Communication from City Attorney Driggs was read in regard to securing the payment of the street assessments due the city from the East Side Railway Co. The attorney gave it as his opinion that the city should make an appearance before the U. On motion the matter was referred to the committee on streets and public property with power to act.

Pat, he of bucksaw and woodpile renown, has lately developed into a contractor of no mean pretensions. Recently he took the contract to cut up and put away the winter's wood for one of our citizens and the latter going home at noon found Pat complacently sitting on the fence smoking his short pipe while six hobos were vigorously at work sawing, splitting and putting away the wood. The owner found that that was the second lot of hobos Pat had on the job that forenoon and was assured that if the supply of hobos held out "he should be after doing no more work." On settling up Pat volunteered the information that he had cleared 25 cents on the job, "which by me soul is as much as some of the big contractors make on their jobs, besides giving the poor divils a chance for a meal."
