HAS ADJOURNED.

Democracy's Rest and the People's Relief.

MOST MEMBERS HAVE GONE HOME

President Cleveland Had No Communication To Make—Simply Returned His Thanks.

WASHINGTON, Aug. 28.—The galleries of the senate were packed today with visitors. On the floor were exactly a score of senators. Ransom and Manderson were appointed a committee to notify the president that congress was ready to adjourn. After several short recesses, resolutions of thanks to Vice-President Stevens and Senator Harris president pro tem, were adopted, and the senate was declared adjourned sine die at 2 P. M.

In the House.
WASHINGTON, Aug. 28.—Today the galleries of the house were packed to overflowing with Pathyans drawn hither to witness the closing scenes of the session, which was to expire at 2 o'clock. The attendance was very light, the majority of the members having already gone home. The resignation of Representative Oates, recently elected governor of Alabama, was laid before the house. Wilson offered a resolution which was adopted without division for the appointment of three members of the house to meet a similar committee of the senate to wait upon the president and inform him that congress was ready to adjourn and ascertain if he had any further communication to make.

The chair appointed Wilson, Holman and Hepburn.
The committee appointed to wait upon the president reported he had no further communications to make. "The president also requested me," said Wilson, "to congratulate the house and the senate on the close of its labors, and wished the individual members a happy and prosperous vacation."

At 2 o'clock the speaker declared the second session of the 53d congress adjourned. Great cheering greeted the announcement.

The Treaty Ratified.

WASHINGTON, Aug. 27.—Japan has at last succeeded in an object very dear to her people, and for which the government has striven with all the arts of diplomacy for many years. News has been received here by the diplomatic corps that a new treaty has just been negotiated between Japan and Great Britain, by the terms of which the claim of extra-territorial jurisdiction by the latter is abandoned. Negotiations looking to the ratification of a similar treaty are going on between Japan and the United States and European nations other than Great Britain, and it is said that they will speedily follow the example set by the latter, and fully recognize the right of Japan to exercise jurisdiction in her own territory. The importance of Great Britain's action, which, by the way, rather tends to discredit the stories that she is hostile to Japan in her present war, lies in the fact that it is actually the recognition of Japan as a fully civilized power. The exercise of extra-territorial jurisdiction has always been conceded to barbarous and semi-civilized countries, whose ignorance of the first principles of justice and law seemed to render imperative the retention, by the civilized nations of the world, of the right to administer justice where their own citizens were concerned even as against natives of the semi-civilized country and within its borders. This has been done through the medium of consular courts, and the system obtained in Egypt, China, Japan, Turkey and many other countries. Ever since the wave of civilization rolled over Japan, her sensitive and proud people have resented the continuance of the extra-territorial system, not solely because of its workings, but also because it was a standing declaration that Japan was not civilized, and was a reflection upon the Japanese judiciary. Therefore, the action of Great Britain in surrendering this claim in the new treaty is of great importance to Japan, as marking a distinct epoch in her advancement to the front rank of nations.

Heavy Shipments of Fruit.

CHEYENNE, Wyo., Aug. 26.—The enormous fruit business handled by the Union Pacific this year is without parallel in the history of traffic. Shipments over the Wyoming division now average nine or ten trains each day, and the officials think the rush will continue at least a month. One hundred and sixty-seven special trains of California green fruit have already been shipped over the line to Eastern markets. Few shipments were made until the 15th of July, after the strike was declared off.

Stone's Immigration Bill Goes Over.

WASHINGTON, Aug. 27.—Representative W. A. Stone's bill for consular in-

spection of immigrants coming to this country is involved in a conference committee deadlock, and will thus go over to next session. As the bill passed the house it directed United States consuls at foreign ports to inspect immigrants before they embarked. When the measure reached the senate the Hill anti-anarchist bill was adopted as a substitute. Thus the house and senate passed radically different bills, and there was no way in harmonizing them. The conference was determined to try and get an anti-anarchist bill through as a separate measure, but this failed in the house. If it had succeeded, the conference might have reported in favor of the Stone bill. As it is, the subject goes over, when action probably will be taken on the anti-anarchist bill, and perhaps on the Stone consular inspection immigrant bill.

ABOUT THE NAVY.

Transformation of the Vesuvius to Proceed at Once.

WASHINGTON, Aug. 26.—The transformation of the dynamite cruiser Vesuvius into a torpedo boat, delayed in order to profit by the experiment now making with the new dynamite guns at Sandy Hook, will proceed at once, according to the original plan. Captain Sampson, chief of the ordnance bureau, who personally witnessed the Sandy Hook tests, has returned to this city, and while satisfied that the dynamite guns, as they are mounted on train and elevating carriages, are all that the inventors claim, still he has been confirmed in his belief that they are not suitable for ships. The drawbacks to such use are the great weight of guns and compressors and the valuable space occupied, the short range of the weapons and the impossibility of aiming them without turning the whole ship. Besides the ordnance bureau has been meeting great success in its efforts to develop the use of high explosive shells in ordinary rifled guns. It has already accomplished the projection of a six-inch shell, charged with a high explosive, at a speed of 1400 feet per second over a distance of four miles, and if the 12-inch rifle performs as well with the charge of dynamite, with its superior accuracy and long range, it will be much more efficient for ship use than any other form of gun.

HOTTEST OF THE YEAR.

The People of California Sweltered in the Heat.

