## AFTER SMUGGLERS

The Portland Trials Again Attracting Attention.

### BUYING AUSTRALIAN BALLOTS.

Jas. Lotan, Seid Back and Others Now On Trial—Strong Array of Legal Talent—St. Paul Vote Buyers.

PORTLAND, June 25.—The United States district court room is once more a central point of attraction, owing to the commencement of the conspiracy trial, in which James Lotan, ex-collector of customs, Seid Back, a prominent Chinese merchant, and E. P. Thompson, a member of the Merchants' Shipping Company, are defendants. Charles B. Cardinell, an ex-entomps inspector, is also under similar indictments, but yesterday morning his application for a separate trial was granted by Judge Bellinger, government counsel making no objection to the same.

Nearly every seat, outside of the rail, was occupied before the hour of opening court had arrived, while within the bar many of the leading attorneys were gathered, discussing the case in a general way. There was a brilliant array of counsel on each side, the government being represented by Daniel R. Murphy, United States district attorney; John M. Gearin, special council, and Judge Durand, of Michigan. Hon. Chas. W. Fulton, of Astoria, Rufus Mallory, W. W. Thayer, Geo. H. Durham, Raleigh Stott, W. L. Boise, Joseph Simon and George C. Stout appeared for the defendants.

### Pullman Employees Strike.

CHICAGO, June 25.—At noon tomorrow the American Railway union will begin its fight against the Pullman Palace Car company. Vice President Howard said: "We are going to bankrupt George M. Pullman in a short time. We have shut up his works at Ludlow and St. Louis, and shall be able to close his last door at Wilmington by next week. He will be rendered completely helpless inside of ten days, unless he comes to terms." The Pullman company tonight issued a statement regarding the and proposed boycott. After reviewing the situation and stating that the strikers have already deprived themselves of more than \$200,000 in wages, the document concludes with the statement that the boycott is threatened because the company will not agree to submit to arbitration the question as to whether it shall operate its shops at Pullman under a scale of wages which would cause a daily loss to them.

### The Australian Ballot Beaten.

ST. PAUL, June 25.—Some startling charges of fraud in the municipal election are made, by which it is claimed possibly 1000 votes were paid for and the goods duly delivered. The method by which the fraud is alleged to have been accomplished shows a most serious defect in the Australian system of voting. It is claimed that in each precinct where frauds were perpetrated, the democratic judge of election managed to secure one of the numbered ballots. The voter after securing his regular blank ballot from the judges would retire to one of the stalls, substitute the marked ballot, and then go out to the gang, deliver the blank ballot and get his pay. The blank ballot would be used in the same way.

### Some Hop Reports.

Reports from the hop sections of this section are favorable, the vines being reported strong and healthy. Lice have appeared in a few yards and in these they are in such small number as to cause no apprehension for the safety of the crop. But during the past few days a new enemy to the hop crop has appeared. It is nothing more nor less than the tent caterpillar which is proving so destructive an element in the orchards. In different parts of the valley they have attacked several yards, from which they were very rapidly sapping the life blood at last accounts. Owners of the yards attacked were making every effort to rid their ranches of this new and unexpected pest. The opinion was freely expressed that spraying with a strong solution would kill the caterpillars, and this will be the program. Fortunately they have attacked only a few yards and these are all small ones. What they might do is another question, but should the pest not increase and cover the larger yards they will not affect the Oregon output.

The Puyallup Commerce says of the growing crop in Washington:

"Hop lice are coming on about the same as last year, and growers are in arranging for sprayers and do-good. Hops in Puyallup district are making their usual good growth. Some of the growers say they are dissatisfied with short poles and will next year change back to long ones. Contracting seems to have quieted down. By last week's storms hops on the Yakima reservation were damaged

to such an extent that they are not likely to yield over a third of a crop.

A report from London issued on the 9th of June says: "Our market is now in a very strong position, the crop is threatened with black blight, from every district we get reports of a serious attack of fly and lice, and also that the growth of the vine has suffered considerably by the frost and high winds we have had during the past three weeks; in many gardens the vine is only just sufficient to tie to the poles, whilst here and there some are four or five feet up the poles, but all look yellow and unkindly. The stocks of hops here never were so small at this season of the year consumers have never so universally confined their operations to a hand to mouth policy. This being the fact of the case the great majority of brewers will have to come into the market before the next crop can be picked, and holders realizing the position are advancing their prices for all descriptions.

### California Republicans.

The California republican state convention met at Sacramento Wednesday of last week. At the time the last report had been received the only nomination made was that of Morris M. Estee of Napa, for governor. He had three-fourths of all the delegates and had a walkover. The following is a synopsis of the platform adopted:

The platform indorses the national platform of 1892 and again indorses the McKinley bill. The Wilson bill is condemned as a sectional attempt to injure the producers, manufacturers and laborers of the nation, and as a corrupt surrender to trusts, which will result in raising the price of the necessities of life and at the same time constantly increase the deficiency in the national revenue, which deficiency will be met by such odious war measures as the income tax and increased internal duties. The scheme to place wool on the free list is denounced and the demand made that this great industry be guarded by appropriate legislation from unfair competition with foreign countries.

The silver plank is as follows: "We favor the free and unlimited coinage of silver at the ratio of 16 to 1 and the tender in payment of all debts, both public and private, and we pledge our congressional nominees to support the principles contained in this resolution."

