WHAT OTHERS THINK OF OREGON CITY. -Some of our people are inclined to growl at the slow progress Oregon City is making, but compared with other towns on the Coast its growth during the past year has been most flattering. The following from the Portland Dispatch shows what others think of our town: "Oregon City has not felt the depression like many other places during the past year. Her prosperity has been remarkable and it is estimated that one million dollars have been expended during the year in various enterprises. New buildings and general improvements are noticeable everywhere. Oregon City will become the Lowell of the Pacific, and the time is not Lowell of the Pacific, and the time is not far distant when the place will be the largest manufacturing center on the Coast.
