Oregon City to Viola, Logan and Redland leaves Oregon City Monday Wednesday and Friday at 1:00 P. M., leaving Viola same days at 7:00 A. M.

FRIDAY, SEPTEMBER 7, 1894.

STREET LIGHTING FOR PORTLAND.—The contract for lighting the streets of Portland for two years from April 1, 1895, was let last Saturday to the Portland General Electric Company. The city had advertised for bids, but no other bid was offered. The bid was called for at this time at the request of the Taxpayers' Committee of One Hundred, the object being to give any bidder, should there be another, an opportunity to erect a plant in time should he be awarded the contract. Bids were advertised for September 1st, three months prior to that date. The following are the rates proposed in the bid received: For the six months ending September 30, 1895—Each 2000 candle-power arc light, \$0 per month; each 25 candle-power incandescent light, \$1.90 per month. For the six months ending March 31, 1896—Each 2000 candle-power arc light, \$8.75 per month; each 25 candle-power incandescent light, \$1.80 per month. For the six months ending September 30, 1896—Each 2000 candle-power arc light, \$8.50 per month; each 25 candle-power incandescent light, \$1.70 per month. For the six months ending March 31, 1897—Each 2000 candle-power arc light, \$8.25 per month; each 25 candle-power incandescent light, \$1.60 per month. The bid is for 635 arc lights and 710 incandescent lights. Lights in excess of this number ordered after April 1, 1895, will be charged for at the rate of \$8 per month for each 2000 candle-power light and \$1.50 per month for each 25 candle-power incandescent light. The saving to the city at the proposed rates over those now in effect will be \$222.80 per month the first six months, \$415.05 per month the second six months, \$638.30 per month the third six months, \$859.55 per month the fourth six months, or a total for two years of \$13,222.20 on the number of lights now in use.

MORE LAND FOR THE LANDLESS.—In accordance with orders from the department at Washington the land office in this city will throw open for settlement on October 8, township 3 north, range 6 west, lying in Washington and Clatsop counties; October 10, township 12 south, range 3 east in Linn county, will be opened for filings; October 16, township 9 south, range 6 east, will be opened. This land lies on the north fork of the Santiam river in Marion county and is within the Cascade timber reserve and only those who had made settlements on lands in this township prior to the president's proclamation setting it aside, can file claims; October 23, township 9 south, range 5 east will be open to filings. This land also lies within the Cascade timber reserve and is not open to filings to other than those who have made prior settlement.

SENATOR DOLPH HOME.—On Thursday of last week United States Senator J. N. Dolph arrived in Portland with his family from the national capital. Considering his long and arduous senatorial labors which have been continuous for nearly a year, Mr. Dolph is looking remarkably well, and is in excellent health and spirits. "I left Washington," he said, "on the evening of August 18. Of course, congress had not adjourned then, but I did not leave until I was assured of the passage of the river and harbor bill, and also the tariff bill. We came via Chicago and St. Paul, and thence through the

Yellowstone Park. My family was with me, and they all enjoyed the trip very much. The weather was quite warm, but the trip across the continent was a pleasant one. I was very fortunate with the river and harbor bill, and secured in the senate committee over \$550,000 increase. As I secured a place on the conference committee, although not entitled to it by senator, we were enabled to save in the conference over \$400,000 of the increase, being a sum as large as the entire appropriation in the house bill for Oregon or larger. For the great work at the mouth of the Columbia there is an appropriation of \$339,000, which is ample to complete the improvement. For the boat railway at The Dalles \$100,000 is appropriated. This will secure the right of way and commence the work, and in the next river and harbor bill the work will be placed under the contract system, the same as now at the Cascade locks. The work on the boat railway will be crowded forward as rapidly as money can build it.

