeals so strongly to a mother's affection as her daughter just bedding into womanhood. Following is an instance; "Our daughter. Blanche, now 15 years of age, had been terribly afflicted with nervoumess, and had loat the entire use of her right atm. She was in such a condition that we had to keep her from school and abandon her music lessons. In fact, we feared St. Vitus dance, and are positive but for an invaluable remedy she would have had that terrible affliction. We had employed physicians, but she received no benefit from them. The first of last August she weighed but 75 pounds, and although she has taken only three bottles of Nervine she now weighs life pounds; her nervoumess and symptoms of 8t. Vitus dance are entirely gone, she attends school regularly, and studies with consider and ease. She has recovered complete use of her arm, her appetite is splendid, and no money could procure for our daughter the health Dr. Miles Nervine has brought her.

When my brother recommended the remedy I had no faith in patient medicines, and would not listen to him, but as a last resort he sent us a bottle, we began giving it to Blanche, and the effect was almost immediate. "—hrs. R. R. Bullock, Brighton, N. Y.

Dr. Miles' Restorative Nervine is sold by all drugsists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Eikbart, Ind., on receipt of price. Si per bottle, six bottles for 55, express propaid. It is positively free from opistes or dangerous drugs. AN INTERESTING SKETCH.