SAN FRANCISCO, Aug. 26.—This has been the hottest day of the year in San Francisco, and, in fact, Northern California. All over the northern and central parts of the state the sun blazed out and the heat was intense. At Red Bluff the thermometer registered 110 deg., at Sacramento 106, Fresno 106, San Luis Obispo 96, Los Angeles 96, San Diego 92, and at San Francisco 92. In this city, people deserted their homes for the park and ocean beach, and the street-cars leading to the resorts could scarcely accommodate the crowds. Soda-water fountains and beer saloons did a rushing business, and ice was at a premium. The intense heat lasted till nightfall, when it moderated slightly, a cool breeze from the ocean bringing comfort to the sweltering city. Tonight the conditions are favorable for cooler weather Monday afternoon, with fog Monday night. In the Sacramento valley the heat will be moderate Monday at all points except Red Bluff, where it will continue stationary. In Southern California the temperature will be nearly stationary tomorrow.

Report of Captain Healey's Trip.

WASHINGTON, Aug. 27.—Captain Healey, of the revenue cutter Bear, reports his arrival at Port Clarence, Alaska, July 9. He had just returned from Siberia with 48 head of reindeer he obtained from the natives by trading calico, flour, etc., for them. He found the herd at Port Clarence had increased 150 head since last year. The natives at Indian point and Lawrence island, the points where he touched, were found to be in a flourishing condition. The natives at Indian point had captured five whales and the white men only one. The latter people had become so discouraged they had decided to move away. Captain Healey stated that after coaling he would steam away for Point Barrows, the northernmost point of the North American hemisphere inhabited by white men, and on which the United States government has erected a relief station.

The Monterey at Fort Townsend.

PORT TOWNSEND, Aug. 27.—The Monterey arrived this evening from Astoria, and will remain until the 15th prox., putting in the time at target practice and testing the coal of the different mines here. The tests will be made with a view of coaling the vessels of the Behring sea fleet at this place next season.

Royal Arch Masons.

TOPEKA, Kan., Aug. 24.—The general

grand chapter, Royal Arch Masons of the United States of America, held its concluding session of the triennial convocation this evening. Most of the morning session was devoted to the election of officers. The election was completed at 11 o'clock with the following results: G. L. McCahn, M. G. G. H. P.; Reuben C. Lemmon, of Ohio, L. G. G. H. P.; James W. Taylor, of Georgia, G. G. K.; Arthur G. Pollard, of Massachusetts, G. G. S.; Daniel Striker, of Michigan, G. G. treasurer; Christopher G. Fox, of New York, G. G. secretary; Joseph E. Dyer, of Illinois, G. G. C. H.; William C. Hawian, of Wisconsin, G. G. P. S.; Nathan Kingsley, of Minnesota, G. G. R. A. C.; Barnard C. Witt, of Kentucky, G. G. M., third vail company; George E. Carson, D. C. G. M. M., second vail.

The grand chapter Royal Arch Masons, of Texas, which up to this time has remained out of the general grand chapter, as a result of a difference growing out of the late war, was admitted to full affiliation this morning, and it is probable that the Rhode Island chapter, the only other one still remaining out, will be admitted this evening.

A Coal Mine Horror.

SEATTLE, Aug. 24.—A terrific explosion of gas occurred in breast No. 62 on the sixth level of the Franklin coal mine at Franklin, twenty miles from this city this afternoon. Sixty-two miners were imprisoned and thirty-five were killed. The remainder escaped. The fire was soon extinguished and the work of taking out bodies began. About half the miners were negroes, having been brought from the East four years ago to replace strikers. The mine is owned by the Oregon Improvement company and produces the best coal in the state of Washington. The damage to the mine is not large.

Charleston Has Gone to China.

VELLISO, Cal., Aug. 26.—The Charleston sailed from the yard direct to China at 9 A. M. The ship touches at Honolulu for coal and water. Long-term men have taken the places of all seamen whose term expire before February next. The Philadelphia docks in as soon as the mud which accumulated in the dock during the time the caisson was displaced has been dredged out, which is now in progress. The Bennington is being fungeated, although several of the crew have been granted liberty. Evidently there has been no serious malady on board.

Nebraska's Grand Army in Camp.

GRAND ISLAND, Neb. Aug. 26.—The Grand Army state encampment opens tomorrow. Already the city is crowded by veterans. One thousand tents are occupied in camp. The attendance is expected to reach 20,000. The populist and republican state nominees will discuss politics during the week.

Resolutions of Respect.

It has pleased the Great Spirit to call to his happy hunting ground, the infant son of our worthy brother, A. Oller, and

WHEREAS, In the invasion of our said brother's home, they have lost the "pride of the household" and the joy of a mother's heart. Therefore be it Resolved, That we the brothers of Wacheno Tribe No. 13, I. O. R. M., hereby express to the said family, our heartfelt sympathies, in this their sad affliction, and be it further

Resolved, That a copy of these resolutions be spread upon the minutes and published in the ENTERPRISE, and one thereof be mailed to the family of our said brother, A. Oller.

CHAS. W. KELLY,
C. of R., No. 13.

McKees Rocks, Pa., Feb. 3, 1892.

NORMAN LIGHTY MFG. Co. Des Moines, Ia.
GENTLEMEN:—Your Krause's Headache Capsules have been and still are the greatest sellers and have given the most entire satisfaction of any article we ever kept in our stores. We have sold gross after gross of them in the past two years and not in a single case have they failed to cure any and all kinds of headaches in the most satisfactory manner.

Yours respectfully,
K. D. KRANER,
For sale by Charman & Co., City Drug Store, Oregon City, Or.