A DISTINGUISHED SPECIALIST.—Pursuant to the invitation of the Oregon State Board of Horticulture, Newton B. Pierce, a special agent of the U. S. Department of Agriculture, is now in Oregon to investigate the peculiar disease of the apple and pear trees which has attracted so much attention during the past six months. Mr. Pierce finds that the disease is one of which there is no scientific knowledge although it may prove to be identical with a tree disease which prevails in Germany. He is now ascertaining all the available facts concerning it and studying its phases under as many different conditions as possible, and will hereafter make a thorough study of it in his laboratory. For such observations as he has so far made he is inclined to regard the disease as a very serious one. He has also devoted much time to a study of the cause and prevention of curl leaf and states positively that it can be prevented by the use of proper sprays. He regards the lime, sulphur and salt compound as being perhaps the best to use for this purpose on account of its beneficial effects in other directions. If this compound is properly prepared and the trees are thoroughly sprayed with it about three weeks before the time for blossoming it never fails to prevent curl leaf. H. W. Cottle, of Salem, and Mr. M. O. Lowndale, of Lafayette, have both tested the matter this year under Mr. Pierce's direction, and by his direction sprayed only every other row. Both gentlemen have reported that the experiment was successful and convincing.

DONATION LAND CLAIMS.—Representative Hermann's bill, which has now become a law, providing limitations for proofs in donation land claims in Oregon, Washington and Idaho, provides that claimants to such lands have until January 1, 1896, the right to make final proofs, in default of which the claims are held to be abandoned. Notices are to be published in the proper land districts requiring claimants, their heirs or grantees, to make final proof within the time prescribed, and failing to do so, the lands will be restored to the public domain. If the lands have been in the quiet, adverse possession for 20 years of any person claiming the same by descent, devise, judicial sale, grant or conveyance from the original claimant, such possessors shall be entitled to patents upon making proof of such facts. It is further provided that where any abandoned donation claim, settled upon prior to January 1, 1894, by any person under an erroneous claim of right, and has been used by him as a bona fide residence, such settler, if he has exhausted his homestead right, may file with the register of the United States land office the affidavits of himself and two disinterested witnesses as to settlement and improvement, and thereupon must pay to the receiver of the United States land office \$1.25 per acre for the land, not exceeding 160 acres. The act, in the meanwhile, permits contests, as at present authorized. The interior department is directed to issue rules and regulations for carrying the act into effect.

YAMHILL STILL LEADS.—The Yamhill Independent says that the first refrigerator car of green fruit ever shipped from Yamhill county, was loaded there and started on its way to Montreal, Canada Thursday. The shipment was made by the Yamhill Co. Fruit Union, which is so thoroughly organized as to be able to control nearly all the fruit shipments of the county. The aim of the Union is to establish and maintain a reputation for fine fruit, and the car shipped yesterday was a credit to them for it was filled with some of the finest fruit ever grown here. The fruit shipped was given by Messrs. E. W. Dunbar, David Everest, C. E. Hoskins, W. F. Edwards, J. S. Larkin, J. P. Converse and G. W. Cutts, consisting of plums and prunes. The car contains over 1,300 twenty-pound boxes, each box bearing the label of the Union and showing by whom the fruit was grown. It is to be hoped that this marks the beginning of a new era in the fruit interests of Yamhill county.

For Sale, Cheap.
A good six-room house, \$200 cash, balance installments. A chance to put your rent into a home. C. H. Dye.
Receipt, note and order books at the ENTERPRISE office.
Dr. Price's Cream Baking Powder
World's Fair Highest Medal and Diploma.

A NEW CO-OPERATIVE INDUSTRY.—Of late the subject of co-operation has been agitated among laboring men and in many towns the system has been put in operation with varying success. Oregon City is now to try the system, a co-operative brick yard having been started on the land belonging to Jas. Shaw at the head of Seventh street. The company embraces seven men who do all the work and are to share equally the profits and losses. They have a kiln 100,000 brick now ready and will fire it the last of this week. The quality of the clay is said by expert brickmen to be equal to any in the state and with the demand for brick that is now springing up in Oregon City, by reason of the change from wood to brick, the men should make a success of their enterprise, that is if they don't all undertake to exercise that American prerogative of bossing the job.

THE ORIGIN OF MAN.—"The Great Eternal Magnet or Nature's Balance, an Explanation of How Man Was Created and How Produced," is the long and explanatory title of a pamphlet written by Prof. Chas. Cutting, the sage of Clackamas county. In it the author tries to tell how man originated in the atoms of earth and developed through six stages, which he terms, earth life, mineral life, vegetable life, sensational life, animal life and man life. To a person who longs for deep reading and whose time is not valuable it is well worth perusing. It contains several illustrations, among which are the pictures of the author and of the publisher.

