Oregon City to Beaver Creek, Mink, Clark, Meadow Brook, Union Mills, and Colton, leaves at 10 a. m. Monday Wednesday and Friday and returns on following days at 2:35 p. m.

Oregon City to Viola, Logan and Redland leaves Oregon City Monday Wednesday and Friday at 1:00 P. M., leaving Viola same days at 7:00 A. M.

FRIDAY, JULY 6, 1894.

PORTLAND'S NEW PAPER.—O'Brien, one of the incorporators of the Sun, the new paper to be started by the Portland printers, who lost their job on account of the placing of type setting machines in the Oregonian office, says in response to the statement that their object was to down that paper: "The printers of the city of Portland, as well as her citizens generally, appreciate the work done by the management of the Oregonian for the city, not alone for their paper, but for its magnificent building, which is everywhere regarded as one of the finest structures on the coast and a credit to the city of Portland. It is not the design of the Sun Publishing company to run out the Oregonian or any other business enterprise in Portland or elsewhere. They believe there is room for an independent daily, Sunday and weekly paper—an organ of the people who labor with their hands and brains. Thirty-eight printers have been thrown out of work by the introduction of type setting machines in the Oregonian's composing rooms. The new company will be on the co-operative plan and it will have no connection with any interest that will conflict with the public.

A USE FOR BICYCLES.—Among wheelmen a great deal of interest has been manifested in the outcome of the experiment made by the postmaster of Chicago in having his men deliver mail on the bicycle. The affair was briefly mentioned in the dispatches at the time. The experiment resulted in a complete victory for the "bike," as its superiority over street-cars for postal delivery was very satisfactorily demonstrated. The special delivery messengers were given seven messages each to be delivered in the same circuit. One of them was given a bicycle, while the other was told to deliver his messages by means of the street-cars and elevated roads. The contest resulted in a complete victory for the bicycle man, who made the trip in two hours and 40 minutes, his competitor occupying three hours and twenty minutes in making the same trip.

ASTORIA CANNERY BURNED.—The cannery of the Astoria Packing Company, M. J. Kinney, principal owner, one of the largest on the Columbia river was totally destroyed by fire early Friday morning. The loss is estimated at \$70,000, including nearly 10,000 cases of salmon ready for shipment. The insurance cannot be ascertained, but is supposed to be \$40,000. The origin of the fire is unknown. The government lighthouse tender Manzanita, lying at one of the adjacent wharves, was damaged in her upper rigging, and the paint on her hull badly blistered. She was only saved from entire destruction through the prompt action of First Officer Wilson.

Justice blanks, real estate blanks, and all other blanks at the ENTERPRISE office. Portland prices.

NEW JUSTICE OFFICE.—With the change of justice of the peace in the Oregon City district a new office has been opened where Esquire Dixon will be found in the future ready to administer justice after the most approved style. It is in the Bank of Oregon City building right across the hall from the ENTERPRISE office. The room is a good sized one and a rail has been run across so as to separate the court and officers as well as the witnesses, attorneys and jurors from the spectators who will be allowed out side the bar where there is room to accommodate perhaps one hundred spectators. A small jury room has also been fitted up where refractory juries can wrestle with the difficult cases.

THE MOUNTAIN CLIMBERS.—Much interest is being taken in the coming trip to Mt. Hood where the mountain climbers of this section are to organize as a club on the summit of Old Snow Cap. Those having the matter in charge announce that there will be no postponement of the trip of the Mazamas to Mt. Hood on July 19. The Multnomah quarter telescope will be used on the summit of the mountain. A smoke will be given during daylight which will be seen in Portland, as well as the illumination in the evening.

STOLE A COAT.—Last Saturday G. R. McKnight was a passenger upon the northbound Roseburg local and when he got through to Portland he found himself minus an overcoat. He at once took an electric car for this place and with the assistance of Chief of Police Burns soon had the thief, R. L. Jones, in limbo. Jones was taken before Judge Fouts who fined him twenty-five dollars in default of which he was committed to jail and he is now serving out a twelve day's boarding sentence with Landlord Maddock.