The immigration plank is sweeping. It demands the enactment and strict enforcement of such laws as will absolutely and effectually prohibit the immigration of all foreign laborers, both skilled and unskilled, into this country. Government aid in the construction and management of the Nicaragua canal is demanded and a competing transcontinental railroad to San Francisco and competing lines through the state are favored.

The platform favors the use of a limited portion of the United States customs receipts to enable farmers to transport their products from American to foreign ports cheaper than is now done. Improvement of the naturalization laws is advocated; mob violence and anarchistic outbreaks are denounced, and the protection of life liberty and property demanded. Exclusion of the Chinese from the country is demanded; the action of the president in suspending and thus practically nullifying this wholesome legislation, and his attempt by treaties with the Chinese minister to abrogate the same are denounced. The women suffrage plank is as follows:

"Believing that taxation without representation is against the principles of government, we favor the extension of the right of suffrage to all citizens of the United States, both men and women."

The platform demands of congress the retention of the present duty of 2 1/2 cents a pound on larger raisins and the imposition of a protective duty on currants and all other dried grapes and fruits.

### The Vanishing Millions

NEW YORK, June 22.—It is announced this evening that the banks have finally decided to positively reimburse the treasury for the gold exports of this week. These exports amount to \$7,550,000. Of this amount the banks have already paid in \$1,000,000 and the remainder will be in the sub-treasurer's vault by tomorrow night. The banks will contribute toward the total amount, it is understood, in proportions to their holdings of specie.

WASHINGTON, June 22.—The gold taken from the subtreasury at New York today for export amounted to \$2,380,000. After deducting the \$400,000 in gold recovered yesterday and \$100,000 recovered today, the true amount of the gold reserve is \$61,902,776. The cash balance today was 115,662,880.

## ANARCHY'S DEED.

President Carnot Stabbed To the Heart.

### ALL OF FRANCE IN MOURNING.

Vile Deed of an Italian Anarchist—No Note of Warning—Strike of Pullman Employees.

LYONS, June 25.—President Carnot was killed by an Italian anarchist last night. He was stabbed to the heart, and died almost immediately. The president was visiting Lyons in connection with the international exhibition. After passing some time at the exhibition, he proceeded to the Palais de Commerce, where a banquet was given in his honor. About 9:25 o'clock the president started for the theater, where a gala performance was to be given. Several carriages were in the procession, the first being occupied by the president. When half way down the street, which was lined with enthusiastic crowds of people who were loudly cheering, a man rushed out of the crowd and sprang upon the step of the president's laudan.

The people close to the carriage saw that the man standing on the step had a knife in his hand. By the glare of the electric lights they saw the bright blade gleam in the air as the assassin's arm descended and then President Carnot was seen to fall back in his seat, his face deathly pale. One of his hands was pressed to his heart, where the steel had entered the body. M. Rivaud, prefect of Lyons, who was seated at the side of President Carnot, immediately struck the assassin a blow full in the face and knocked him from the step, thus preventing the man from stabbing the president again.

The assassin was immediately seized by a dozen people and would have been torn to pieces but for the prompt arrival of the police, who succeeded in taking him to prison after a severe struggle with the angry thousands who were intent on vengeance.

The assassin is Cesare Giovanni Santo, a beardless young man 20 or 25 years old. When arrested he was attired in a brown suit and wore a peaked cap that matched the suit in color. The assassin was finally taken to the police station in Rue Mollere, where he was questioned by Prefect Lepin. Santo speaks French very badly, but managed to make himself understood. He said he had lived at Gette, department of Perault, for the past six months, and had only come to Lyons yesterday. He gave his age as 22. His replies were given coolly, but without any sign of bravado. He refused, however, to answer many of the questions put to him regarding his motive for stabbing the president, declaring that on this subject he would speak only before a tribunal. When he was searched by the police, a book was found in his pockets in which was written that he was born in a village in the province of Milan, Italy.

When it was learned President Carnot was dead, and his murderer was an Italian, the infuriated populace made an attack on the cafes kept by Italians, and several were totally wrecked before the police could check the crowds. Then they marched to the Italian consulate, but a strong force of soldiers had been placed there, and they were held at bay and no damage was done.

### A POINTER FOR OREGON CITY.

An Aerial Ferry in Practical Operation at Knoxville.

At Knoxville, Tenn., they have a way of crossing the broad river that bears the name of the State. The city horsecars take you out to the station says Harper's Young People, and in a few minutes you may find yourself suspended by two thin-looking cables that stretch away to the tall bluffs on the opposite side. You glide smoothly along, getting higher and higher, until the earth and river seem to be dropping away from beneath you, and the sensation is odd and strange as you look down from the side of the car, which is capable of seating sixteen passengers and often carries more. You can imagine how a bird must feel; and if the trip is made for the first time you heave a sigh of relief when you feel the earth beneath your feet again. It seems hardly possible that those two parallel cables, only 1 1/2 inches in diameter, could be strong enough to hold the weight they are required to, yet each is supposed to be able to support sixty tons. The span between the river banks is over 1000 feet, and on the southern side, where the tall bluffs are, you are 350 feet above the water—no small distance to drop, and this idea probably crosses your mind quite often on the first two or three trips.
