On Tuesday Gordon Williams who has been quite a favorite with the young people around town surprised his friends by bidding them goodbye preparatory to leaving the same evening for San Francisco. He left on his safety intending to cover at least a part of the distance on his wheel.

J. S. Pardom's mother, who has been visiting him for awhile back, received a telegram from her home at Albany on Tuesday stating that a brother whom she had not seen since 1858 had arrived to visit her. She could hardly wait for the arrival of the evening train so anxious was she to get away to see her brother.

A report of the whipping of his eleven year old girl by a man named Briscoe in the Sunnyside neighborhood and a subsequent attack by him upon A. Hunter and N. Becker as they were returning from Portland, was sent in by our Sunnyside correspondent, but as Briscoe appeared before Justice Dixon Wednesday and filed a complaint against Messrs Hunter and Becker for assault and then had them arrested, the trial to come off Monday, the account of the affair is omitted till the evidence has been heard and passed upon by the court. From the appearance of Mr. Hunter's face and clothes when he was in with Mr. Becker Wednesday to give bonds, Briscoe had got the best of the fight, as he had, it is said, used both a rock and his teeth.

During the noon hour Wednesday the firebell pealed forth a note of alarm and soon the three companies under the bluff were speeding away toward the Oregon City Laundry, upon the roof of which the fire was just getting a good start when discovered and the alarm given. By the time the water was turned on the blaze it had covered a section of the roof about six feet square, but with a goodly supply of water it was speedily extinguished with damage not exceeding five dollars.

From the slightly residence of W. P. Hawley on the west side of the river there is a magnificent view of the falls, and in order to afford her friends the pleasure of a fine view of the illumination on Tuesday evening, Mrs. Hawley invited a party of them to her home on that evening. After viewing the fine illumination the evening was spent very pleasantly in a social way. Delicate and delicious refreshments added largely to the enjoyment of the occasion.

Last Saturday morning a defective flue at the old Barlow house, which is now occupied as a rooming house by George H. Hanegan, caused it to take fire, but before it had gained any headway, the alarm had been given and the fireboys were on the ground with the apparatus and water and had the fire out, with damages not to exceed five dollars, thus proving again that it pays to have good fire companies and apparatus.

The next meeting of the Teachers' Association will be held at Highland, August 25th. It is to be hoped that the teachers will attend this meeting. The Association has never yet held a meeting at Highland, and the good people of that vicinity should not be disappointed. This meeting should be made a success. An interesting program has been prepared for the day.

The family of John Pierce who for several years have been living in the lower part of town left on Wednesday for England from which country they came to this country a number of years ago. They leave many warm friends here who are sorry to have them leave.

#### The New Power Station.

At last after many months of backsets and difficulties too numerous to mention the Electric Company find themselves working close to bedrock in the hole where they are delving to get the foundation for their great power station, which is to be the second largest in the United States, that at Niagara alone being greater.

At last the conditions have been favorable and good use has been made of the opportunity and with only about three feet in the deepest parts of the hole into which thousands of dollars have been poured, the men are now busy scraping the bed rock or close to it to get away the last particle of refuse matter so as to secure a substantial foundation on bedrock for the cement of which the massive walls are being constructed, one section now being up. It is expected that by Saturday at the latest another section of the concrete wall can be put in and that after that part of the work once begins there will be no occasion to stop till the wall is completed and ready for the heavy machinery. Certain it is that the company has the water under control with pumping capacity to spare.

At the south end of the site where a section of the wall is already completed, up to the line where it is necessary to begin setting the machinery a force of men are busily engaged with a huge movable crane lifting the ponderous pieces of iron and steel and getting them in place on the said foundation of concrete. It is now only a question of a short time till work will be above the troubles incident to high waters, when it will be an easy matter to complete the station.

#### A Moonlight Ride.

A party of young folks chartered the tug Cygnut and went down to Morey's Park, Thursday evening where a most enjoyable time was had. The evening was spent in a literary way. Miss Sade Chase's recitation, "The Moon," was very well delivered. Refreshments were served. Among those present were Mr. and Mrs. E. E. Williams, Misses Greta Strickler, of Salem; Bertha Barin, of Portland; Annie Dolan, Sade Chase, Pauline Campbell, Vara Pillsbury, Ina Chase, Florence Morey, Helen Eastham, Vara Caulfield; Messrs. H. Stevens, J. Shaw, F. R. Hedges, L. Kelly, C. Campbell, C. Wilson, J. Lewthwaite, C. A. Purdom, Barry Eastham, and Laurie Driggs.

That new residence which Murray & Morrison, the architects, are erecting for L. G. Gurnett near the pulp mill club house is beginning to show off to good advantage. It will be a neat home when completed.

On Wednesday evening the lawn about the Catholic church was brightly illuminated and a large company gathered for a social visit with cool refreshments to please the inner man.

Rev. H. L. Barkley, D. D., of the United Brethren church, will preach on the hill on the evening of the 24th.

Hon. C. B. Smith and wife of Eagle Creek were in the city on Wednesday.