KILLED WITH GIANT POWDER.—Tuesday's Oregonian says that at about 6 o'clock Monday evening, Charles Kollmer, an employe of John Burns, placed a charge of powder under a stump on the land owned by George Weidner, six miles west of the city, and in a few short minutes following all that was left of him was a mangled corpse. It was a premature explosion wherein Kollmer lost his life. It may be possible that a fellow workman was killed, but as the news reached the city at a late hour Monday night it was not possible to ascertain definite particulars.

CLACKAMAS REPRESENTED.—The Corvallis Gazette in its account of the closing exercises at the State Agricultural College says in its account of the entertainment given by the juniors: Mr. Lester M. Leland delivered an oration entitled, "As the Sowing, so the Reaping." This oration was exceedingly good and showed much time and study had been put on it. Mr. Leland's delivery was forcible, his speech clear and gramatic, his arguments good and his gestures came in the right place.

Electric Launches.

The electric launch seems to have come to stay. It was popularized at the world's fair, and the public mind once interested is disposed to continue so. The storage battery fleet is among the certainties of the near future. Three boats have been put in service at Milwaukee. At Altoona a boat has been started on an artificial lake of thirteen acres, making trip of seven minutes, and is being patronized extensively. Lake Saltonstall, at New Haven, is being similarly equipped, and is markedly popular. According to the Electrical Engineer, in these and in other cases the current from the trolley road is used to charge the batteries. It is also suggested that with the help of a motor generator, street railway companies, where conveniently located, might make a commercial success of the electric launch during the summer months.

Fewere of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists, price 75c. per bottle.

A Queerly Head

can never rest on a body frail from disease any more than the lovely lily can grow in the sterile soil. When consumption fastens its hold upon a victim, the whole physical structure commences its decay. At such a period, before the disease is too far advanced, Dr. Pierce's Golden Medical Discovery will arrest and cure it. So certain is this, that an offer is made to refund the money paid for it when a failure can be found under the condition of a fair trial.

Protect Yourself.

Insure in the oldest Fire Insurance Company in the world, the Sun Insurance Company, of London. Cash assets \$10,270,555. F. E. DONALDSON, Agent, Oregon City, Or.

THE NEW OFFICERS.—On Monday the new officers took their places in the court house where everything is now moving along in routine order as usual. In the clerk's office Geo. F. Horton holds forth as of old with H. S. Strange as deputy. S. M. Ramsay may be found at the recorder's desk with J. M. Lawrence as deputy. E. C. Maddock is in the sheriff's office ready to serve a paper or make an arrest. N. M. Moody is to act as his deputy. Judge Hayes will attend in person to the duties of the county judge and may be found at the court house. Commissioner Frank Jaggar was in on Monday to qualify and is now sitting in his first term of commissioner's court. D. W. Kinnaird has moved into the surveyor's office at the court house and will have H. H. Johnson as his chief deputy. Superintendent Gibson and Assessor Bradley are continuing their routine business just as though there had been no election with the resultant new terms. M. L. Moore's bonds had an error in their make up which prevented him from taking charge of the treasurer's office till Thursday noon when he had to have new bonds drawn. The mistake was in writing the words twenty-five instead of twenty-five thousand, the number of dollars for which he had to give bonds.

FOR A NEW CHURCH.—Rev. Lewis Gray who has charge of the field hereabouts for the Lutheran denomination reports much interest among his people. The church in this city is in a flourishing condition and had thought to build this year but have about concluded to postpone such action till next spring. At Mackaburg a church has been organized and upon a tract recently donated to the church by Mr. A. Klebe the lumber is being hauled for a church edifice 24x36. The trustees having this work in hand are A. Klebe, Frank Kraxberger and C. Lorenz. Mr. Grey also reports much interest in the work at Highland where a church has been organized with the expectation that they will be able to erect a house of worship next year.