NEW LIGHTS.—In compliance with the new contract between the city and the Electric Co., the latter has put in an arc light on Main and Seventeenth streets, and one at the intersection of Seventh street and Molalla avenue. With the arc and incandescent lights now up, it makes Oregon City one of the best lighted towns in the state.

Deafness Cannot be Cured.
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
F. R. CHENEY, & Co., Toledo, O.
Sold by Druggist, 75c.

Base Ball at Canby.
CANBY, Sept. 2.—The Clackamas base ball club came up and played the local club a game of ball today. Following is the score:
1 2 3 4 5 6 7 8 9
Canby 0 0 0 0 0 0 4 0 —4
Clackamas ... 4 0 0 0 0 4 5 1 —14
Batteries—For Canby, Lawyer, Knight and Coleman; for Clackamas, Robinson and Holcomb.
Time of game 2 hours; umpire Mr. Robinson.

To Property Purchasers in Gladstone.
Those of you who have not fully paid on lots purchased in Gladstone of the undersigned and holding bonds therefor, are requested to make payments in the future to the Bank of Oregon City to the credit of the undersigned.
SARAH M. McCOWN,
OREGON CITY, Aug. 29, 1894.

Lost.
On the road between Mt. Hood, Oregon City and Salem, the last week in July, a black mackintosh coat with white woolen mitten in one pocket. A liberal reward will be paid for its return to this office.

Our Candid Advice.
It is seldom that we appear in the roll of spiritual adviser or family physician but there are times when we feel justified in calling the attention of our many subscribers to an article of true merit. We feel justified in saying that Moore's Revealed Remedy contains more actual merit than any medicine it has ever been our good fortune to test. One trial will make you as enthusiastic as the writer.

Ladies, do you know Dr. Mary H. Stanton's Female, the Famous Female Specific, will cure all those aches and pains peculiar to you, and will cost you only \$1 for one month's treatment? I will send any lady a trial box, free, who will send me the names and addresses of ten ladies who are in delicate health. Agents wanted everywhere. Write for full particulars to Mrs. L. M. Little, manager wholesale western depot, Houlton, Oregon.

Flies are great pests, but you can keep them out very easily and cheaply by buying a set of screen doors and windows of Jones & Son over the O. C. Iron Works.
Home-made bread is recognized as the very best at all times and the customers of J. Egle the Shively building baker assert that they can not tell the difference between his bread and that made at home unless it be that his is just a little the better. But don't tell your wife that.

Business at the Land Office.

There was less business transacted at the Oregon City land office during August than for any one month for several years past. Not a single timber entry was made and the cash receipts from commutations and pre-emptions suffered a serious decline. The homestead filings and final proofs have been up to the average of the previous months of this summer. The only business that has increased is that of contests. The land office officials take this as an indication that a revival in land business is to take place in the near future. During the first months of the hard times many poor homesteaders were forced to abandon their claims and now that the return tide is setting in from the city these claims are being taken up again and at the rate contests are being filed it will not be long until the land seekers will have to go back into the wilderness to find a vacant piece of land build a home on.

Hop Growers' Save Money
and trouble by insuring your hops and hop buildings at the leading insurance agency of the city. Will give you 25 per cent discount on the rates of last year. Several of the best American and English companies represented.
F. E. DONALDSON, Agent.

The old veteran, Captain Bundy, has his new boat house all fitted up in running order and is now prepared to furnish at all times the finest line of pleasure boats to be found in the state. Prices reasonable and the best of treatment accorded all patrons. Foot of 11th street.

To Trade.
A good farm of 80 acres near Molalla. Partly improved—buildings, orchard, etc. Level bottom land. Will trade for Oregon City property. Address THAYER & ALDEN, Oregon City.

Have you seen the latest? The place to find it is at the mammoth store of Charman & Son where they have just received a fine stock of the latest novelties in dress goods together with a full line of the latest novelties in trimmings, including the celebrated Hercules braid. The buttons to match are something new and unique which you should not miss seeing.

Wedding stationery, the latest styles and finest assortment ever brought to Oregon City at the ENTERPRISE office.
