STAFFORD SMACKS.

Fattening Hogs on Apples—Coyotes Getting Numerous—Other News Notes.

STAFFORD, Sept. 10.—Some of the "Old Oregonians" can never be pleased; a week ago they were chewing tobacco and growling about the rain. It was too early in the season to be of any benefit; now their tune has changed, but they are still growling about the rain, there was not enough of it to do the spuds any good, and by the present indications the fall will be too late to put in much grain. It seems hard to please some people.

John Schiewe is digging a cistern 12x13 for Conrad Weofle.

B. F. Weddle has been hauling wheat to Oregon City the past week for which he received but forty-two cents a bushel without sacks.

The Stafford school will open Monday the 17th inst, with Mr. Beattie, of Ely, as instructor. We Uns.

Carus Clippings.

CARUS, Sept. 11.—Wheat harvest and threshing are about over. Grain turned out a light yield and prices send a farmer's pluck clear down into his boots.

A goodly number of Carus residents are away hop picking. The writer visited Payne's yards recently. They presented a busy, interesting scene, the work looking very attractive to a spectator. The pickers, however, state that it grows wearying and monotonous when wages are low, and only the fastest pickers can average \$1.25 per day. School began September 3, with an enrollment of thirty pupils. Prof. Evans will teach a term of eight months.

Michael Greybill left Carus last Monday for Corvallis, where he expects to attend the Agricultural College the coming winter.

Elder Hunter is making preparation to go into Eastern Oregon soon to attend to some business matters.

Rev. G. R. McKinley is expected to preach in Graham's church September 23 at 11 o'clock a. m.

Eagle Creek Streams.

EAGLE CREEK, Sept. 11.—While raising the last main stringer of the Bull Run water

works bridge, one of the chains broke and threw Ed McVay, one of the builders thirty-two feet, tearing his scalp nearly nine inches and bruising him all over. Striking the iron and beams of the old bridge checked the force and was the only thing that saved him from instant death. Dr. C. B. Smith of this place was called and dressed his injuries and left him resting easy.

School commenced on the 3rd inst, with a good attendance. Miss Dauvers teacher. E. N. Foster and J. E. Burnett came out of the mountains with fifty three gallons of huckleberries, and they report that there has been 1500 brought out this season.

Capt. Smith and son of Park Place were out on a visit to his relatives.

MINK MUSINGS.

An Accident to a Horse Necessitates his Being Killed.

MINK, Sept. 11.—Quite an accident occurred last Sunday evening as Robert Moebnke with some of his friends was coming home from town. Going at a pretty good gait his horse stumbled, causing him to break one of his fore legs right at the ankle. Mr. Moebnke was obliged to shoot his horse. The boys ought to be careful and not "take off the governor belt" while riding over these rough roads, as it is dangerous for both boys and their horses.

Henry Hughes and John Moebnke will finish threshing at the end of this week, at the end of which time they will have had three weeks steady running in this vicinity.

Mrs. Katie Moebnke and Mrs. C. Blum, of Oregon City, are staying with Mrs. Fritz Blum during hop picking.

Mr. Wille and Miss Flora Moebnke, of Tualatin, are also seen amongst the hop pickers.

Mrs. Warner's orchard, like Tannhauer's wand, has borne green leaves again this year. Such fickle garments, however, can be of little service, for it is almost time for the wind's demon claws to snatch it nude again.

Vox Humana.

Marks Prairie Markings.

MARKS PRAIRIE, Sept. 10.—Everything is looking well since the pleasant showers of last week with the exception of the late spring grain of which there was considerable standing in the shock and considerable not yet cut.

J. R. Marks has returned from his trip east of the mountains where he has been spending the summer months in the pleasant Eastern Oregon climate. He is looking well and reports having had a very pleasant time.

Miss Helen Taylor is visiting the Prairie for an outing of a few days in the hop fields. Hop picking has been in full blast for the past week, and there seems to be a scarcity of pickers in this neighborhood. The hops seem to be good with the exception of some mould and a few lice, but the prices offered are discouraging to the hop raiser, and no doubt there will be twice the number of acres plowed up next spring than were planted last.

Geo. Sutherland of this prairie was a caller at the residence of Mr. Marks at McMinnville one day last week.

A. K. Marks and son, of McMinnville, paid a visit to the prairie one day last week.

SANDY SAYINGS.

Frightful Fall of a Man—Thrashing Machine Accident.

SANDY, Sept. 10.—The sad news just comes from Bull Run bridge, which is being constructed about four miles above here, that a man (name unknown to the writer) while working on the bridge fell a distance of forty feet, striking on the solid rock below. It was thought at first that he was killed, but he was yet alive when the report reached us and a doctor had been sent for. Nothing further is known of the man's condition at the time of this writing.

The cylinder of Whitman & Snable's traction engine bursted the other day and completely wrecked the engine. They got a new one and are as busy as ever threshing.

Theodore Fischer saw a bear the other day within a few yards of his house. He got his rifle and giving Bruin a load killed him.

Geo. Boschin, of Albina, was visiting Mr. Bruns the past week.

E. Stansbury, of Portland, was out on his place cutting his grain.

Mr. and Mrs. Strobridge returned from the sea coast last week. READER.

SALMON SCALES.

Successful School Closed—Delightful Weather—Neighborhood Events.

SALMON, Sept. 8.—Our school has just closed a very successful term of four and a half months. Miss Birdie Galentine teacher. The closing exercises reflect credit on the teacher and scholars alike. Miss Galentine has made a host of warm friends during her stay among us, and we hope to see her in our midst again in the not distant future.

The recent rains have driven the campers mostly out of the hills. However, the dust and smoke have disappeared and it is much pleasanter for those who had the courage to remain.

Mr. Strowbridge is building a large barn on his place one mile east of Willsburg station, and is also clearing thirty acres of land. J. G. Cunningham is busy with his hops. He has ten acres three-fourths of a mile southeast of the station. He will get done picking next week.

Seth Willis has finished his big job of hauling brick for the reservoir on Mount Tabor, and is now hauling wood and brick to Portland. He has yet one million brick on the yard.

Prunes are getting ripe in this section. The Italian prune is about one-half crop; the petite fair crop. The dryers will start up in full blast next week.

George Buchegger caught a fine salmon trout in Johnson creek at the burg one day last week. It measured 17 inches in length. It must have strayed over the McGuire dam at Milwaukie at the time of the flood and has been lying in ambush or hiding to see if Clackamas county was going to do anything with that dam at the mouth of Johnson creek. The poor fish got tired waiting, so came out and swallowed a fly and was taken in.

Albert Myers came down from Currinville this afternoon on business. Hereports threshing as mostly done, but the grain is not turning out as well as was expected.

New Era Newslets.

NEW ERA, Sept. 6.—Mr. Ritzenthaler has traded his farm here to Richard Dundas for a farm over on the coast near the Nestucca river.

Joseph Wilson had the misfortune to lose a horse last Thursday by being burned to death. T. C. Thomas was burning a slaughting and the horse got in among the logs and brush and could not escape.

Burt McArthur is busy threshing the grain crop of the New Era neighborhood. Charley Rider has been threshing on the hill about Mount Pleasant. Will finish up this week.

W. S. Rider has returned from Independence where he has been running a thrasher engine for his brother Oscar. He will return to Independence in a few days to help in hop picking.