All fine wash materials must be rough dried, then folded neatly and packed in a box or trunk by themselves. It is best they be mended first. Chailies, crepons and summer silks should be carefully shaken and brushed, spots sponged, bows of ribbon taken off and unwed if possible, or the dust wiped off with a bit of silk dipped in weak ammonia water, and packed away in separate boxes. This should also be done to lace. If washable, it should be so treated; if not, dust well and wind about a bottle or wooden roll. Air the dresses all of a sunny morning, hanging wrong side out. If a yard is not convenient, a hot room is a good substitute. Rumped ruffles, bent bones, worn shields, should all be taken out and the waist linings brushed in all seams with cologne and water. Remove all feathers and flowers from hats, putting in tissue paper so as not to mash. Pull out all leaves of the flowers, and before using them again breathe on them. Parasols should be carefully dusted, rolled and put in a loose slip cover. If gauze, put in some safe place and occasionally opened to alter the folds.

How to Use Cold Cauliflower.

This dish may be prepared with cold boiled cauliflower. Break the cauliflower apart, butter a scallop dish or shallow pudding dish; put in layer of cauliflower, moisten with cream sauce and sprinkle over a little grated cheese. Continue this until the dish is full, cover with buttered bread crumbs, and bake half an hour in a moderate oven.

How to Avoid a Cold.

Keep your mouth shut. If people would only do this, they would avoid colds and coughs and oftentimes serious illness. The prescription is a very simple one, and not even the merit of originality can be claimed for it, but it undoubtedly is efficacious. Mr. Catlin, the celebrated traveler among the North American Indians, discovered that they were free from many of the diseases which afflict civilized nations, and he attributed this exemption to the practice of keeping their mouths closed at almost all times, except when they are eating or talking. The mothers teach the children this from their earliest infancy. And does it not stand to reason that it is better to breathe through the nostrils the chilly air when leaving a heated room for the street, or even when going into a cold passage, than letting it go straight to the lungs in an ordinary way? Mr. Catlin declares that "Shut your mouth" is the most important motto which the human language can convey.

How to Remove Mildew.

A spoonful of chloride of lime in a quart of water will probably remove mildew from your table linen. Strain the solution after it has stood long enough to thoroughly dissolve and dip the cloth into it. Repeat if a first application is not sufficient, but wash the mixture well out of the goods.

How to Make Mince Meat.

For every cup of cooked, chopped meat take cups of chopped apples, a cup of the meat broth or liquor, a cup of raisins, a cup of currants, a cup of brown sugar, one-half cup of molasses, a teaspoonful of cinnamon, one-half teaspoonful each of cloves and allspice, one-fourth of a teaspoonful of mace, the juice and grated rind of a lemon, one-fourth of a pound of citron, and one-half of a pound of candied fruit. Mix well together, add 2 cups of cider and simmer until apples and raisins are soft. When taken from the fire, add one-fourth of a cup of brandy. Substitute for the cider a cup of sweet pickle vinegar, and use in place of the fruit remnants of jelly and preserves. The liquor from brandied and pickled peaches aids in making delicious mince pies.

Smuggling Suit, Jury Disagree.

PORTLAND.—The trial of the alleged smugglers yesterday ended in a disagreement in the United States circuit court, and the jurors were discharged. Another trial will be held.

When the jurors filed into the circuit court room yesterday morning they showed evident signs of exhaustion. They had been out just thirty-seven hours, and cooped up in their narrow quarters, wearied through loss of sleep many in the courtroom sympathized with them and hoped they would be discharged, as it was generally understood no verdict could be reached. Judge Bellinger directed the clerk to call the jury, after which, addressing the jurors, he asked:

"Gentlemen, have you agreed upon a verdict?"

Foreman Glover—We have not, your honor.

"Is there any possibility of your reaching some conclusion?"

"I don't think it possible."

"Very well. Gentlemen, you are discharged. Such of you as may desire are free from further attendance on court and may be excused."

Stockholders Meeting.

Notice is hereby given that the annual meeting of the stockholders of the Oregon City Manufacturing Co., will be held at the office of the company in Oregon City, Saturday, July 14th 1894, at 10 o'clock A. M. of said day for the purpose of electing directors of the corporation to serve for the ensuing year, and for the transaction of such other business as may come before the said meeting.

G. R. JACOBS, Secretary.
