At the same time he would be saving the ware on a wagon, the feed naturally required for himself and team, and could eventually dispense with one team entirely. Also this line will open up and give an outlet to some valuable farm land that could be divided into small tracts where people with a few dollars could settle and kee. enjoy a cheap quiet home. No person can doubt the prosperity of such a line after it was once completed, for the simple fact is very plain to be seen that the line would have more business each and every year so long as people generate and still strive to rise in life instead of descending back to ancient life.

#### A Great Mistake.

A recent discovery is that headache, dissiness, duliness, confusion of the mind-etc., are due to derangement of the nerve aters which supply the brain with nerve force; that indigestion, dyspepsia, neuralgia, wind in atomach, etc., arise from the durangement of the nerve centers supplying these or-

ment of the nerve centers supplying these organs with nerve fluid or force. This is like wise
true of many diseases of the heart and langs.
The nerve system is like a telegraph system,

the nervea which
convey the nerve
force from the

every part of the
body, just as the
electric current is

physicians fall to
regard this fact;

of the disorders
arising therefrom
they treat the
