THE COUNTY INSTITUTE.

Greatest Attendance Ever Obtained in Clackamas County.

The teachers' institute is coming to be recognized as a potent factor in educational work in this state. From a small beginning and against much opposition the annual institute has grown and won favor in the eyes of the public and of the teachers till it is now recognized not only as a part of a teachers' necessary training but as a duty which each teacher owes to his profession and to his school to attend. It is not out of reason to expect that the institute will continue to grow in favor and scope of work as it has in many of the Eastern states till it will here, as there become a regular summer school for teachers.

Teachers everywhere you go. Never before were so pedagogues as numerous in Oregon City for so long a time as at present, and the best of it is they are not playing but are doing some right good solid work, the sessions being similar to those of a regular school. The instructors are recognized as among the good workers of the state, there being J. H. Ackerman, D. A. Groat and H. S. Strange who are assisting Superintendent Gibson in making it a first-class institute.
